The Herald says that though this rule is, to a very great extent, a dead letter, yet the "spirit of the rule reaches beyond the traffic in the bodies and souls of men. By manifest implication it stamps all slaveholding with the mark of unrighteousness."

The Morning Star says "New Hampshire has come." It goes on in a jubilant strain and says:

"Two weeks ago we announced that New Hampshire was coming. She is now here. She entered the temperance depot yesterday, with the Maine Law banner unfurled and streaming gloriously, while the hills all clapped their hands. Her train was long and drawn by several engines, among which was one called the "MAINE LAW."

The State is completely swept by the American party. The old parties are *now both* broken and scattered. Of the new party, we have nothing to say at present, more than to give it all credit for the aid it is affording to the cause of *prohibition*. Unless we are egregiously mistaken, we are now sure of a legal instrumentality against the rum business, well worth the wielding."

Bishop Ives writes to a friend in North Carolina that he is now pleasantly situated on the North river, in the summer house of Archbishop Hughes. His employment is that of Professor of Rhetoric and Pulpit Eloquence in the Theological Seminary at Fordham, and as lecturer in two neighboring convents, while his support is ample.

PROSPECT FOR FRUIT.—The backwardness of the budding season gives hope for a good fruit crop the present year. The peach bloom often appears in this region as early as the 21st of March; but we have yet to witness any trees, the present season, that have donned their flowery mantle.—*Richmond Enquirer.*

Morning Chronicle.

WEDNESDAY, MARCH 28, 1855.

ORGANIZATION OF THE NEW CITY GOVERNMENT.

On Tuesday, at 10 o'clock, A. M. the members elect of the new city government met at the City Rooms, and under the direction of the City Marshal, went in procession to the Court House.

In Common Council—James Larrabee was chosen President, *pro tem.*

On motion, a committee of three was appointed to notify the board of Aldermen that the Council were ready to meet them in Convention, for the purpose of taking the oath of office, and receiving any communication the Mayor may be pleased to make.

In Convention.—The oath of office was administered to the Mayor elect by ex-Mayor Tappan.

Mayor Walker then administered the oath of office to the members of the City Council.

Prayer was then offered by Rev. Mr Lamson—after which the Mayor read the following

ADDRESS.

GENTLEMEN OF THE CITY COUNCIL:—We have been chosen by the free suffrages of our fellow citizens to manage the affairs and promote the interest of our City, for the current municipal year.

It is an office of responsibility which I trust we shall all feel.

All of us have taken the oaths of office, and by our presence here signify to our constituents that we have not only accepted the trust thus committed to our hands, but are ready to go forward in the faithful discharge of our duty.

In assuming the office to which by the favor of my fellow citizens I have thrice been called, and encouraged by the renewed indications of public confidence—for which I am deeply grateful, I take the responsibilities of this office with the hope that the information and experience obtained the past two years, may enable me so to discharge its duties as to meet the expectations of my fellow citizens, and to promote the welfare and prosperity of our City. We have invoked the blessing of the Most High upon us, that He would guide us by that unerring wisdom which is from above, and enable us so to discharge our duties that at the close of the year we may receive His benediction.

To those of us who are here as City Officers for the first time, as well as to all of us, I trust that the oaths which we have taken will be far, very far from trivial.

The business of the City Government has been very much retarded the past year, and many things have been entirely neglected, owing to circumstances which I need not narrate on this occasion, as they have become a part of our history and cannot be easily erased from our records.

I trust that there is no member of the present City Council who will be willing to see the experiment repeated; or upon whose conscience his oath of office will rest so lightly as to allow him so far to forget his obligations to his constituents, as to cause the fair fame of our City again to be compromised by such an unprecedented neglect and want of harmony between the constituent branches of the City Government.

Ours is a representative government, and each of its branches has its appropriate functions. Those of the Common Council are entirely legislative, and those of the Aldermen are mixed—both legislative and executive; and those of the Mayor are entirely executive, with the single exception of the casting vote, which he is required to give in case of a tie in the board of Aldermen, or in Convention.

Cases has made it proper and the City Charter has made it my duty to communicate to the City Council such information and recommend such measures as in my opinion the welfare of the City may require.

Among these are the Finances of the City, which are immediately connected with its prosperity, and which will, I doubt not, receive your frequent attention.

The care and improvement of the Streets Roads and Bridges; the protection of private and public property; the sustaining of the Public Schools; and to a certain extent the guardianship of the Public Morals—these and other important subjects your earnest attention is invited during the whole of your official existence.

Finances.

Of the state of our finances it is not necessary that I should speak particularly, as the printed reports of the Mayor and Aldermen will soon be laid before you and the citizens generally. From their report it will be seen that there have been some drafts on the Treasury for which no appropriation was made—Among these are the expenses of the North Block, repairs on Court House, and the increased pay of Firemen.

Statement of City Debt. March, 1855.

For full particulars see Mayor and Aldermen's report.

Streets, Roads and Bridges.

The Streets in our city and the Roads out of the compact part of the city, are many of them in a bad condition. What little repairs have been made upon the Roads the past year, were made so late in the season that it was little better than money thrown away; and it was so late when our present Street Commissioner commenced his labors, and the difficulties with which he was surrounded were so great, that there has not been that improvement in the Streets which we should have been glad to have seen.

There have however, been some improvements—Vaughan street has been repaved and the sidewalks put in good condition its entire length; a part of Market street has been graded and paved; North street has been graded, and other streets have been kept in good passable condition

The two years' experience which I have had, only serves to strengthen the views that I expressed to the City Council one year ago, that too much attention cannot be paid to draining and grading streets.

With the large experience of our present efficient Street Commissioner, I believe that the views I have expressed in regard to the grading of the streets, will be carried out by him so far as he can.

There are several streets which ought to be paved the present season, and among these is a part of Bridge and Deer Streets

It will be necessary to new plank the North Mill Bridge, and perhaps the South Mill Bridge, the present season, and I would recommend the sum of four thousand dollars for Streets, Roads and Bridges

The sidewalks, many of them, are in bad order, being much lower than the middle of the street; the crossings are also bad—to which your attention no doubt will be frequently called.

Fire Department.

The Fire Department, to which the city is so large ly indebted for the protection of private and public property, is under efficient organization and discipline, and has rendered good service whenever it has been called out. It is composed of young men of energy, who know their duty and are ready to do it. The companies are well filled and officered, and is by with pride as well as pleasure that I may add, that as far as my knowledge extends, the utmost harmony prevails throughout the whole Department. May it never be otherwise.

The Fire Department is necessarily sustained at a heavy cost, but when we take into consideration the large amount of property which has been protected, and how much has been saved from the devouring element, and the sense of security felt by our citizens from the knowledge that they have an efficient and well appointed body of firemen, ready at all times to devote their time and labor, and to peril their lives if necessary, for the protection of their property, it is worth more than the whole cost of the Department.

The tax payers probably will not object to the payment of the amount necessary to secure these advantages, if the money is judiciously expended; and on the other hand, if the firemen are properly encouraged in their arduous duties, they will feel it incumbent on them not only to aid in the protection of property, but to sustain, by their influence and example, such wholesome regulations as are essential to the welfare of the community.

There have been added to the department the past year, one thousand feet of leading hose, and one reservoir has been built.

I would recommend that one more reservoir be built the present season.

The whole apparatus of the department is in good condition, and we may safely say that we never had so efficient a Fire Department as we have at the present time. There are two old engines, and a large quantity of hose, &c. which is unfit for use, and which I would recommend to be sold.

Public Schools.

The system under which our Schools are organized is supposed to be as good as can be devised. The scholars are advanced as they become qualified, from the primary, through the intermediate and principal, to the High School, in which all the branches of a good common education are met, as perfectly as can be desired.

Our schools are in their usual flourishing and promising condition, and are accomplishing for constantly increasing numbers of children and youth of our city, those great objects of education, of moral and intellectual culture, and of thorough training for useful pursuits and duties of life, which were designed by our fathers, in the establishment of the Free School system. We have already established and are maintaining twenty school houses in which are employed thirty four teachers—ten males and twenty four females.

The whole amount drawn from the treasury for educational purposes the past year, is ten thousand five hundred thirty seven dollars ninety nine cents.

Some of the school rooms are too crowded as to be uncomfortable and injurious to the health of both teachers and pupils. Some of them are deficient in proper means of ventilation. There is reason to believe that confinement in the foul air of these rooms causes much sickness among the children, and greatly impairs the efficiency of the schools. A person in health cannot spend a single day in many of these rooms, without suffering great inconvenience. This evil should be remedied as soon as possible. I would recommend to your early consideration the importance of erecting suitable buildings for the High Schools;—buildings of the most improved modern plan, and large enough to meet the wants of our increasing population, for many years to come. The economy of erecting such buildings is evinced by the means of educating the young.

Much has been written and much more said, about suitable buildings for the High Schools. I have no plan to suggest, further than this:—let some competent architect draw a building as wanted, how much land is necessary for the proper accommodation of these schools, and where the land can be obtained, and then go to work in good earnest and accomplish the long desired object. We greatly need more school accommodations for the wants of those children who are constantly knocking at the doors of our school rooms for admission, and which it is the settled policy of our city not to turn away; but to receive, care for, and educate, in a manner becoming the public sentiment of the nineteenth century. It is to be regretted that there are so many children in this community who are suffered to go about our streets, and who do not avail themselves of our excellent schools. But of this number a large proportion are children of the foreign population, and I cannot but regard this fact as one that threatens to be a very serious drawback on the future prosperity of our city. The truant law has worked very well in many cases, but it does not fully meet the wants of a community like ours. What we want is a State Reform School, where boys can be placed under suitable restraints, properly cared for and educated, trained to some useful employment, and thus become good and useful citizens. The great object will not be gained until our Legislature shall have given the subject their favorable consideration. I commend the schools with all their interests, to your fostering care.

Alms House and City Farm.

This department is managed by a distinct and separate board from this body, with the single exception the City Charter provides, that the Mayor shall be Chairman of the Board of Overseers, and that the Superintendant shall be chosen by the City Council. In Convention Although this department is not under the control of the City Government, it is nevertheless, intimately connected with our prosperity. I have felt it my duty to bring the interests of this institution to your notice.

This establishment is unsurpassed in arrangement and convenience—a model of neatness and a pattern of discipline, which are conclusive evidences of the excellent judgment and superior skill and industry of its gentlemanly Superintendant, Mr. Scott. It has been the resting place and the abode of comfort and christian instruction, to nearly one hundred inmates, during the year. At the commencement of the year the number of inmates was 89

Health of our City.

We have reason for devout thankfulness to a kind Providence that the voice of health has been heard in so many of our dwellings the past year. That while that desolating scourge which has swept over so many other cities, carrying with it so much suffering and death, and filling so many hearts with grief and mourning, it has not been permitted to come nigh us.

Our Health Committee cannot be too vigilant in the discharge of their duties, as the warm season approaches. On the cleanliness of our city depends in a great degree, under the blessing of God, its health and prosperity. And may nothing be left undone on our part, to secure this great blessing to ourselves, and to make our city a pleasant place of resort to others.

Police Department.

This department of the government is one in regard to which the people are very sensitive. Its duties are delicate as well as difficult, and the efficient performance of those duties depends very much upon the manner in which the officers are sustained by the people themselves, as well as by the City Government.

There is an opinion prevailing to a limited extent, among our citizens, that it is the duty of the police department to seek out and prosecute all violations of the law. It is unquestionably our duty to have the laws and ordinances of the city executed. When one law is disregarded, another may be with equal impunity.

If you are of the opinion that this department is to be held responsible for the finding out and prosecuting all violations of law, then it is merely necessary to adopt such measures as will enable the department to discharge that duty. For full particulars of what this department have done, see City Marshal's report.

The Morals of the City.

In regard to the morals of our city it certainly becomes us to feel a lively interest. We are, in a certain sense, our brother's keeper, and no commercial embarrassment is to be compared for a moment to the increase of crime and profligacy among us. That intemperance, with all its kindred evils, is on the increase, must be apparent to you all. The great cause of so much profligacy and crime in this community, is to be traced directly to the many places in which ardent spirits are sold. And to this I beg leave to call your serious attention. You are too well acquainted with the sad results of this traffic to need that I should attempt to describe them.

There are but few families in our whole community that have wholly escaped its withering hand. It is sad to see some of our young men throwing themselves away, dragging out a most miserable existence here, and preparing for themselves a more miserable future. There is many a young man in this city, who, were it not for this evil, would seek some place of employment, and would soon become virtuous and happy, instead of going from one grog shop to another with his idle and vicious companions. What we need most of all in this community is the *Maine Law*; a law that shall effectually do the work, a law of protection to ourselves and our families. Whatever can be done by you, gentlemen, by your personal influence or by your legitimate authority to suppress this great evil and to promote virtue and temperance, I doubt not will be done by you with all your might.

There are many subjects to which I should like to call your attention. It may be mentioned as a matter of general gratulation, that the new Church which is now hastening to its completion, promises to be one of the chief ornaments of our city. The erection of such an edifice, though designed for the accommodation of a single religious Society, is an honorable pride to all our citizens. But may it not suggest, what, in the opinion of many is an imperative want, the necessity of a large public building, containing a large City Hall, rooms for the various departments of the city government, with, perhaps, accomodations for the Post Office? That such a building is needed, that it would be both an ornament and a convenience to the whole city, cannot be doubted. It is believed by many that the rent of this hall and other apartments of such a building would nearly or quite pay the interest on the debt which would be created by its erection. It seems to me, gentlemen, that this is a matter which merits your consideration.

There is another improvement which I would not fail to notice, and that is the great improvement in Jefferson Hall Market, which improvement has been mostly made by its enterprising occupants, and I doubt not that they will be well paid for their public spirit by the increasing patronage of an appreciating and intelligent community.

Gentlemen of the City Council, I have but briefly touched upon some of the most important subjects which will claim your attention. I doubt not they will receive the consideration they deserve. And permit me, in closing, to express the confident hope that I shall have your sympathy and forbearance and your cooperation in the duties which are before us, that nothing may occur which shall disturb the harmony of our future deliberations, and that we may come to the close of the year conscious of having done our whole duty.

and Joseph Harvey was declared elected.

The Council then proceeded to elect a Clerk, and John W. Fernald having a majority of the votes cast, was declared elected.

In Convention.—A Convention was then formed for the election of City Clerk. John Bennett was unanimously elected.

The Convention rose.

Both Boards adjourned to Thursday evening next at 7 1 2 o'clock.

THE CONCERT THIS EVENING, Will be of more than usual interest, as a musical entertainment, and an occasion of singularly pleasant meeting, for a charitable purpose. The programme is the best selection yet made for the choir, comprising a full variety of the ancient music, including the best and most familiar of the times, with some of the richest old anthems.

Rev. Dr. Peabody is to offer the opening Prayer; and one or more tunes are to be "deaconed off," as in old times, and sung without instruments.

This concert will doubtless be superior as a performance to the others given by the Choir; and the "Old Folks" will of course be greeted by a housefull, eager to hear their last Concert. The proceeds go the Howard Benevolent Society—and those who wish to be very charitable, can pay double price or more for their tickets—as the Concert will be worth all of that. The Funeral Anthem alone will well repay for attendance; and others of the old tunes, if not all, contain "the very soul of song."

SCHOOL MEETINGS. — Meetings for the election of School Committees take place in each of the three Districts to-day.

In Dist. No. 2—this afternoon at 3 o'clock, at Mr. Senter's School Room.

In Dist. No. 1—this evening at 7 1-2 o'clock, at the Ward Room.

In Dist. No. 3—this evening at 7 1-2 o'clock, at the Vestry of the Old South Meeting House.

WASHINGTON, Mar. 26.—Our Gulf Squadron is to be immediately augmented, and if any Spanish vessel hereafter overhauls and fires into an American vessel, she will be promptly chastised.

TOW BOAT BURNED.—PHILADELPHIA, March 26.—The tow boat Thunderbolt took fire yesterday, while towing the brig Ella down the river, and burned so rapidly that the crew had barely time to escape. She was totally destroyed.

Colonel Phillips of Mobile, member of the late Congress, was on his way from Weldon to Charleston, when the cars stopped at a station hou e and he went out to smoke a cigar. While thus engaged, another train ran into the one in which he was a passenger, the seat he had occupied was demolished, and his cloak, which was lying upon it, perforated by a bar of iron, and carried out through the top of the car.

EDUCATION IN MASSACHUSETTS AND OHIO.—In Ohio there is 1 pupil to every 550 inhabitants in College; 1 to every 130 in an Academy, and 1 to every 4 in School. In Massachusetts there is one to every 1000 in College; 1 to every 80 in Academies, and 1 to every 5 3-4 in School. In the aggregate, there is a much larger proportional number in the Schools of Ohio than in Massachusetts.

The Robbins & Lawrence Company, of Windsor Vt., have just contracted for the manufacture of muskets to the amount of some four or five thousand dollars. The contract is made for a company in London, and the arm to be manufactured is the Minie rifle with some modifications. The fulfilment of the contract will require an additional force of two or three hundred men.

One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes will thoroughly cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.

THE ELECTION.

We give to-day the returns very nearly complete, as follows:

Ralph Metcalf is elected Governor by about 1000 majority.

Frank H. Lyford is elected Railroad Commissioner by a majority larger than that of Metcalf.

James Pike is elected to Congress in Dist. No. 1, by 3064 majority. The vote stands—Kittredge, 9783, and Pike 12,874.

In Dist. No. 2, Mason W. Tappan is elected by 3810 majority, the vote for Tappan being 12,502, and for Morrison, 8,392.

In Dist. No. 3, Aaron H. Cragin is elected by 2,605 majority—the vote standing, Cragin, 11,103, and Wheeler, 8,498.

The entire Congressional vote cast in all the Districts is about 63,500.

The Council stands as follows, being all the American ticket:

District No. 1, John Dame.
" No. 2, Nicholas V. Whitehouse.
" No. 3, Stephen Smith.
" No. 4, Milan C. McClure.
" No. 5, William Tenney.

The Senate stands as follows:

District No. 1, Marcellus Bufford.
" " 2, Thomas J. Melvin.
" " 3, Nathan Parker.
" " 4, William H. Rixford.
" " 5, George M. Herring.
" " 6, Moody Hobbs.
" " 8, Geo. W. Hammond.
" " 9, William Haile.
" " 10, Nathan Mudgett.
" " 11, John Clough.
" " 12, Jonas D. Sleeper.

All the above men are the American ticket except Mr. Sleeper of No. 12. The Coos Democrat states that he is not elected, but that Aurin M. Chase, the American candidate is elected. L. D. Mason will of course be returned by the legislature in No. 6, where there is probably no choice by the people.

The House, according to the Patriot contains 311 members, of whom 85 are Democrats, and the remaining 226 American.

In all the Counties except Coos, the American ticket is chosen probably, though in Belknap and Carroll the vote is close.—*Manchester American.*

It is said that at least ten of the twelve Senators, are in favor of a prohibitory liquor law.

FREDERICKSBURG ELECTION.—At a city election last week in Fredericksburg, Va., thirty or forty Irish railroad laborers voted under the provision of the city charter, that all householders were entitled to a vote. To offset this, Know Nothings went out into the counties around, and brought in men made them sales of real estate so as to make the new comers legal voters, and beat their adversaries by a majority of 165. About 200 more votes were thrown than usually appear there on election day.

SEVEN DAYS LATER FROM EUROPE

ARRIVAL OF THE ATLANTIC.

NEW YORK, 27.—The Atlantic has arrived, with her regular dates. She experienced westerly gales the entire passage. She brings 74 passengers, among whom are Archbishop Hughes and Bishop Newman.

The Czar Nicholas expired shortly after noon on Friday, March 2. His disease was atrophy of the lungs, and he had only a few days' sickness. His last words to the Empress were—"Tell Frederick the King of Prussia to continue attached to Russia, as he has hitherto been, and never forget his father's words." It is said that a few days before his death the Czar succeeded in effecting a complete reconciliation between his two eldest sons, Alexander and Constantine, who were at variance.

The Emperor Alexander II. has succeeded peaceably to the Russian throne. He has issued a manifesto stating that he will adhere to the policy of his father Nicholas. Constantine and the other brothers have taken oaths of allegiance. Alexander has confirmed as diplomatist Gortschakoff, with the previous instructions to negotiate. The first preliminary conference has been held at Vienna.

Alexander had appointed Gen. Rudiger Minister of War. The Allies have ordered their generals to press forward the war.

There had been more fighting in the Crimea. The French stormed a redoubt skillfully erected by the Russians, and several hundreds were killed. A strong rumor prevailed that the Grand Duke Michael had been wounded, and died at Sevastopol. A large force of Russians threatened Balaclava. The blockade of the Danube has been raised.

Broussa had been destroyed by an earthquake, with most of its inhabitants.

A disagreement had arisen between Napoleon and England. The former said the two armies should not act together if Roebuck's Committee proceeded. Clarendon went express to Boulogne and made matters straight. Meantime the committee proceeds, but it is thought that Parliament will be dissolved.

There are serious difficulties in Ticino and Switzerland.

The news of the Czar's death was received in England with every demonstration of joy. At several of the theatres the managers came before the curtains and announced the fact, which was received in most instances with tumultuous cheering. Some of the people were disappointed that the authorities did not ring the church bells.

Cotton active, but closed with tame sales. Sales of the week 7000 bales at 1-2d advance. Breadstuffs dull. Wheat 2d lower. Flour is lower. Corn 1s lower. Consols 93.

NEW YORK, March 26.—In the cases of Hyler, Morrissey, and Linn, three of the accessories of the Poole murder, Judge Norris discharged the habeas corpus, considering the indictment for murder to supersede the right of examination by the magistrate. The parties were remanded to prison.

BUFFALO, March 26.—The weather has been quite mild here to-day, although a snow storm has prevailed. The Lake is filled with ice as far as the eye can discover, and it is the opinion of the oldest mariners that it will be quite late in the season when the navigation opens.

RUTLAND, Vt., March 22.—Hon. Judge L. S. Phelps, late U. S. Senator from Vermont, expired at his residence in Middlebury yesterday at two o'clock.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Disease, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt, and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the cheapest medicine.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D, State Assayer, Boston.
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *splintered* those *knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unremitting efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter or rot the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from Ladies, and Experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst form, and that before its use I have been greatly cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of Marchisi's Uterine Catholicon, which has relieved me of Female Complaints of fifteen years' standing, all of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 57 Mill street.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

STREET CROSSINGS.

Look you, Messrs. Editors, don't be after getting the Street Commissioner to tear up the stone crossings, until you get the right location for the new ones. Your proposed crossing from the new North Church to the corner of Daniel street, begins right, but does not land in the best place exactly. It should go straight across, so as to meet the sidewalk nearly in front of the P. E. Bank.

In this arrangement the old wide crossing near the Market would be entirely dispensed with; and the flag stones therein would make the new crossing, and also the other towards High Street.

You will see this, and any one will, who looks at the premises.

A FOOT PASSENGER.

LECTURE ON MUSIC.—*Messrs. Editors:*—Allow me to express my pleasure and satisfaction with the Lecture on Church Music, which was delivered in the Temple on Sunday evening, by Mr. Lucas; and also my regret that the audience was not larger; owing, I suppose, to the short notice on which it was held. Mr. L. is evidently a man of ability, well acquainted with his subject; and earnestly desirous to promote that style of Church Music which he deems best, viz., the solemn and dignified. Many who heard him were highly pleased. J.

☞ Godey's Lady's Book for April, is embellished with the Little Sportsman,—and A Villa in the Grecian Style,—and with fashion and pattern cuts almost innumerable; also Furs for the Ladies, and the Beasts that wear the furs before the ladies get them.

Received from Federhen & Co., Boston, via Morse of this city.

☞ Frank Leslie's New York Journal for April, is just received from the publisher.—Large 4to, with great variety of tales, useful receipts, &c.

It is said that every witness upon the famous trial, some years ago, of the mutineers on board the Somers, has since died a violent death.

We find this item in the Portsmouth, Va., Transcript, not as original there. We doubt its correctness; and would thank any officer of the Navy who knows, to set the matter right.

THE CUBAN ENTERPRIZERS DONE IN LATIN.—Buchanan, Soule and Mason made a voyage from Europe, via Cuba, towards the White House, which some one has done in nursery Latin, thus:

Tres fratres stolidi
Took a boat, to sail to Phillippi.
Stormum surgebat;
Et boatum overturnebat.
Omnes drowneruut,
Qui swimmere non potuerunt.

Daniel Williams, indicted with the late William Poole, for an attempt to skin alive one Brinkerhoff, a carman in New York, has been convicted. In mitigation of punishment, it was alleged by prisoner's counsel that the whole affair was a frolic—but the judge considered it a wanton and unprovoked outrage, and Mr. Williams will probably be placed in a position where he can indulge his frolicsome disposition with less danger to the community at large.

A suit, involving the town of Columbia, Tenn., and adjoining property, has lately been decided by the Supreme Court of Tennessee in favor of the plaintiffs and against the citizens of Columbia. The property is estimated to be worth from four to five millions of dollars.

DEATH OF DR. HURD.—Dr. Josiah Stearns Hurd, long known as an eminent physician and skilful surgeon, died in Charlestown, on Sunday afteroon, of apoplexy, with which disease he was attacked a few days since. He was born in Charlestown 14th March, 1796, and was consequently 59 years of age.

Morning Chronicle.

THURSDAY, MARCH 29, 1855.

FRAUD AND SUICIDE.

In Boston, on Tuesday, as we learn from the Boston papers, considerable excitement was occasioned by the announcement that Mr. Thomas W. Hooper, the paying teller of the Merchants' Bank, had committed suicide.

It seems in examining the teller's "cash account" on Monday, the President was induced—in consequence of the presence of an unusual amount of bills of one or two other banks,—to question him with regard to the matter. The teller replied that his cash was correct, and, upon examination, it was found to be so. The President was at the Bank early next morning, being still suspicious that all was not right, and renewed the inquiry of Mr. Hooper why it was that he had on hand so large an amount of bills of the Grocers' and Atlantic Banks. The reply was not entirely satisfactory, and Mr. Hooper seemed displeased that the matter should be pressed, in view of the fact that his cash account had been found to be correct. This was about 9 o'clock in the morning. Mr. Haven said his duty as President demanded a close inquiry, and Mr. Hooper replied that this was true, and expressed a hope that the inquiry would be pursued without delay. He seemed cheerful about the matter. At the close of this conversation, and without returning to his desk, he left the bank, and nothing was heard of him until about half past ten o'clock, when the porter found his lifeless body suspended from a beam in the cellar of the bank building. The porter, greatly frightened, and without having recognized the body, informed the directors of the bank "that a man had hung himself in the cellar." It appears that immediately upon leaving the bank, he proceeded to a store in Commercial street, purchased a clothes line, and with it returned to the basement of the bank. He doubled the cord, and having made a noose at one end, tied the other end to a beam in the ceiling. The halter thus adjusted, he got upon a stool, tied his legs fast, put his neck in the noose, and allowed his body to suspend. Three strands of the rope were broken, and it is supposed this was occasioned by the first shock.

Inquiry was now instituted as to the presence of so large a number of the bills of other banks, and it is supposed that on Monday afternoon, when Mr. Hooper knew that the cash was to be examined by the directors, he obtained on certified checks, through the agency of a broker, Mr. Augustus S. Peabody, the sum of $25,000 from the Atlantic Bank, and an equal sum from the Grocers' Bank. It was also ascertained that he borrowed some $8000 from a friend.

The Boston Courier says:

The directors, on Tuesday, examined the cash account of the late teller, and found it to be correct; so far as they have been able to ascertain, none of the Merchants' Bank funds have been embezzled. The tellers of the Atlantic and Grocers' Banks—who loaned $50,000 of their employers' funds on unauthorized and illegal certificates, and that too, in the face of the statement of the broker, Mr. Peabody, that the directors of the Merchants' Bank were about to examine their teller's cash account, and that Mr. Hooper wanted the money in order to make it good—will find it difficult to give an explanation which shall be satisfactory for conduct so unwarrantable. What has been done with the money raised by Mr. Hooper does not yet appear to any degree of certainty, but it is supposed that he has been dabbling in stock operations.

Mr Hooper was 33 years old. He leaves a wife and three children. He has been connected with the Merchants' Bank for a period of 24 years.

Since the above was written, we have heard of two other parties from whom loans were obtained by Mr. Hooper, to the amount of $15,000, which makes the total amount borrowed—to make his "cash account" fit for inspection—to be $73,000. Had the teller committed self destruction on Sunday, the burden which has now fallen on the Grocers' and Atlantic Banks and individuals, would have fallen on the Merchants' Bank.

In regard to the $25,000 obtained of the Grocers Bank on A. S Peabody's check, certified by Mr. Hooper, it is stated that during yesterday the Merchants Bank sent $25,000 in Grocers' Bank bills to that bank, with the request that the amount should be placed to the credit of the Merchants' Bank. The Cashier of the Grocer's Bank took the money as it was laid on the counter by the messenger, and placing it in the drawer, replied in substance that he could not give the Merchants' Bank credit for the money, but would give that bank a check for the amount. This the messenger declined accepting, and preferred taking back the money, but the cashier of the Grocers' Bank having the amount safe in his drawer, chose to let it remain there, thus making the bank whole, by a sharp financial ruse which will probably result in litigation. We give the story as we have heard it, without vouching for his authenticity.

MASSACHUSETTS LEGISLATURE.—On Tuesday, in the House, the amendment to the liquor bill, which was adopted on Monday, prohibiting the sale of wine for sacramental purposes, was so modified as to allow the sale of "unadulterated" wine for such uses, and then after some debate, the bill was passed to be engrossed by a large majority, viz. 291 Yeas, 31 Nays: 35 members being absent. The Chronicle states the Boston delegation as voting, 20 Yeas, 20 Nays: 3 absent.

The Advertiser says the bill was notoriously drawn up, out of the House, (i. e. by the State Temperance Committee,) and that this way of doing the business has probably resulted in the passage of a law admirably adapted to its intended purpose.

President Lord of Dartmouth College regards slavery as a divine institution, and recommends the Roman method of selling insolvent debtors into servitude.

THE KANSAS HERALD OF FREEDOM.

After all the indignation and excitement which the *Nebraska Bill* occasioned, it is impossible to believe that any true Northern man can fail to watch, with great interest, the progress of events in the new territories. Mr. George W. Brown has long been known as a vigorous and influential editor in Western Pennsylvannia.

When the Nebraska Bill was before Congress he announced in his paper that, if that iniquity should be perpetrated he would move his press into *Kansas Territory*, and stake his talents, property and life, on the defence of free principles there. True to his determination, he broke up his prosperous establishment in Pennsylvania, and was setting type at Lawrence, in Kansas, on the first of Jan with no roof over his head.

Since that time he has issued a handsome and intensely interesting paper each week. He has suffered from ill health during the winter, and now he says his subscription list will by no means pay the cost of printing his papers, and he appeals to every friend of the freedom of that vast and beautiful Territory to give him a helping hand. The subscription price of his paper is only two dollars a year, and the postage only twenty-six cents.

Now what man who professes to have a soul in him, and to dread the vast extension of human slavery in our beloved country, will not contribute two dollars a year towards sustaining one of the largest and best papers in the United States. This matter must be attended to immediately. The paper is the organ of the *New England Emigrant Aid Company*, and if it should fail for want of support, its failure would be claimed as a triumph of slave interests, and a failure of all attempts to save Kansas for freedom.

The paper is filled with the most interesting and reliable accounts of the territory; while information which is obtained from the *slave papers*, of which several are printed there, cannot be at all relied upon by northern people.

Mr. J. P. Morse will solicit subscribers for the Herald in Portsmouth, and it seems impossible that gentlemen among us, who opposed the Nebraska Bill, can allow this opportunity of helping the cause of freedom in Kansas to pass unaided. †

THE BRITISH DESERTERS.—Andrew Uprichard and Thomas Carey, the soldiers who deserted from the British army and have been in jail in this city since July last, on the charge of larceny from the Queen's Treasury, at Sydney, C. B., are to be discharged to-day.—Some $700 were stolen, but the evidence does not prove to be of the kind to detain them.—A portion of the money belonged to Mr. Thomas Twining, who is now in the Crimea, having been ordered there in December. A process was issued on Friday afternoon to obtain possession of the money. It is supposed the Commonwealth will be responsible for the board of defendants.—*Boston Courier, Monday.*

Mr. Commissioner Woodbury very properly discharged these men from his Court last July or August;—and we said then, as the Court in effect says now, that they had committed no crime in or against the State of Massachusetts, and ought not to be held for a moment by her courts.

HON. MR. KITTREDGE.—A few days ago, we published from the Exeter News Letter, Wm. H. Sewall's letter endorsing Dr. Kittredge's Votes against the Nebraska bill. The Manchester Democrat in publishing the letter, remarks:

That this gentleman firm and unwaveringly opposed the Nebraska bill during its discussion at Washington, we have never had any occasion to doubt.

Our readers will remember the public feeling in favor of Messrs. Kittredge and Morrison on their return home last summer. Contrary to expectation, however, they became silent on the Nebraska issue, and both accepted a nomination for a re-election from conventions that fully endorsed that base measure—leaving their constituents to infer that they had not only *acquiesced*, but stood ready to aid in carrying out the provisions of that act. It was for the misconduct of these gentlemen at home, that they have suffered a most overwhelming defeat at the hands of the people.

NEWSPAPERS IN ENGLAND.—The Stamp Act there, on newspapers, has just been repealed. The Boston Advertiser says:—

The practical working of the stamp system since 1836 has been that a penny postage on every newspaper, has been prepaid at the moment it was printed, by the publisher. The stamp, costing one penny, was affixed to every paper. Whether papers went by mail or not, they were stamped. Once stamped they might go by mail as many times, and as long as they would hold together; and, in fact, so expensive are English papers, that with this facility of circulation, each paper, once printed, is, on an average, mailed three times—its one penny stamp covering its postage each time without a new demand.

This system is now to be abolished. Papers are to be prepaid when they are mailed, and not before.

In Austin, Texas, lately, a slave named "Phil," entered a store and bought a hundred dollar watch, while his master, who was standing near, declared he couldn't buy a brass key to wind it up.

The above is going the rounds. We publish it for the benefit of those who can believe it. We don't.—*Lowell News.*

Nor any body else except the very greenest readers.

LOCAL.

POLICE COURT.

"SHAKING DOWN."—Kate Emery, the most notorious *nymph de pave* in this city, was arrested by the City Marshal, on Tuesday evening, and brought before Justice Parker Wednesday morning, upon complaint of a German, for "shaking him down," i. e. stealing fifty six dollars from his pocket, so adroitly, that he did not miss the same until a short time after, when he opened his pocket book to pay for a cigar. The Marshal succeeded in recovering fifty four dollars from her,—forty eight of which she had tucked down in one of her stockings, and six had been given to her paramour, from whom the same was recovered; the other two dollars she had spent for "oyster pies." After arrest, thinking she might escape by 'owning up,' particularly when confronted by proof, she acknowledged the whole matter, and various other 'shakings down.' She plead guilty to the complaint, and was bound over to the C. C. Pleas, to be holden on the 3d Tuesday in September next, in the sum of $400. For want of sufficient sureties she was committed to jail, where she will probably remain until sentenced to the State Prison.

SCHOOL COMMITTEES.

District No. 1.—The election was held on Wednesday evening. The following gentlemen were elected:

Samuel M. De Merritt, Charles A. Shannon, Benjamin Murray, John S. Harvey, John W. Fernald, Wm. R. Martin, Willard Brown.

District No. 2.—The following persons were chosen on Wednesday afternoon:

William Lamson, Robert O. Treadwell, Ichabod B. Claggett, Marcellus Bufford, Thomas L. Tullock, Andrew Gardner, John Knowlton, 2d.

District No. 3.—On Wednesday evening, the following gentlemen were chosen:

A. Q. Wendell, Samuel Clark, Richard Walden, William Merrin, Henry T. Curtis, Aaron Lang, Benjamin Ordiorne, 2d.

The first named gentleman of each district committee, form the High School Committee.

HANDSOME PRESENT.

We have seen, with much pleasure, in the new Mercantile Reading Room, a valuable present to the Library Association, made by Rev. Daniel Austin of this city. It is no other than 100 large and spirited Engravings, from Shakspearian Scenes, &c., with the requisite furniture for use and exhibition. Each Engraving is 18 by 24 inches, and accompanied with a letter-press description. The following note, from the generous donor, at once describes the gift and gracefully makes the donation.

To MR. WILLIAM S. CHASE,
Secretary of the Ports. Mer. Lib. Association:

DEAR SIR:—I have on hand a complete selected copy of the Boydell Shakspearian Gallery, comprising One Hundred Plates, prefaced by the portraits of King George 3d of England and his Queen Caroline.

They have afforded me so much pleasure that I am actuated by the desire to make them in their way more extensively useful—therefore beg leave to offer them, together with the Black Walnut Stand on which they rest, to the acceptance of your Association—and in token of my continued and increasing regard for said Association, and best wishes for its prosperity. Faithfully Yours,

DANIEL AUSTIN.

Sherburne Place, March 27, 1855.

☞ The Concert by the Old Folks Choir, on Wednesday evening, was in every respect successful and satisfactory. The chorus consisted of nearly a hundred performers; who sung through the long and rather difficult programme, with the spirit and precision for which the Choir is noted. The entertainment was closed with Old Hundred, in which the whole audience joined, by request; and the standing hundreds poured forth a mighty chorus to that majestic old tune, fitting to close the labors of the "Olk Folks," which have been so eminently successful over all competition for musical fame. To the skill and application of Mr. Christie, as leader, very much of this success is due.—The attendance was good, and a handsome sum will be realized for the poor.

HO! FOR THE WEST!—Seven of our enterprising young men left this city on Tuesday morning last, to seek their fortunes in Minnesota. Success to them, say we.

SECRET SOCIETIES.—The Ohio State Journal has the following:

There can now be no mistake as to the organization of secret societies all over the country, especially at the West, under the patronage of the General Government. In this State, Gen. Joel W. Wilson, of Tiffin, is the President of the order. We have the names of all the officers of the "Grand Council," but deem it only necessary to dwell on the general facts. At Washington, the Postmaster General, a Roman Catholic, takes the concern under his patronage, and Mr. Jones, who is a clerk at Washington, is maintained at the expense of the people, to collate the correspondence, and elaborate the facts gathered from different parts of the country—a work he is well qualified for if he can be kept sober and under control. He is placed at Washington for reasons which will strike any one on a moment's consideration; he there can be furnished with printing, stationary and *franks*, to any extent.

The reputation enjoyed by the VEGETABLE PULMONARY BALSAM, for *Coughs, Colds and Consumption*, has been acquired through long years of success, and those troubled with pulmonary Complaints should by all means try it—*Dover Gazette, N. H.* [See advertisement in another column.] 2w m22

The Greatest Medical Discovery of the Age, is
AYER'S CATHARTIC PILLS.
They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.

United States Bounty Land Agency.
Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

A GOOD DWELLING HOUSE eligibly situated, suitable for a small, genteel family, containing Parlor, Kitchen, Pantry, Closets, four or five Sleeping Rooms, with good water and good out door privileges. Address Box 26, Post Office. m22*

A COMMANDER OF THE NEW ARCTIC EXPEDITION.—Lieut. Henry J. Hartstene. U. S. N., has been ordered to the command of the Government's expedition to the Arctic seas, authorized by Congress at its last session.—He was not long since in command of one of the mail steamships of the line between New York and San Francisco via Panama.

This expedition, (to consist of one steamer and one sailing vessel,) will fit out at the Brooklyn Navy Yard, and will probably sail as early as June 1st next. As yet the sailing ship has not been procured.—*Star.*

STATUES FOR TRINITY CHAPEL, NEW YORK.—A report is going the rounds that the Vestry of Trinity Church have purchased the Thorwalsden group of statuary,—on exhibition at the Crystal Palace. We see by the Churchman, that pedestals are prepared for the Twelve Apostles, in the new Trinity Chapel up-town, and it is presumed that the statues are intended for that edifice.

The worst feature of the banking house failures in California, is that the drafts and deposits were for the most part in favor of miners, laborers and others whose small earnings were their all. Most of these persons had families in the Eastern States; and one, from this city, a worthy, hard-working man who had accumulated enough to justify his return home, writes to his wife, that he shall not leave this year—all that he had earned was lost by the failure of Adams & Co. He had been at work for two years, but the avails of his labor were all swept away. No doubt there are hundreds of like insurances that will be hard indeed —*Newburyport Herald.*

War has brought into everyday use the name of a city, which is pronounced in all manners of ways. Here is what purports to be authority on the subject:

Sir William Molesworth, when in Edinburg lately, instructed the *savans* by his pronounciation of Sebastopol. He laid the accent on the penultimate syllable, calling it Sevastopol. The Russian letter "*b*," the third letter in the alphabet, is pronounced *vay*. The correct pronunciation is Sevaystopol.

EXCHANGE OF CARPET BAGS.—We see in the Hartford Times that Joseph A. Gilmore Esq., of Concord, lost his carpet bag last Friday somewhere between New York and Norwich, containing $63,000 in Railway Bonds. This is not the fact. When he left the Astor House the clerk handed him a valise, or carpet bag, exactly resembling his own, and he did not discover his mistake till he arrived at Norwich, when he tried to open it and found the key would not fit. He telegraphed to New York and found that his carpet bag was safe, and it was forwarded to him by the next train.—*Manchester Mirror.*

The Mexican papers have recently been publishing a census of that country. From it we gather that there are in that country 85 cities, 193 towns or large villages, 4900 villages, 119 missions, &c.; 170 haciendas, and 6,092 farms. Population 7,853,395.

Lola Montes is about returning to the stage in her double capacity of actress and danseuse. She has made an engagement with Mrs. Sinclair, and after a brief tour of California, will return to the "States."

CRUELTY.—On Thursday afternoon an atrocious act of cruelty was committed on the person of a colored boy, aged about 18 years, by several youths who, it is said, reside in the northwestern section of the city. It appears that the boy was charged with grossly insulting a young lady, the sister of one of the actors, and revenge was administered by the severest flagellation, he having been whipped with cowhides until the blood ran down his body in streams, and afterwards was violently knocked against a stone.

His name is Samuel Blake, and at the time the outrage was committed was living with his mother, on Biddle Alley, where the whipping took place. The parties, it is said, are known, and warrants have been issued for their arrest, as the boy is said to be perfectly innocent of the charge, the guilty parties having got hold of the wrong person.—*Baltimore Sun.*

AN APPEAL TO NEW ENGLAND.—The appeal pleads its own cause, and we will merely add, while asking the attention of the reader, the warmest hopes that the appeal may find a liberal response from every city and town in New England. Read,

To New England, and to all her Sons and Daughters in Every Land. We Appeal for Aid for the Famine-stricken Widows and Orphans of New York. The American Widow's Relief Association have upward of Four Hundred Families depending upon them for present means to live. Many of these are scions of your own stock—offshoots from as good families as ever lived upon your soil. Would that they were back their; for here, with no dependence but their needles, they are perishing. Your own ingenuity has substituted machines for fingers, and now these fingers unemployed cannot furnish bread for bright, beautiful children. They have committed no fault, yet they must die, or become beggars, without you give them temporary aid. In your houses there is food to spare. Here, whole families have spent whole days without one mouthful. That want still continues. New England-born women and children, without a fault, are without food or fire! Shall it be?

Your cotton factories are stored with cloth. Your sisters are this day, by scores, without a change of linen. They cannot buy; you can give.

Your artisans are making millions of shoes. Those who were once your best customers are this day barefoot. Bright-eyed boys and girls cannot go to church or school for want of shoes. Shall they become heathen? or will you give one pair?

Of Boston born, well-bred women and children, we could tell you tales of horror of their sufferings during the famine of 1855 in New York City. Why chill your blood? your hearts are warm. To them appeal,

In behalf of the board of Trustees,
J. P. TREADWELL, President.
THOS. MC ELRATH, Treasurer.

SOLON ROBINSON, Secretary, Office No. 414 Greene-street, where contributions may be directed.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt, and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the immense quantities of different ingredients, which are diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D, State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.

"Old Connecticut" has obtained a sorry notoriety, the world over, for her religious "blue laws." It is not so generally known, however, that in "Old Virginia" the law was formerly, that if any man or woman should neglect the Sabbath morning and afternoon service, and the catechising, the offender should, for the first offence, be publicly whipped, and for the third suffer death; also if any other than a clergyman of the establishment should preach, the first offence was punished by imprisonment and the second by death, *Manchester American.*

THE MAINE LAW, with exceptions, is in force in Cincinnati. Sunday traffic in liquor is wholly suppressed, but the bars are permitted to sell wines manufactured from the Catawba grape, and the Germans are allowed to drink *lager beer.*

BOUNTY LANDS.

TO all who have been in the Naval or Military service of the United States since 1790, procured by

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crossgrained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, thus saving quality of clap boards, in a very superior manner, without *tearing* the thin edge.

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men,*—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. DR LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. DR. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia.—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen none at all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting the most brittle and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need mending, and to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public spurious imitations, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-similie of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb: FLUOR ALBUS, or Whites: CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAIN, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observation.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GRANT, 29 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, at, of so serious a nature, that infinitely my physicians suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) it experienced strong gales from the S W. and had occasion to use it several times, and on every occasion it worked finely."

EMIGRATION TO KANZAS.—Judging from the notices in the papers in the free States, emigration to Kansas is a great feature of the day. We have seen nothing like it in extent since the rush to California, that followed the discovery of the gold mines. The general character of the emigrants, also, is of a high order as to intelligence and means. But few are aware how many are embarking at this point. From a few facts, we have recently learned, there are not less than 600 persons in Cincinnati alone, now getting ready to leave in a few weeks. About 130 Germans marched down Main street, a few days since, preceded by a band of music, and took passage on the steamer Duke, with their families and effects, comprising a goodly assortment of agricultural tools, machinery, fruit trees, seeds, &c.

Another party of excellent families from Kentucky, called the Kentucky Kanzas Association, have chartered the steamer Express, and will start to-day or to-morrow. About 200 will leave at this trip, and as many more will follow in a few weeks, as fast as preparations can be made in Kanzas for their reception. This party is composed of men of the right stamina; they are strong Anti-Slavery and Temperance men, in easy circumstances, with a good sprinkling of educated and professional persons. They take with them a frame school house, ten of Hinkle's cottages, a steam engine, saw mill, several yokes of oxen, horses, Durham cattle, &c. Mr. Clark, formerly a surveyor on the Lexington and Covington Railroad, is President of this Association. He is now in Kanzas, and has laid out a town for his Association, on Kanzas River, eight miles below Fort Riley, and named it Ashland. The neighborhood is pleasant, healthy and well watered, with good building stone.

A large company is also forming in Wayne County, Ind., in some respects cooperative, a part of which will start immediately, with a steam engine, saw mill, and extensive machinery, fruit trees, seeds, cattle, &c.; and prepare for the reception of others. The Association expects to take out 500 families during the season.—*Cincinnati Gazette, March* 23.

At a recent dinner party in Washington, Sam Houston sat near an authoress and the M. C. from Buffalo, N. Y. district, the latter of whom wished to know if there were any know nothings in Texas, to which the General replied, that there were none, the citizens having rid themselves of the only one in the State by chasing him into the top of a tree. "What did he do then?" asked the authoress, with true female inquisitiveness. "Why Madam," said the old soldier, who prides himself on what he calls wit, "he drew the tree up, roots and all, and took it off with him." Upon this there was a laugh, but when the lady said quietly she was glad there was one *chased* man in the State, the General was floored and acknowledged his indebtedness.

A HUMBUG EXPOSED.—It is stated in the newspapers that the famous fossil skeleton of the zeuglodon, found in Alabama some fourteen years ago by a German named Koch, exhibited in New York, and afterwards sold to a Dr. Mc Dowell, at St. Louis, was lately taken for debt, and in process of removal fell to pieces, and many of the bones were broken, when the wonderful monster was found to be of genuine plaster of Paris formation, and of entirely German origin, being connected with the primeval epochs only by the raw material.

Dr. Channing says:—"Let families discountenance public balls, but dance at home. A small party at home is easily, conveniently, and cheaply got up, and is far more social, more happy and more healthful than any possible public ball."

Morning Chronicle.

FRIDAY, MARCH 30, 1855.

WHAT SHALL BE DONE.

The Legislature which has just been elected, is expected, on all hands, to make some changes in Legislation, in regard to two or three important matters.

No one doubts that the members of this legislature will reconstruct the 12 Senatorial Districts; and they may also do the same thing for the Congressional Districts. It would not be surprising if they should also remodel our Judiciary System by the creation of new courts. They will also, beyond any doubt, feel themselves called upon to pass a new liquor law, somewhat after the pattern of the Maine and Connecticut laws, with variations to suit our State Constitution, and apply to our circumstances.

The Providence Tribune gives the following reasons why the American party should wed itself to temperance:

1st. The principles embodied in this temperance movement are right.

2d. The temperance movement is an American movement. It had its origin here, and here it has achieved its greatest triumphs.

3d. The foreign population, or at least the Catholic portion of it, is wedded to rum; and the traffickers in rum, and their sympathisers, to a large extent, control their votes. The mass of those now engaged secretly in the liquor traffic, are foreigners, and the few Americans who are still engaged in it, have but little influence with the American population.

4th. Throughout the New England, and in most of the Middle and Southern States, the temperance principle is popular, and in no one of the States can any party stand for a single year in opposition to it. The conscientious men of the State are so firmly wedded to this principle, that they will break with any party, rather than see it sacrificed in its nominees.

Wherever the American party has succeeded, it has, in its nominations, regarded the wishes of its temperance men; and if it would succeed in this State, or rather if it desires permanent success, it must yield to the conscientious convictions of right, which are cherished by those of its members who love the temperance cause.

We do not feel like telling any *party* what they ought to do as partisans:—but we ask every legislator and every citizen, what he ought to do as a man and a christian, to stay the tide of intemperance?

Public opinion, at this moment, sets strongly in favor of prohibitive or restraining laws; and we expect to see one enacted in this State, this year, not less stringent than those in other States. We expect also to see the law framed as impartially as possible. Interest in some, appetite in many, may oppose the passage, and also the execution of such a law. We expect to see this also; and therefore we would warn those who stand on both sides of this question, not to mistake each other's position, nor underrate each other's power.

The great profits on the liquor trade; the large amount sold, (larger than many suppose;) and the strong desire for tippling, which is the besetting sin of thousands,—make it certain that such a law will be opposed, openly when it can be, secretly when otherwise; and not only for a day or a year, but with a perseverance worthy of a better cause.

On the other hand, the friends of temperance, and especially of legal measures of the strongest kind, are neither few, nor weak, nor wavering. Many of them have used words, then tufts of grass, and they now, like the Old Farmer in the fable, are about to pelt with stones. If our wig was in danger, we should think it about time to be dodging.

DECISION IN THE CASE OF THE BRITISH DESERTERS.—On Monday an opinion was given by the Supreme Court of Massachusetts, in the case of the British deserters. It was stated that the treaty with England in reference to fugitives from justice, only applied to robbery, forgery, and murder, and not to cases of larceny. The Court were of opinion that a crime committed in Nova Scotia is not a violation of our law, and cannot subject the offender to punishment here. The prisoners were therefore ordered to be discharged. They have been in prison about nine months.

Somebody, we know not who, is guilty of a crime against all sound law, for letting so *plain* a question lie over, during these nine months. There must be a large amount of donkeyism about the Massachusetts Courts to suffer such a proceeding.

PREPAY YOUR POSTAGE.—From and after Sunday next, April 1, all letters for any place within the United States *must* be pre-paid, *either in money or by stamps*, or they cannot be mailed. The rate within the distance of 3,000 miles will be 3 cents the single letter, the same as heretofore; over 3,000 miles, or to California and Oregon, 10 cents; (present rates 6 cents.) The regulations in regard to *foreign* postages will remain unchanged.

Persons depositing letters in the Post Office on Sunday next, when the offices are closed, must not forget to prepay them, or they cannot be forwarded on Monday.

A black woman temporarily stopping at St. Louis, gave birth recently to four living children, two boys and two girls—their father is a white man, and the crisp of their hair is hardly yet distinguishable.

THE RESULT.—The New Hampshire Patriot of March 28, has returns from nearly all the State, and gives the following footing of the votes for Governor:

	Baker.	Metcalf.	Bell.	Fowler.
226 towns,	27213	32810	3522	1271
		32006		3522
				27213
Metcalf's maj.		804		
				32006

Randolph and Wentworth's Location in Coos county, remain to be heard from. They gave last year, Baker 30; all others none.—They will reduce Metcalf's majority to less than *eight hundred*.

The Patriot's Table of Representatives, contains "85 democrats, 226 opposition."

The Patriot predicts, that at the next election, all this great grease spot will be rubbed out; the Democratic party will live in clover, and the "Hindoos" will be—nowhere. It says:—

The 27,000 true men who have proved their devotion to their principles and their organization in the late election, constitute the *only party of principle* in the State, and when the fragmentary horde of present victors shall have become broken and dissevered, as it will as soon as brought to the test of official action, the *honest* portion will see the deception and corruption of their crafty and unscrupulous leaders, and will turn from them with disgust and loathing. *Then* will the Democratic ranks be again filled to even more than their former extent, and then will it again become the ruling power in the State. It will require but *one year* to effect all this; one year of federal-abolition rule is as much as the people of New Hampshire will be able to tolerate. Before that period expires, the "sober second thought" will have resumed its sway, the rottenness and knavery of "Hindooism" will have become fully exposed, and the people will again rally around the glorious standard of Democracy and bear it on to victory.

MAYOR OF PORTLAND.

Mr. James T. McCobb was nominated for Mayor of Portland, by a Citizens' Meeting without distinction of party, held on Saturday evening, 24th. The State of Maine newspaper has a communication advocating his election, and deprecating that of Neal Dow, for several reasons, the chief of which is, that incendiary fires were very frequent and costly, when Neal Dow was Mayor,—and would be again, if Dow should again enforce the Maine Law, as no one doubts the incendiaries were infuriated jug-men. Our inference is, that Mr. McCobb would not disturb the jugs, and so the jug-men, being pacified, would not burn the houses and stores.

On Monday evening, as we learn from the Argus,

Mr. McCobb was unanimously nominated at the democratic caucus, and we trust (says the A.) he will receive the cordial and earnest support of every democrat of Portland. * Mr. McCobb is well known to you as a firm and consistent democrat. * * But another important incentive to effort, fellow democrats, is the fact, that with proper exertion he can easily be elected. * * The people of Portland now ask of democrats to perform this noble democratic duty, by distinguishing between *temperance* and *Neal Dowism*; they ask of us to *defeat* the *latter* in order that we may *promote* the *former*, one of the best causes on earth, untrammelled by the headstrong egotism and despotic indiscretions of Neal Dow. Democrats, let your answer to this reasonable request of the people of Portland, be given in tones of thunder at the polls.

We have before mentioned that the K. Ns. had nominated Neal Dow. It now appears, as above, that at least *two* parties have formed a *coalition* against him, namely, the Citizens and the Democratic. And the Argus wishes to "*defeat Dow* in order to *promote temperance*"—by which latter term as here used we understand the promotion of drinking good liquor without hindrance.

It is evident that Neal Dow, if he sits in the Mayor's Chair this year, will get there through a strong opposition: but the Republican or Fusion party, have called a caucus to nominate a candidate;—and if they should happen to nominate Mr. Dow, the contest between the *two coalitions* will be warm and close, as well as interesting.

P. S.—The argument of the State of Maine, drawn from the incendiary fires in 1852, (Dow's year,) is ruined in the Advertiser, by stating that in '54 over $200,000 worth of property was destroyed,—and also that in Dow's year, 5-6ths of all the losses were by *accidental* fires whose origin was known.

THE STRIKE.—The Manchester Mirror says the Manchester and Stark Mills in that city, commenced running on Wednesday—the Manchester running about one fifth and the Stark about one quarter. The Amoskeag, which are the only ones that have not stopped, are now running about one half. The processions and other demonstrations continue among the operatives. Great numbers have left the city for their homes, but many others are coming in from the country and other manufacturing towns to supply their places.

BIDDEFORD.—The City government of Biddeford, Me., was organized on the 19th inst. President of the Common Council, Samuel Pillsbury; Clerk, H. L. Kimball; City Clerk, L. Loring, Jr.; Treasurer and Collector, F. Massecre; Solicitor, S. W. Laynes. Edward E. Bourne, of Kennebunk, has been appointed Judge of the Municipal Court.

LOCAL.

CITY COUNCIL.

THURSDAY, March 29.

The following joint Standing Committes were reported:

On Finance.—The Mayor, Ald. Dearborn and Rundlett.
Messrs. Robbins, Larrabee and T. H. Odiorn.

On Engrossing Bills.—Ald. Rundlett and Senter.
Messrs. Folsom, Gray and Freeman.

On City Lands and Buildings.—Ald. Yeaton and Wherren.

On Burying Grounds.—Ald. Wherren & Yeaton.
Messrs. Bishop, Spinney and Marden.

On Printing.—Ald Wendell and Wherren.
Messrs. Gray, Bragdon and T. H. Odiorn.

Common Council.—

The following Standing Committees of the Common Council were appointed:

On Elections.—Messrs. Larrabee, Gammon and Robbins.

On Bills on their 2d Reading.—Messrs. Freeman, James Odiorn and Cobb.

Supervisory Committe of Journal.—Messrs. Mervin, Bishop and Beck.

The following Joint Resolutions were adopted, and sent up for concurrence: a resolution ordering that the Mayor's Address be printed with the City Reports; a resolution referring the address to appropriate committes, except that portion concerning new High Schools, which was to be referred to a special joint committee; a resolution for the appointment at a special joint committee, to take into consideration the existing pilot laws, and report what further legislation is needed, if any.

The first two resolutions were adopted by the *Board of Aldermen*, in concurrence; and the last laid on the table.

A joint resolution passed both boards, fixing on Tuesday evenning next for the Convention for the election of City Officers.

MERCANTILE ASSOCIATION LECTURES.—The first course before this institution was closed on Thursday evening, by a lecture from Rev. E. H. Chapin, on Implements. The lecturer used the term to designate the invisible as well as the visible means of life and progress; and supposed that every man, having his appropriate work in the world, has also in his condition the means of doing it.

He considered Implements as means of attainment; as media of expression; and lastly considered their value and uses—estimating material utility and substantial comfort at their fair value; and placing mental, moral and spiritual culture, as far above them as the Heavens are higher than the earth.

The large audience listened with gratified attention; and were greatly pleased to hear the announcement, that Mr. Chapin will, *Deo volente*, open the next Winter's course.

For the Chronicle.

GLOUCESTER, MASS., March 28, '55.

REV. MR. MOORE'S SERMON AT GLOUCESTER.—*Messrs. Editors:*—I see that in your issue of the 24th inst. you have a correct account of the recent interesting dedication services held in this place; but I notice that the sermon delivered in the evening by Rev. H. D. Moore of your city, is barely alluded to, in the most general manner. Allow me to say with regard to it,) for I think so generous and eloquent an effort ought to have more special mention in connexion with the late interesting services,) that it is the general opinion here, so far as I know—and I have heard many speak of it—that for logical construction, exhaustive argument, brilliant illustration, excellent doctrine, and effective delivery, together, it has been a long time since we have heard its equal; and some of us do not hesitate to say we *never* have.

May this pulpit orator be prized in Portsmouth as he ought; and whenever circumstances permit, may we hear him oftener.

Yours, AUDITOR.

☞ The German who figured in the Police Court on Wednesday, is a pedler named Block.

A negro belonging to Mrs Batson, a widow lady in Roger's Prairie, Madison county, Texas, went out into the woods to chop timber, and did not return. A piece of one of his legs was found near the spot where he had been chopping, and five dead wolves. It is supposed that while engaged in chopping he was attacked by a drove of these animals, and that he killed five of them with an axe before they had destroyed him.

Mr. Atwood, the plaintiff in the case in England, so celebrated 25 years ago, against Small, and which resulted in making him the recipient of about half a million stearling, (nearly two and a half millions of dollars,) is now a bankrupt, and will not pay more than a shilling on a pound.

Anti Slavery.

STEPHEN S. and ABBY KELLY FOSTER, will lecture on behalf of this cause, at the TEMPLE, on SATURDAY Evening, March 31, at 7½ o'clock. The citizens generally are invited to attend. m30

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.

Destructive Fire in Amherst, N. H. A correspondent of the Boston Journal states that the cotton factory situated in the North part of Amherst, belonging to Smith, Cutler & Co., was entirely destroyed by fire about 11 o'clock on Tuesday night. Nothing was saved from the factory—even the books are said to be lost. The loss of buildings, stock, machinery, &c. is about $10,000—half insured. The fire was probably the work of an incendiary. The agent had trouble with some of the operatives on Tuesday. This is the third factory burnt at North Amherst within fourteen months.

The Black Warrior Affair.—*Washington, March* 28.—The Union of Wednesday morning reiterates its statement that the Black Warrior steamer difficulty is settled; and quotes from late despatches to the Spanish Minister, which state that his government is ready to satisfy the damages, as soon as a proper account shall be presented and its amount approved.

Newton, N. J., March 28.— The Air Line Railroad bill passed by the House, was lost in the Senate, by a vote of 9 to 11.

The House has refused to concur in the Senate's amendments to the Prohibitory Liquor Bill, providing to first take the vote of the people upon the measure before the passage of the law.

Street Seizure.—*New York, March* 28. A large number of girls of the town were arrested in this city last night, as vagrants, and to-day thirty of them were sent to the penitentiary for terms varying from one to six months. The Mayor is determined to purge the streets of these pests.

Philadelphia, March 28.—*British Recruiting in Philadelphia.*—The United States Marshal arrested twelve men this morning on board a steamer bound for New York, who had enlisted here for the British Foreign Legion. The recruiting officer is to be arrested. A partial examination of the recruits has been made before Commissioner Hazlitt, and the case is adjourned until Saturday. Fifteen were arrested, including those having charge of the recruits. It is said sixty were sent on via New York on Sunday, and the supposition is that upwards of five hundred men have been enlisted by the agent in this city.

New Orleans, March 26.—*Mexico.*—By the arrival of the steamer Orizaba, we have later dates from Mexico, but the news is unimportant. There is nothing decisive respecting Alvarez, although it is said he fled on the approach of Santa Anna, and that the troops would pursue him to the neighborhood of Acapulco. Santa Anna had been received at the capital with enthusiasm.

The Steamer Bulletin was destroyed by fire on Saturday, below lake Providence, with 3500 bales of cotton. Twenty-three of the passengers and crew are lost and missing; among them is J. B. Williams of New York. The lady passengers and officers of the boat were all saved. The boat is a total loss. Insured for $20,000.

Steamers Burnt.—The steamer Huntsville has been burnt with 4000 bales of cotton, but we have no particulars.

The Know Nothings carried the charter elections in New Orleans to-day by triumphant majorities.

Ireland and St. Patrick.—A New York letter writer says, St. Patrick, who used to chase swine and kill snakes in the bogs of his beloved Ireland, must have looked smilingly down on our city from his sainted beatitude last Saturday, as it lay weltering in a thick sea of white brown mush, a sort of snow and dirt pudding and beans, reminded of his earthly haunts. The celebration of his day by the sons of Erin was rather a fizzle than otherwise. The many societies who figured in the pre-published order of exercises were scared off by the weather, and the "forlorn hope" who entered into the procession, disbanded long before reaching the end of the route.—The Catholic churches were very generally attended, and mass and other duties enjoined by the ritual performed. At St. Patrick's Cathedral, Pontifical High Mass was celebrated in presence of an immense congregation, and Rev Dr Moriarty pronounced the "Panegyric of St Patrick," in which he glorified catholicism and exalted the land of Shamrock, as "overshadowing all nations in her fidelity to the religion of Christ," intimating that "Ireland's fidelity to that religion will gain her a high destiny:" that "the world is on the eve of a mighty change, when *she* will be rewarded for her centuries of suffering," and wound up by saying, "The land of St. Patrick can never be assimilated to England, and no bamboozlements of Kossuth or Mazzini—no *projects of republican shadows* can alter her course She is a land of *another type*—a land which stands forward as a realization of the blessing and love of God." Considering the present destitution and degradation of that poor and distracted country, the last sentiment may sound a trifle *highfaluting* to your common sense readers.

Mr. Ericsson.—A New York letter writer says:—The Ericsson experiment is at an end. The invention is conceded to be a failure, and poor Ericsson is a ruined man. He has spent all his fortune in building his caloric ship and in the experiments he has made on the vessel. He has done more, he has spent all his wife's fortune, which was great, and she too is beggared. But the worst of all is that it has led to such recrimination and alienation that they have separated, never to be united again, perhaps. Had he been successful, his name would have been enrolled with those of Columbus, Newton, Fulton, and other men of illustrious renown. But he has failed; he has lost his all; he has introduced ruin into a once loving and happy home; and the world coldly looks on and says, "I told you so."

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

See the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the 'Oxygenated Bitters.'"

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the cheapest medicine.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

United States Bounty Land Agency.

Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

IMPORTANT IMPROVEMENT

Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

This machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crooked* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine. And performs the work so perfectly, that there is no pains with the grain, upon any quality of clapboards, in a very superior manner, without *rearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS

Of these are PROLAPSUS UTERI, or falling of the Womb: FLUOR ALBUS, or Whites: CHRONIC INFLAMMATION OF THE WOMB; ISCHIOPALLIHEMORRAGE or Flooding: PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from the highest experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst form, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, at one of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *excessively*, and at last was *entirely disabled from social pursuits*. . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.) it experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

SATURDAY, MARCH 31, 1855.

THE CINCINNATI SLAVE CASE.—Rev. Mr. Dennison has obtained a warrant from U. S. Commissioner Pendery for the arrest as a fugitive, of Rozetta, the slave girl who was declared free at Columbus, in consequence of having been brought into the State by her master. A writ of habeas corpus has been served, and the case taken before Judge Parker, of the C. C. Pleas. Mr. Chase appeared for Rozetta, and a continuance was granted until Dennison could procure evidence from Louisville.

The Colombian says that much interest is felt in the case. The point seems to be, whether the master is bound by the act of his agent, and whether the escape from the agent of the owner, emancipates the slave.

The master *is* bound by the act of the agent. The girl has made no escape. The agent took her into a free State, so called; and a Court there declared her free.

But by the fugitive slave act, if a Commissioner sees fit, he can issue a warrant against *any* person, (no matter whether black or white,) who is *claimed* by any Southern man as a slave. Examination of the act will show this.

In the present case, Commissioner Pendery has done what would excite a storm of indignation, if he was acting thus, under any law which deserves the name. But it is in keeping with the unjust, oppressive, unconstitutional fugitive act.

P. S.—A Cincinnati despatch of the 29th, says:—

Rozetta, a colored girl, who was some time since brought into this State from Kentucky, by an agent of her master, and declared free by a State Court at Columbus, and a guardian appointed, was to-day arrested under the Fugitive Slave act. The case came before Judge Parker, (by habeas corpus) who decided that the girl was entitled to her freedom, having been brought into the State by her owner, or his representative. Some excitement was created by the U. S. Marshal attempting to arrest her after the decision, and a riot was apprehended. The girl was, however, safely consigned to the care of friends.

Some time ago, if our recollection serves us, there was a terrible howl set up because 3000 ministers protested against a usurpation by the slave power. Now there is a minister trying to enslave a girl who is as *legally free* as he is himself. Why will not somebody be so good as to set up a small howl about *that?* It is much more worthy of a howl than the other case.

KANSAS. — The Herald of Freedom, of March 10th, says:

It is reported that there are fully a hundred Missourians encamped in tents and wagons on the Wakarusa, in this election district, waiting an opportunity to cast their votes at the coming election, with the view of securing the Legislature to the pro-slavery interest.—Pains are taken to supply voters enough in each election precinct to carry every district against the advocates of freedom. Last week we mentioned the fact that a large number of wagons, with a dozen imported voters in each, were making their way to the district above this. Every point is to be visited by these locusts; and unless we are greatly strengthened by fresh emigration, we shall be overborne.

"Fanaticism" seems to be making its way into the new territory. Governor Reeder, in his proclamation concerning the election, says:

All persons are absolutely forbidden to bring, sell, or deal out, in the immediate vicinity of the election ground, any intoxicating liquors; and the judges of election, whenever they shall deem this regulation violated so as to interfere with the proper conducting of the election, may order the same to be removed; and if the owner shall fail to comply with this order, may direct the constables or other proper persons to take charge of such liquor till the polls are closed; or in case of resistance, to destroy the same at once.

What! *forbid* the introduction of intoxicating liquors! What! *seize* and *destroy* them unless they are removed at once! Oh, Governor Reeder! we fear that you are becoming infected with that dangerous disease which the Boston Chronicle tells us is spreading all over the country.—*Boston Telegraph.*

☞ Putnam's Monthly for April is received from Federhen & Co., of Boston, via J. P. Morse, of this city. This Magazine is too well known to require any recommendation from us,—suffice it to say that the present number fully sustains the high reputation it has already obtained.

Among the articles in this number are, "A Trip to the Moon," and one on "American Orators," containing a sketch of Rufus Choate, —besides many others of interest.

This is the last no. which the present publishers, G. P. Putnam & Co., will issue, as it is to pass into the hands of Messrs. Dix & Edwards, who will publish it hereafter. It will, however, still continue to have the active co-operation of the former publishers, and all orders for the trade will be supplied by them as heretofore.

PORTLAND, March 29.—Neal Dow was nominated as a candidate for Mayor, this evening, at a meeting of the new Republican party, including the Temperance, Abolition and Know Nothing parties, particularly the latter. The meeting was large and enthusiastic.

AT BALACLAVA.

"Charge!" rung a voice
Along the waiting lines;
Like sudden wind
That strikes the forest pines,
And then drops dead upon the leaves it stirred;
So fell, with a dead sound, that cruel word.
Charge? why, 'twas wild!—
Stern chieftains held their breath,
To make the braves of Albion
Charge the Realms of Death!
"Charge!" rung that voice along the waiting ranks:
Then scabbards clashed against the chargers' flanks,
Then through the opening made
Rushed dauntless, undismayed,
The flower of England's chivalry—
The gallant Light Brigade!
"Charge!"
And they charged, O God! thro' iron rain!
Through bursting shells and hissing balls,
Even to the Russians' fiery walls—
Braid them a wreath!—
Behind they left a sickening train
Of heroes, mangled, dying, slain—
Braid them a wreath!
On, through scorching sheets of flame!
On, where the mouthing cannons flashed!
Where hand grenade and rocket crashed—
On through sulphurous cloud and shell,
Into the purple heart of hell!
On, as if to victory they dashed
Instead of death! On! on they came
To immortality, and fame
That mocks the little tyranny of Death!
O Britons! when your lips shall boast
Of fields and sceptres you have won,
Of Waterloo and Wellington!
O, honor and revere them most,
The flowers of chivalry ye lost
At Balaclava!
And when ye pour the blood red wine,
Freely as 'twere a mountain flood,—
When chalices and hearts are brimmed,
O Britons! let your eyes be dimmed,
For free as wine ran martyr blood
At Balaclava!
O! who in after times can say
One man was bravest in the fray?
For all were heroes on that day,
At Balaclava!
And "Light Brigade" shall deathless be
Upon the scroll of History,
And on the lips of Poesy*!

March, 1855. T. B. A.

*The author refers to Mr. Tennyson's Ode, which will take its place with such noble lyrics as Campbell's Hohenlinden and Burns' Bannockburn.

The Massachusetts K. N.'s have passed their liquor law. We are waiting for June to come, so that Gov. Metcalf can sign one for this State. We hope the liquor sellers of this village will take it easy when it comes. Most of them voted the K. N. ticket, and if they catch it from their own folks, so be it.—*Meredith Democrat.*

If what the Democrat says be true, (and we see no reason to doubt it,) then we suppose the grocers and taverners of Meredith have made up their minds that neither the public good nor the public will, in that place, requires them to sell liquors; that they had rather sell something else; and that they will aid their fellow citizens in upholding the law. So mote it be.

PREPAY YOUR POSTAGE.—From and after Sunday next, April 1, all letters for any place *within* the United States *must* be pre-paid, *either in money or by stamps*, or they cannot be mailed. The rate within the distance of 3,000 miles will be 3 cents the single letter, the same as heretofore; over 3,000 miles, or to California and Oregon, 10 cents; (present rates 6 cents.) The regulations in regard to *foreign* postages will remain unchanged.

Persons depositing letters in the Post Office on Sunday next, when the offices are closed, must not forget to prepay them, or they cannot be forwarded on Monday.

MASTER AND SCHOLAR.—A learned pedagogue at Nantucket, used every morning to read passages in the Bible, and expound the same as he proceeded, in order that, by asking questions as to how much they remembered of his comments, he might ascertain who were the bright boys of the school. On one occasion he read from the book of Job, thus:

"There was a man in the land of Uz, and his name was Job, who feared God, and eschewed evil." Eschewed evil; that is, he eschewed evil as I do tobacco—he would have nothing to do with it.

With this very clear and forcible elucidation of the word 'eschew,' he proceeded until a number of verses were read and commented on in a similar clear and intelligible manner.

After a long interval, when the young mind had time to digest its food, the pedagogue called upon one of the younger boys, and the following dialogue ensued:

'Who was the man who lived in Uz?'
'Job.'
'Was he a good man?'
'Yes.'
'What did he do?'
'*He chewed tobacco, when nobody else would have nothing to do with it!*' was Bob Holmes' answer.

The boy was permitted to take his seat.

CRANBERRIES.—The Bristol County Agricultural Society, at its March meeting, proposed to encourage the cultivation of this nice fruit—and offered three premiums to that effect, viz: $25, $10 and $5, for the first, second and third best plantations of Cranberries of not less than one quarter of an acre. Plantations to be made subsequent to January, 1855. Premiums to be awarded in 1857.—The Society also offer a new premium of $5 for the best plantation of Osier Willow. *Taunton Whig.*

The bankers of Sacramento, California, have determined not to receive checks on each other in payment of notes or acceptances, nor will they certify to checks due each other.

LOCAL.

NEW SCHOOL HOUSES.

We are glad to see an early reference of the Mayor's address to the proper committees. And we are glad to see the Mayor himself one of the Committee on School Houses.

On Thursday evening, March 29th, both boards adopted the following resolution:

Resolved, That so much of the Mayor's address as relates to "Public Schools," and the erecting of buildings for "High Schools," be referred to a joint special committee, to consist of four from the Common Council, and such as may be appointed by the Board of Aldermen.

The following persons compose the committee, viz:—The Mayor, Ald. Wilson and Wendell; Messrs. Bragdon, Parry, Gammon and Gray.

There is no division of opinion among our citizens about our pressing want of School House accommodations for the High Schools —especially for the Girls' school—nor is there the least unwillingness on the part of our tax payers, great or small, to expend a liberal sum for the purchase of a suitable site or sites, and the erection of one or more school houses of the first class, for size, convenience, health and comfort.

There is a question, as to the balance of advantages, between the erection of a High Schools for Girls, by itself, and of having a School for Boys, separate, but under the same roof.

This question we will now consider. In favor of building the two schools under one roof, there is one consideration, viz, that it would save the expense of one foundation and one roof, say $3000 in the whole—and it would also save the purchase or use of a little land.

On the other hand, the advantages in favor of building separate schools, are—

1. The freedom from mutual annoyance to teachers and scholars;

2. The avoidance of a difficulty in locating *one* central school.

If both High Schools must be under one roof, everybody will wish that to be exactly in his imaginary centre of population. But we cannot very well get hold of an acre of land in the centre of this city. We may, by going out to the west, find an acre for a Girls' school, and as an offset, locate the boys on half an acre towards the north or south.

To us, the separate School House is preferable. Nevertheless, the two schools together would make the higher, larger and more imposing building. And they can be divided, as in the Portsmouth Academy, by a heavy wall.

Whether separate or together, the buildings should be constructed in the best proportions, and of the best materials and workmanship. They should be built by the day, by faithful mechanics. No sham job work should be there: no tumble down floors; no sun-baked bricks; no leaky roofs or slender walls. If the two are built together, the girls should be above stairs, and the boys below, for the reason that boys make a noise, sometimes, in getting up and down stairs.

Good school houses, well proportioned and located, are good for an hundred years of service, unless burnt down. It is true economy, therefore, to spend money enough, and be at pains enough to have them built thoroughly.

☞ The receipts at the third Old Folks' Concert, were about $65. The expenses being only about $20, will leave upwards of $40 for the poor.

A correspondent in the Journal urges a repitition of the Concert, on Fast evening—the tickets to be reduced to 15 cents, and the net proceeds to go to the poor.

☞ An American Jubilee was held at the Temple on Friday evening, by several speakers of note from abroad; and by a goodly company of those citizens who rejoice over the late election in New Hampshire.

Short and pithy speeches were made by S. P. Hanscom, Amos Tuck, Anthony Colby, Anson Burlingame, Daniel Clark, and others, and the large audience was highly entertained until a late hour. The meeting closed with three rousing cheers.

After these services, a smaller but joyous company sat down to a social supper at Barnabee's, Franklin House. We were politely furnished with a ticket, but were unable to attend.

☞ Rev. W. Vary, Jr. of New York, will preach at the F. W. Baptist Chapel on Hanover street, to-morrow.

☞ The editor of the Lowell Daily News speaks of Mayor Walker's address as "an energetic, concise and able document."

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.

SEVEN DAYS LATER NEWS.

ARRIVAL OF THE ASIA.

HALIFAX, March 30.—The steamship Asia arrived at this port last night. The dates are to the 17th, one week later than by the Atlantic.

No event of striking importance had occurred during the week.

From the seat of war the most important statement is that the Allies had opened their fire upon Sevastopol, and with good effect.

A manifesto from the new Emperor of Russia to his army is interpreted as a warlike demonstration.

Cotton, at a decline of 1-8d was "animated;" Flour "firm," and Indian Corn "quiet."

NEW YORK, March 29.—Hon. Thomas M. Woodruff, ex-member of Congress from this city, and a prominent man in the know nothing party, died last evening of paralysis.

A terrible explosion occurred this afternoon in the building No. 37 Wall street, occupied by Messrs. Robinson & Co. The gas had escaped in the cellar during the day, and Mr. Perry, a clerk, going to the safe with a lighted lamp, the explosion ensued, severely injuring him, in completely demolishing the front of the office in the basement story.

Collector Redfield has handed Mayor Wood a letter received by him from the American Consul at Zurich, per Atlantic, announcing the fact that the Swiss goverment were forwarding 320 paupers to this port, via Havre, and that more were to follow. This matter will, doubtless, receive prompt attention at the hands of our Mayor, when the objectionable cargo arrives.

The batch of Cyprians arrested last night, have, like their other frail sisters, been sent to the penitentiary. A writ of habeas corpus has been granted, returnable to-morrow, when the legality of this summary treatment will be tested.

AGGRAVATED ASSAULT.—On Monday evening, as Mrs. Tamina Kellogg was passing up Hanover street, near Limerick Place, Boston, she was suddenly seized, gagged, and forced into a dark and narrow passage way by her husband, Ebenezer Kellogg, who threw her down, and placing one foot on her breast, took a bottle from his pocket and endeavored to force the neck into her mouth, saying with an oath, "If I get this down your throat I guess you will lay still." Mrs. Kellogg struggled violently and succeeded in getting into the street, when her assailant became alarmed and fled. Kellogg was arrested and examined in the Police Court on the charge of assault with intent to kill, and held in $1000 for his appearance for trial. The parties had not lived happily together, and separated soon after their marriage.—*Boston Journal.*

SALE OF THE BROOK FARM.—The Brook Farm in West Roxbury, formerly occupied by the Socialists, and subsequently by the city of Roxbury as a pauper establishment, was sold at auction on Thursday by N. A. Thompson. A parcel of land, known as the Keith lot, containing twenty three acres, was sold first at $290 per acre, Mr. Wm. A. Palmer of Roxbury, was the perchaser. The farm itself, comprising 180 acres, with dwelling houses and out buildings, brought 80 per acre and was purchased by Arnold W. Taylor of Dorchester. The total amount of the sales was $20,997. Terms ten per cent, cash, and the remainder in fifteen annual instalments with interest semi-annually.

IN DEATH THEY ARE NOT DIVIDED.—The Bellows Falls Argus says that on Sunday, the 18th inst., Benjamin and Betsy Elwell, aged 87 and 81 years, of Langdon, both sickened and died within six hours of each other, and were both buried in the same coffin.—They had lived together for about sixty years, and in death they were not divided. Both were apparently in good health on Friday and Saturday.

WALKING FOR A DRAM.—One of the best stories of the season is told by Sandy Welch, of a man who was in the country on a visit, where they had no liquor. He got up two hours before breakfast and wanted his bitters. None to be had—of course he felt bad.

'How far is it to a tavern?'

'Four miles.'

So off this thirsty soul started, walked four miles in a pleasant frame of mind, arrived at the tavern and found it a temperance house!

CHICAGO, March 29.—The Legislature of Wisconsin have passed a new prohibitory liquor law, which does not contain those features objected to by the Governor in his recent veto. The vote passing the bill was about a two thirds one.

LOUISVILLE, March 29.—The State Prison at Nashville took fire about 3 o'clock this morning, and is now completely in ruins. A prisoner named Connor was smothered to death. The loss on buildings, tools, &c., is estimated at $100,000.

SYRACUSE, March 29.—John Rogers, an eminent man, died this morning, of congestion of the brain, aged 63 years.

TRENTON, March 29.—The Senate has postponed the consideration of the Prohibitory Liquor Law until next session.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Disease, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

United States Bounty Land Agency.

Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit the cash for the proceeds.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained or knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fine as the clapboards can be put into the machine, and perform the work without *sorting* them so as to please with the grain, upon any quality of clapboards, in a very superior manner, without *tearing* the thin *edge*.

Applications for rights and machines, or for further particulars, may be made to the Patentee,

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

Caution.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "Herts Brothers' Patent, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are Prolapsus Uteri, or Falling of the Womb, Fluor Albus, or Whites; Chronic Inflammation of the Womb; Incontinence, Suppressed, and Irregular Flooding; Painful, Suppressed, and Irregular Menstruations, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the Uterine Catholicon, I would respectfully state that I have for many years past, and my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst form, and that by its use I have been entirely cured, and therefore feel no scruple in accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of Marchisi's Uterine Catholicon, which has relieved me of a Female Complaint of fifteen years' standing, attended by no serious nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Patents.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,

70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in the Union and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

PATENT OFFICE, ————.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

Boston, Dec. 7, 1854. eodly

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING

TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning "Rights" they will be furnished at cost if desired.

Morning Chronicle.

MONDAY, APRIL 2, 1855.

END OF THE STRIKE.

The Manchester Mirror of March 30, has an article headed Quiet Times once more,—in which it is said,—

We had a fine day yesterday, and business began to flow in its regular channels. Our mills all commenced operations again on Wednesday morning, and we hear that a much larger number of those formerly employed in the mills were at their posts than was generally supposed would be. We believe our citizens are very glad that "order once more reigns in Warsaw." The Stark and Amoskeag are running a large portion of their work, and the Manchester Mills and Print Works have commenced again, under equally favorable circumstances

We think we may quite safely predict that one or two weeks will see all our manufacturing establishments in full blast again, and that the prosperity we have heretofore enjoyed as a city, will continue.

With all the faults and ill advised manifestations of the last few days, we are inclined to the opinion that those scenes may result in some permanent good.

A female correspondent of the Mirror writes as follows:

I am one of the operatives on the Manchester Corporation, and joined in the "strike," for I felt that the late alteration in our hours of labor, together with the early breakfast, was too much to bear patiently; but when we left the mills we had no desire for such a time as we have had. What anxiety, what excitement, and fear! We are heartily sick of it. We have many of us come to the conclusion that had persons who are not interested in the business kept about their own affairs, and let us alone, all would have been made right several days ago. We don't believe such men as Morrison, Fitch, Bunker and Dr. Elliott care what becomes of us. They certainly must have some other object in view than our good, but what that object is we do not pretend to know. They give us no time to think, but beset us morning, noon and night to keep up the excitement, and it almost makes us insane As we received our pay yesterday, our overseers told us to come in and go to work, and we might rest assured that the *time* and every thing should be to our entire satisfaction, and for one I shall return, with many others.

MATILDA.

Per contra, another female writer in the Mirror, signing herself Mary, thus makes reply:

When "Matilda" insinuates that such noble minded men as have stood forth in defence of our rights, have *any other* object besides our good in view, I can hardly believe her sane. What *reward can they possibly expect* except the consciousness of having nobly and disinterestedly battled for principle—"ready to break a lance for Truth!"

Now that she has returned to work, she evidently takes this unlady like manner of venting her ill humor, but the Hon. Mr. Morrison, Fitch, Bunker and others, who have aided us are far above the effects of such petty slander—yes, as the heavens are above be earth!

In the same paper, Rev. B M. Tillotson addresses an earnest plea to the Agents, in behalf of a day's work of ten hours only. He says:

The excitement, we are happy to say, is considerably subsided. Our city is becoming quiet. The outward demonstrations have mostly ceased. We can think and act more calmly and dispassionately. And in this sober, second thoughtfulness, in this calm that follows the storm, the settled conviction of community is, that the operatives ought not to be confined in your factories, at most, more than eleven hours per day. My *own* opinion is that *ten hours* is sufficient, and will be *ultimately the established time* for operatives to labor in our factories. Eleven is the utmost that should be required. All beyond this, must prove fatal to the health, happiness, and general welfare, not only of the present operatives, but also of generations yet unborn — This, gentlemen, is a solemn truth; a truth established by all the experience of the past, by the deep settled convictions of the present, strengthened by the deliberate opinions of the most learned and scientific men of the world.

* * * *

But, gentlemen, when the humblest operative in your employ asks, or demands the *right*, is it not your duty to hear, and answer the just demand? Even though you do not like the *form* or *manner* of the demand, should you scorn the demand itself, if it is just? Will it not, must it not finally be acknowledged? Briefly, there is a God who heareth the cry of the poor; who is the refuge of the oppressed, and whose Omnipotent arm shall at last vindicate the right.

THE NEW LIQUOR LAW.—We have been looking over the provisions of the new Liquor law. It would seem as if every cranny and crevice through which a drop of unlawful drink could be imbibed, has been caulked and pitched. There is but one great bauce through which the thirsty can hope to imbibe, but that is the law itself. The inevitable inference is forced upon us, that the law, from its very severity, will remain a dead letter just where it is most needed. We do not propose to cavil at the law without a fair trial of it, but we do predict that its curious strictness will defeat its own ends.—*New Bedford Mercury.*

We shall see: the proof of the pudding, &c.

PEACE CONFERENCE AT VIENNA.—The news from this body is thus itemized by the Boston Daily Advertiser:

The Peace Conference met at Vienna on the 15th of March. The four points with the interpretation put upon them by the allies, had been accepted verbally by the representative of Russia, and a protocol embracing them was to be signed on the 16th, which would constitute the basis of negotiations. Prussia would not be admitted to participate in the conference, having refused to join the alliance.

CAMBRIDGE LAW SCHOOL.

The Boston Advertiser of March 31, says:

We understand that yesterday, Hon. Theophilus Parsons, Dane Professor of Law, communicated to the law students certain resolutions passed by the Law Faculty on the previous day. These resolutions express a very high sense of Judge Loring's excellence as an instructor, of the value of his services, and the regret of the Faculty at the termination of his relation to the school; and declare than any assertion of such feelings on the part of the students would have had the entire sympathy of the faculty, had they passed without any words of censure of the Overseers; but that the resolutions as actually passed by the students in the Assembly, were indecorous and disorderly; that the passing of them in that form in disregard of the endeavors, both public and private, of all the members of the faculty, to prevent it, was a breach of discipline, disrespectful to the Faculty as well as to the Overseers, which calls for censure. Accordingly the license for holding meetings of the Assembly for parliamentary practice is revoked; and the Assembly is dissolved. The resolutions were read to the whole school yesterday.

A student writes to the New York Times, in reference to the recent action of the School, when the resolutions, touching the Loring case were passed, as follows:—

"Whatever action was taken upon the resolutions, was taken in defiance of all rules, in a body professing to be governed by parliamentary rules; against the injunction of the Faculty from whom alone that body derives its existence. It was taken without discussion, when the Chair was occupied by one who avowed his intention to recognize no opponent of the resolution, and when there was no Clerk at the desk; and finally it was taken by a mere minority of the students. It is left to the public to say whether such resolutions can be fairly regarded as expressing the sense of the Dane Law School.

THE MARSHFIELD SALE — On Wednesday last, the closing sale of the estate of the late Daniel Webster, took place at Marshfield, in the presence of six or seven hundred persons. The sale was conducted in such a manner as to reserve in the family, in accordance with the wishes of the deceased statesman, the mansion and surrounding lands, between three and four hundred acres in extent, comprising the whole of Mr. Webster's original purchase; while other extensive and valuable grounds, afterwards added, together with the remaining stock on the farm, were disposed of at fair prices for the benefit of the estate. The aggregate sales amounted to about fifteen thousand dollars.

The old Winslow House, with forty five acres of arable land adjoining, was sold. It is one of the oldest, if not the oldest house in the Commonwealth — a landmark of early days, which we hope may not be swept away. The bidding on this lot was spirited, and it was finally struck off to Mr C Porter Wright, Mr Webster's head farmer, at $56 per acre.

Lot No. 11 on the catalogue was "all the right, title and interest of Mr Webster in and to the Mansion, outbuildings and land immediately adjoining the same." The land amounted to 340 acres. The lot includes, if we are informed correctly, the original purchase of Mr Webster at Marshfield—the other lots which were sold having been added to his estate by subsequent purchases. The first purchase was made by Mr W in 1835. There is a mortgage on the estate of $3000 or $4000, and a marriage-settlement in favor of Mrs. Webster, which continues during her lifetime. The executors, in offering the property, did not warrant any title or interest to the property. Whatever that right and title might be after Mrs. W.'s decease, (and to determine which it would be necessary to have a legal decision through a suit at equity,) was offered for sale in order to close the estate and give a clear title. Mr J W Paige was the purchaser, at $200. This disposition of the right will give to Mr Webster's family the clear and full title to "Marshfield," and secure the fulfilment of the earnest desire of Mr Webster, as expressed in his will:—"My great and leading wish is, to preserve Marshfield, if I can, in the blood and name of my family."

A PAINFUL INCIDENT.—The editor of the Cayuga Chief (Auburn, N. Y.) writes to his paper from the West as follows:

A young, well dressed, gentlemanly appearing man, with a lovely wife and child, had journeyed on the same train with us from Buffalo. At ——, in spite of the earnest and tearful protestations of his wife, he would leave the depot, as he said, 'on business.'—From the wife's manner, we readily guessed what she thought his business was. For a long hour she stood with her boy in her arms, awaiting his return, the tears, in spite of all her efforts, silently dropping upon the cheek of her sleeping child. He came just as the train started, drunk. He lurched toward the platform, fell upon the rail, and his head was severed from his body. Never, in life, shall we forget the expression of his wife's countenance, as she stood a moment, her features pale and ghastly, and then fell senseless upon the gory and smoking form of her husband. The well of the fatherless boy touched every heart; for not one who looked upon the scene could refrain from weeping."

A DISTEMPER AMONG OUR FOREIGN RELATIONS.—There seems to have been a sort of distemper prevailing among American diplomatists during the past year, and its ravages have been peculiarly fatal. First, Dr. Borland, laid low by an empty bottle at the siege of Greytown, returned to his pills and boluses, at Little Rock, no longer an officer of President Pierce. Then Sickles was submerged; but the bubbles had scarcely ceased to mark the spot where he went down, when Soule was run away with, on a high horse.—Mason and Buchanan, like Turkey, are "sick men," and have given notice they don't expect to live long. But the sickest man of all is Mr Consul Hopkins, who will soon, we presume, add himself to the general wealth and greatness of this republic, and to the assets of the United States and Paraguay Navigation Company, after an absence of a couple of years.—*N. Y. Evening Post.*

LOCAL.

CHANGE OF TIME.—Travellers should examine the Railroad advertisements in the 4th page of this morning's Chronicle. The new Spring arrangements, which commence to-day, cause some very material changes in the times of leaving. Be careful, or you will miss the train. Expresses ditto, of course.

The Freight Train on the Concord road will leave Portsmouth at 5:40 P. M. instead of 6 as advertised.

☞ We understand there is to be an exhibition before the Methodist Sunday School on Fast evening, of a large number of illuminated diagrams and pictures, illustrating Astronomy, Natural History, Costumes, &c. by means of a large Magic Lantern; the proceeds to be appropriated to the increase of the Library.

☞ Stephen S. and Abby Kelley Foster, lectured in the Temple on Saturday evening, on the subject of Slavery. They also held meetings in the day on Sunday, in the Camenenum, and in the evening, again at the Temple.

They will speak again at the Temple this evening, on the position of the American Churches. All are invited.

☞ Rev. Sereno T. Abbott, Pastor of the Congregational church of Seabrook and Hampton Falls, died on Wednesday last, of lung fever. The funeral services will be attended this afternoon at 1 o'clock. Mr. Abbott was in the 50th year of his age.

ZOOLOGICAL CONVENTION.—The publisher, Nathaniel Noyes, 11 Cornhill, Boston, has sent us a copy of Prof. Hitchcock's History of the Zoological Temperance Convention, which is a humorous satire on the consumption of Alcohol and Tobacco. It is in the guise of a Fable, and is equal, in point of interest, to Dea. Giles's Distillery.

A talented artist has embellished the book with a number of spirited wood cuts. On the whole, the book is extremely instructive as well as interesting and amusing. See advertisement.

☞ Rev. Rufus W. Clark, of Boston, is to deliver a Lecture in the City Hall at Newburyport, this evening, on the subject of Romanism. Admission ten cents.

DIVIDENDS.—The Ocean Bank, Newburyport, pays a semi-annual dividend, Monday, 5 per cent., and the Mechanics 4 per cent. The Merchants' makes no dividend. The Powow River Bank, Salisbury, pays 5 per cent.

NEW YORK, March 31.—Yesterday afternoon, the horses attached to a carriage, in which was Mrs. Webster, widow of Daniel Webster, took fright and run away. Mrs. Webster becoming alarmed, jumped from the vehicle, and was thrown with great violence on the pavement. Her head was badly cut, and she was taken up in a state of insensibility. She shortly recovered, but her injuries are of a serious nature.

The Rev. Dr. Bethlehem, who has been engaged in missionary labors at Loo Choo since 1845, gave a very interesting statement of his experiences, before a number of clergymen attached to the Methodist Episcopal Church, last evening. He gave his views upon the prospects of missionary and commercial intercourse with Japan, and declared it to be his conviction that it will require many years of patient missionary effort there, before American merchants will be able to acquire money, or even to spend it in the way of commercial negotiation.

EXPECTED ARRIVAL.—An official order has been issued from H M Commissariat Department, instructing the contractor to prepare fresh beef for 500 additional men, who are expected to arrive to day. A contemporary says that Wier & Co.'s packet America will bring down as many as she can accomodate. It is rumored that 3000 men are to be raised and kept here long enough to drill and discipline for the Crimea. We believe there is no doubt about it,—if so, Halifax must be largely benefitted by this move on the part of the government. We admire the skill and secresy with which this force has been mustered—not one of the 500 belongs to the Know Nothings. Good! Who will now ask the object of Hon. Mr. Howe's mission to the United States? And we shall hear "more too."—*Halifax Journal, 26th.*

A VETERAN WHIST PARTY.—In Boston, there is a party of four gentlemen who have been in the habit of meeting together to play whist every Friday night for 27 years—still hale and hearty, and likely to meet for 27 years more.—*N Y Spirit Times.*

Scene in an apothecary shop after the passage of the Maine liquor law—Two nice young men enter. "Come, Jim, what will you take?" "Well, I guess I'll take a prussic acid smash." Clerk to second gent—"What's your's?" "I'll take a burning fluid cocktail."

"Old Folks" Choir.

THERE will be a Meeting THIS EVENING, Monday, April 2d, at Exchange Hall, at half past 7 o'clock. All members are requested to be present, to hear the report of the Committee, and decide as to future operations.

NEW YORK, March 30.—The Steamship Philadelphia arrived at this port last night, with Havana dates to the evening of the 23d inst., anticipated by the Crescent City, at New Orleans.

Romon Pinto met his fate heroically. His last words upon the scaffold were "Friends, I die innocent. I am a Spaniard."

The sentences of Cadeljo and Pinelo had been commuted to ten years in chains in Africa.

Mr. Thompson, U. S. Consul at Sagua, has received permission to return to his home.

Upon the occasion of the firing at the steamer El Dorado the second time, the Spanish frigate was some four miles off, and as her shots did not come within a mile and a half of the El Dorado, she kept on her way, and paid no attention to them."

CINCINNATI, March 30.—Great excitement exists here in regard to the slave of Mr. Dennison, of Louisville. Last night she was re arrested by the U. S. Marshal, and taken before U. S. Commissioner Pendery. This morning, when the case was argued, the Commissioner reserved his decision until next day, the girl, in the meantime, remaining with the U. S. Marshal. If she is remanded to slavery, there is little doubt but a conflict will ensue between the citizens and federal authorities.

TRENTON, N. J., March 29.—The Senate to-day passed the bill to charter the City bank at Newark, over the Governor's veto, by a vote of 13 to 7. The House passed the same bill by a vote of 40 to 12. The House also passed the bill providing for the Farmers' and Drovers' Bank, of Hudson, after it had been once defeated. The vote was 37 to 15. This is believed to be the last Bank bill. Two of the re-charters, the Mount Holly and Cumberland Banks, became laws by the lapse of time, the Governor having kept the bills over the time required for them to be sent in.

DEFEAT OF THE NOVA SCOTIA LIQUOR BILL.—The Legislative Council of Nova Scotia has settled the Prohibitory Liquor Bill for the present, by refusing to pass it until the wishes of the people are first obtained, and for this purpose have ordered that 5000 copies of the bill be printed, and 300 sent to each county. The Morning Journal says:—

The Legislative Council has swamped the Prohibitory Liquor Bill, and deferred its consideration until next session. In the mean time they have ordered the printing of three thousand copies of the bill for circulation.

FROM ST. JOHN, N. B.—The Liquor Law recently passed by the New Brunswick Legislature is commented on with much severity by most of the papers in the Province. The New Brunswicker says:—

We believe that nearly every paper in the Province which is not avowedly in connection with the Sons of Temperance, has given an unfavorable opinion of the Prohibitory Liquor Law.

LIBERAL DONATIONS.—It is reported that the late Miss Elizabeth Pratt, of Boston, who died a few days since, has bequeathed $20,000 to the Massachusetts General Hospital, for the use of the two departments of that institution, viz.: the hospital in Allen street, and the McLean Asylum in Somerville.

Miss Clark, from New Hampshire, died in Paris on the 5th of March, of typhoid fever, after seven weeks illness. She was twenty years of age, possessed great personal beauty, and is said to have exhibited unusual talents in her profession of artist.

Miss Catharine Hayes gave a concert at Calcutta on the 15th of January. She is the first *prima donna* that has visited the Hindoos, and therefore she created much excitement. The high price of admission—$6.90 for reserved, and $4.50 for other seats—created great dissatisfaction.

SNOW IN WESTERN NEW YORK.—SYRACUSE, March 29.—The train which left Oswego at 8 o'clock this morning, did not arrive until after 7 this evening, in consequence of immense snow drifts, which in some instances were nearly even with the tops of the cars.

CITY OF HOBOKEN.—NEW YORK, March 30.—Our Hoboken neighbors, at the election yesterday, decided in favor of being incorporated as a city, by a two-third vote.

POLICY VITIATED.—We learn that the late Mr. Hooper of Boston, had his life insured for $10,000, but the policy is void on account of the manner of his death.

An editor out in Iowa, says they don't brag of the size of their babies, "but they are a most uncommon *sure* crop."

JUST PUBLISHED!

History of a Zoological Temperance Convention.

BY PRESIDENT EDWARD HITCHCOCK, D. D.; LL. D.

CONTAINING THIRTY ILLUSTRATIONS.

Opinions of the Press.

A charming and instructive fable, and one that will implant good seed in many a youthful mind.—*Philadelphia paper.*

It is a good work, will make the boys laugh, teach them a good moral lesson, and many other things besides.—*Boston Weekly Telegraph.*

An amusing book, full of rich matter, worthy the particular attention of all persons interested in reforms.—*Boston Transcript.*

An extraordinary allegory, well illustrated.—The whole forms a peculiar, but forcible plea for sobriety.—*Watchman and Reflector.*

It is brimful of fun and temperance, with an occasional sly hit at some of the follies and evils besides those arising from the sale of alcoholic drinks.—*Congregationalist.*

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt, and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the menstruum of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the invalid back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

United States Bounty Land Agency.

Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

Any machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crossgrained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *tower out knots* knots.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to pass with their grain. Upwards of one thousand clap boards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee, who has received the Premium at Fairs.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, were uttered their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUXES, Alias, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my family and well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, at, of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *excessively*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

DAILY WORK..

BY CHARLES MACKAY.

Who lags for dread of daily work,
And his appointed task would shirk,
Commits a folly and a crime:
A soulless slave—
A paltry knave—
A clog upon the wheel of time.
With work to do, and stores of health,
The man's unworthy to be free
Who will not give,
That he may live,
His daily toil for daily fee.

No! Let us work! We only ask
Reward proportioned to our task:
We have no quarrels with the great:
No feud with rank—
With mill or bank—
No envy of a lord's estate.
If we can earn sufficient store
To satisfy our daily need,
And can retain,
For age and pain,
A fraction, we are rich indeed.

No dread of toil have we or ours:
We know our worth and weigh our powers;
The more we work the more we win:
Success to trade!
Success to spade!
And to the corn that's coming in!
And joy to him who o'er his task
Remembers toil is nature's plan;
Who, working, thinks—
And never sinks—
His independence as a man.

We only ask for humble wealth,
Enough for competence and health;
And leisure when the work is done,
To read our book
By chimney nook,
Or stroll at setting of the sun.
Who toils as every man should toil
For fair reward, erect and free:
These are the men—
The best of men—
These are the men we mean to be.

A CURIOUS CHURCH CONTROVERSY.—A correspondent of the Springfield Republican gives an interesting account of a trial which has just been closed in Greenfield—the trial of Mr. Daniel Frost of Orange, complained of for wilfully disturbing a church meeting. The testimony of the various witnesses who were called, elicited the following facts. Rev. S. M. Lord, temporary minister of the Evangelical Congregational Church of North Orange, sent a note to the congregation declaring that he should break off his ministerial connection with them unless they allowed him to hold the reins of their affairs in his own hands, and to do things after his own way. He set forth several propositions, to be acted upon by the church, expressing their full confidence in him, giving him all the authority he wished, and extending to him their aid and sympathy, and then called a meeting to act upon them.

The minister himself presided at the meeting, and made a speech, announcing that general discussion by others would be out of order, and that all remarks must be addressed to himself. He next proceeded to rule in as a competent voter a man who belonged to another town. Unfortunately for him, his congregation, and particularly Mr. Frost, who was a heavy tax payer in the parish and a deacon, did not entirely agree with him in his sentiments. His ruling, in the case of the "outsider," was voted down. The endorsement of his character as a Christian pastor was refused, and after the stranger was voted out, there was no one present to second the motion for the adoption of the propositions. The discussion became quite personal, and the meeting dissolved in confusion. The minister entered a suit against Mr. Frost for wilfully disturbing it. The trial was very amusing, and the minister, as a witness, was himself obliged to relate all the circumstances of the affair, even to his very acts and speeches.

At Princeton, Ky., licenses to sell liquor have been increased to $1500 per annum.

THE BRITISH RECRUITING DEPOTS.—We learn from the Philadelphia papers, that the eighteen persons who were arrested by the United States authorities for being engaged in the business of obtaining recruits for the British service, had been examined, and the principals, E. E. Perkins, Henry Herz, and Mr. Budd, were held to bail in $2000 each, and the remainder were detained as witnesses. All the parties, with the exception of Perkins, are Germans.

The parties engaged in forming an American battalion in New York for the British legion, have voluntarily given notice to the District Attorney that they have abandoned the enterprise, satisfied that it is unlawful.—*Boston Journal.*

All right: let this wholesome law be observed. But the same men may go, *each on his own hook,* by shiploads, from New York, Philadelphia, Boston, or Portland, to Halifax, and enlist *there,* without violating any law.

TUESDAY, APRIL 3, 1855.

EXTRAORDINARY SENTIMENTS.

In the Eastern Argus of March 21st, we find the following remarkable editorial, which we copy *verbatim* and in full, including its head: inviting the attention of every reader, of whatever party or sect, to its extraordinary assumptions and sweeping conclusions.

No Man can Serve Two Masters.—This fact has been fearfully impressed upon the minds of men, within the past two months. The nominee for Governor, of the midnight cabal that has succeeded in obtaining a temporary ascendency in New Hampshire, fell suddenly, and without warning, in the streets of Concord, a corpse, some two weeks before the election.

Cyrus Barton, a K. N.—Dem.—Fusionist—Burkite, while uttering publicly, sentiments in accordance with which he had not lived, gasped his last breath as a period to the sentence.

Senator Wilson, when he reached Washington, was found not to be the Wilson he had been in Massachusetts. Upon returning, however, he attempted to play his old weather cock game, and in a public meeting in Boston, made his obeisance to the North thus:

"If there is any one here (said the lecturer with emphasis) who believes that I am capable of modifying my sentiments and opinions, cherished by me for twenty years—either at home or abroad, either in public or private, before friends or in the face of enemies—I commission him here and now to proclaim it. Send it abroad on the wings of the wind, that I am committed, fully committed, committed in the fullest extent, in favor of the immediate and unconditional abolition of slavery, wherever it exists under the authority of the constitution of the United States."

At the close of this sentence, he was seized with an alarming vertigo, and borne from the hall in a state of insensibility—nor was he able to resume. Who shall say there is nothing in all this, worthy of the serious consideration of every honest citizen.

We shall not say so: but on the contrary shall say it is worthy of *serious* consideration, by every citizen, honest or dishonest. The fact that two eminent men have died suddenly, and that a third was taken alarmingly sick, would naturally lead every thoughtful mind to the reflection, that no station or pursuit, be it the most exalted or the most insignificant, exempts any man from the most sudden arrest, by sickness or by death.

If this were suggested by the Argus, and this were all, we should probably have copied the article without comment. That paper, however, does not suggest this at all: but it groups these three cases together, as illustrations of the scriptural idea, that "no man can serve two masters"; and then at the close urges to the serious consideration of the statement that Barton died, and Wilson came near dying, in the utterances of what the charitable editor of the Argus is pleased to tr at as falsehood. The aim is evidently to create a sort of holy horror, at cases of sacrilegious lying, like those of Ananias and Sapphira, by the insinuation that one died and the other came within one of dying, as the direct judgment of God fell upon them for the special sin they were committing.

We propose to look at these three instances in detail.

If the reader will please to re-peruse the first paragraph of the extract, he will perceive that it relates to Rev. John Moore, late of Concord, intimates that he tried to serve two masters, and infers that because of such attempted service God smote him with sudden death. If it does not mean this, will the Argus, or any body else, be good enough to tell us what it does mean?

This intere ce seems to us a most arrogant assumption of Divine prerogatives, even had Mr. Moore been a vile man; and prompts us to quote the well known lines,

> Let not this feeble, erring hand,
> Presume thy bolts to throw,
> Nor deal damnation round the land,
> On each I deem thy foe.

We are also reminded by it, of some Galileans, whose blood Pilate mingled with their sacrifices, and of whom Jesus said, "suppose ye that these were sinners above all the Galileans? I tell you Nay:—or those eighteen, upon whom the tower in Siloam fell, and slew them, think ye that they were sinners above all men that dwelt in Jerusalem? I tell you Nay: but except ye repent ye shall all likewise perish."

But Mr. Moore was not a vile man: he was, on the contrary, a man of honest heart and upright life; a christian and a minister, highly esteemed in his own denomination, and beloved generally by the people of all the various towns where he had ministered. It was our pleasure and happiness to know the man and his ministry, and therefore on these points we can speak positively.

Let us now pass from his general character, to the particular offence, for which, according to the above extract from the Argus, he died in a manner so dreadful, as to make a *fearful impression* on the mind of the Argus, as to the impossibility of serving two Masters.

We inquire, What two masters does the Argus mean?

Soon after Mr. Moore's nomination by the K. N. convention, the Dover Gazette said, Mr. Moore *had* been a Democrat, but had latterly been a twattling Abolitionist. Do we understand the Argus, that it is an offence against God, to twattle (i. e. talk) against slavery, and that He struck a man dead for doing so? Or shall we understand that any man, who dares to leave one political party or master, and act with another, is singled out for this, as a mark of Heaven's mortal vengeance?

The Argus, however, specifies another offence of Mr. Moore, viz., that he was "the nominee for Governor, of the midnight cabal that has succeeded in obtaining a temporary ascendency in New Hampshire." Was one of the largest conventions ever held in New Hampshire, a Cabal? Does God strike men dead for merely taking the nomination of an evening session of a convention? If so, why does he not strike dead the whole American Congress, President and all, who keep up a Midnight Cabal through Saturday night, and until Sunday noon?

Or is the offence, that the Cabal or Party have gained the ascendency? In this case, Mr. Metcalf should have died, and not Mr. Moore,—for the latter was not eligible, and died before the election, while Metcalf was eligible and is elected.

Is it that Mr. Moore, having been a member of the Democratic Party, joined the K. N.'s and accepted their nomination for Governor? Then the victim should rather have been Gov. Baker; for he is said to have joined the order, and then to have left it because he could not get that nomination.

Or, Is it that Rev. Mr. Moore, being a christian and a minister, and so a servant of God, was struck dead for meddling with politics and thereby serving the devil?

Then how does it happen that the Rev. Mr. Harriman (of whom we shall speak presently) still lives? How did the Rev. Messrs. Morrill and George, Pike and Perkins, happen to survive their nominations and elections? And how does it happen that Rev. Mr. Wood of Concord, instead of dropping dead when he signed *the* certificates, goes out a live Consul to Beyroot, as a reward for this remarkable service. No man in Concord, would think of setting any one of these above Mr. Moore, in the *moral scale*, which the Argus here sets up.

Or, lastly, is the Old Line Democratic Party such a collection of saints, that they never die?—while all other parties, cliques, coalitions, factions and cabals, are such synagogues of Satan, that God sentences them to sudden death?

It is true that Mr. Moore died suddenly; but it is not true that he died without warning. On the contrary, his death was such an one, as to its suddenness, as both he and his friends expected, and of which they had been warned, by an attack of temporary paralysis, which he suffered about two years before his death. At the time of this attack, when he was beginning to recover, he wrote and published his Farewell Letter to his Denomination (the Universalist) because as he intimated, there was reason to suppose he might not be able to do any thing of the kind at the time of his apprehended death.

Col. Barton, at the close of a sentence in his speech, which he was delivering with more than common vehemence, suddenly faltered, and fell dead into the arms of his opponent, the Hon. and Rev. Walter Harriman, who will be shocked when he reads the above extract from the Argus. The Argus mentions Col. B's political associations — but does not say what *two masters* he served. We can think of *only* two, in regard to him, viz. that he had formerly served the late ruling party in New Hampshire,—and had now rebelled, and served the K. N's.

What *sentiments* he advocated at that time, we do not exactly know:—but may suppose he spake in favor of American rule, of private judgment, of temperance, and of freedom—against slavery, intemperance, and priestly domination.

Is this so wicked as to call down the deadly bolt from Heaven? Or is opposition to the late ruling party a capital crime, of so enormous a magnitude that God punishes it with death on the spot?

Has it not occurred to the Argus, that within the same two months, a dozen or two of similar sudden deaths have been recorded in the papers, in all parts of the country, as occurring in pulpits, pews, railway stations, cars, streets, parlors and bed chambers.—Were all these deaths, special judgments? If not, why were those?

We consider the two deaths above noticed, as solemn and affecting dispensation of God's good Providence; and so we do the deaths of all the others alluded to. But we do not believe that God caused Harrison and Taylor and King to die because they were sinners above all men; nor that he saved Tyler and Fillmore and Pierce alive because they were saints above all men.

We do not believe that Nicholas died because he could not serve two masters, and that Louis Napoleon lives on because he serves but one: nor do we suppose any body believes that *falsehood* killed Nick, while Nap is kept alive by his wonderful *truthfulness!*

The issues of life and death, we rejoice to believe, are not in the hands of men, but rather, as Jesus taught, in those of our Heavenly Father, who watches the fall of the sparrow, and numbers the hairs of his children's heads.

Of Mr. Wilson, we need say but little.—He is not yet dead; and so far as we see, his character for veracity, consistency, and steady opposition to slavery, is at least as good as most of those who assail him so bitterly. The sentences above quoted from him, are excellent, and worthy of the last days of Henry or Jefferson. Mr. Wilson may live a long time yet, and do much good in beating down one of the foulest evils in our land. But should he happen to die at the end of his speech, which he is yet to deliver, such dying testimony should be gathered up as a precious legacy, worthy the serious consideration of every honest citizen.

Heroes and Martyrs of the Modern Missionary Enterprise: A Record of their Lives and Labors, including an Historical Review of Earlier Missions. Edited by Lucius E. Smith. With an Introduction by Rev. William B. Sprague, D. D.

We know not where to look for so much religious history and biography of the most interesting character within the same space, as in this volume. The subjects of the several memoirs are admirably selected, and comprise all the leading names of missionaries of various denominations, who have labored under English and American auspices. The single sketches are necessarily brief, but are made so by condensation rather than by omission; and they appear to have been compiled with great care and from the best authorities. While the religious reader can find no uninspired book, more precious or edifying than these records of the great things wrought and endured by holy men in the name of Christ, we at the same time know of no description of reading more instructive as to the history and condition of remote countries and races, or richer in marvellous and exciting incident and adventure. We would bespeak for this book a ready reception and an extensive circulation. The agent for this city and its vicinity is Mr. Wm. W. Dow, whose excellence of character and fine intellectual promise need no endorsement from us, and who hopes to derive from the sale of this work, aid in his preparation for the gospel ministry.

A. P. Peabody.

Having given to the above named work a general examination and having thoroughly read some of the biographies which it contains, I am prepared to concur fully in the above favorable notice of it. I do most earnestly wish it might have a place in every family, and hope it may have a very wide circulation.

William Lamson.

Rowdyism.—The attention of the police department should be called to the fact that rowdyism is triumphant in this city. Several instances have recently come to our knowledge, of windows, sashes, and blinds of dwelling houses being broken; fences and gates displaced and removed, and other lawless acts of violence committed by nightly gangs of prowlers. In some cases these outrages have not been made public for fear of a renewal of them, but there can be no doubt of their occurrence, and we wish to draw the attention of the authorities to the subject.

Court of Common Pleas.—This Court has remained in session at Exeter through the past week; but for some reason unknown to us, we have received no report. In the case of Wells vs. Scammon, to recover counsel fees, the jury returned a verdict for plaintiff, assessing damages at $520.79.—In case of Cyrus Fellows vs. Sarah Fellows, the jury found verdict for defendant.

In the case of Morrill Manson vs. Geo. W. Towle, for defamation, in charging plff. with stealing a pair of boots—the deft. contended that the circumstances justified the charge. The trial occupied two days, and the case was argued with great ingenuity. The jury, after being out three or four hours, reported disagreement; but on being recalled and addressed by the Court, on the importance and propriety of agreeing, after further consideration they returned verdict for Manson, with $10 damages and $10 costs. Plff. moved to set aside verdict, and for a new trial. Christie and Goodall for Manson; Marston and Hatch for Towle.

This was the last case for jury trial. Thursday was spent in hearing motions, &c.; and on Thursday evening the Court adjourned to this (Tuesday) morning.

Tilton, of East Kingston; Mace Moulton, of Manchester; Joshua Woodman, of Strafford.—*Exeter News Letter.*

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

KANSAS ELECTION.—The following vague despatch embraces all the information that has come to hand:

CHICAGO, March 31.—A despatch from Weston, Missouri, via St. Louis, says that the pro-slavery ticket on the north side of Kansas river had 1,000 majority, and that there was no opposition to the pro-slavery ticket in Burr, Oak, or Atchison precincts.

These places are those nearest Missouri, and of course most thronged with "pipe layers."—*Boston Advertiser.*

CLAIMED PROTECTION AGAINST HER HUSBAND.—One Mrs. Locock rushed into the Police Court, Saturday, and without ceremony, claimed protection against the brutal treatment of her husband. Some eight months ago he was charged with a violation of her person, which was settled by wedlock while yet in jail. The court administered a lecture, and sent the pair away to reflect upon it.—*Boston Bee.*

The present week is the Jewish Passover, observed by all the Israelites settled over the world, in commemoration of the departure of the children of Israel from Egyptian bondage and slavery, by the eating of unleavened bread for eight days, the reading of the *Hayadah*, and divine worship in the Synagogue on the two first and two last days of the festival.

It is also Passion Week in the Christian Churches, containing Good Friday.

Our State Fast occurs on Thursday, making out quite a religous week.

MURDER CASE.—On Saturday, Aaron Sias, charged with the murder of his wife Harriet, at the Lawrence House, Boston, was brought before the Police Court, and waiving an examination, was fully commited to await the action of the Grand Jury in the matter.

MARVELLOUS CURES.—We have always been slow to believe the wonderful cures which one medicine after another pretends to have made,—but slow as we are we will own up, when we are fairly convinced. Those of our readers who are acquainted with the cases of Mrs Beach and Mr Farwell, will not think us lightly turned, when we confess our belief that Ayer's Cathartic Pills have virtues for purifying the blood which excel anything within the range of our acquaintance hitherto. For those who are not cognizant of the fact, we will say: *she* had been afflicted for over eight years with scrofula which only grew worse, in spite of all the remedies she could employ, until she took *Ayer's Pills.* Under their influence one after another of her sores have healed, until she is apparently as free from the complaint as ourselves. *He* has had liver complaint with pain in his side that disabled him from work for a long time; all other medicines had failed to afford him any permanent relief, but a few doses of *Ayer's Pills* cured him and he is now steadily at his old post of conductor on the cars.—*Middletown Daily Courier.*

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

IMPORTANT IMPROVEMENT

Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer

My machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *chip out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them to so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

THE GREAT STANDARD REMEDY

FOR ALL PULMONARY DISEASES.

THE VEGETABLE PULMONARY BALSAM FOR COUGHS, COLDS, CONSUMPTION.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Statesmen, and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr LYMAN BEECHER, Boston, late Prest. Nat. of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. K. WILLIAMS, Esq., Formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia.—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

☞ *Beware of Counterfeits and Imitations!!*

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens, will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAL MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, &c., of so serious a nature, that literally my physician pronounced Cancer of the Womb. I suffered extremely, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his PATENT SELF ACTING TABLE LEAF SUPPORT, would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose.—It is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.
PATENTED NOVEMBER 21ST, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained or knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

Morning Chronicle.

WEDNESDAY, APRIL 4, 1855.

INDEPENDENCE OF THE PACIFIC TERRITORY.—A long time ago, that sagacious and far seeing statesman, William H. Seward, said, in the Senate, that the Pacific railroad was more needed for the preservation of the Union, than was any legislation on the subject of slavery. He apprehended no danger that the people of the South would desert the federal Union, because they could not stretch the institutions of slavery beyond the constitution; but he plainly saw that the enterprising and adventurous people of California would not consent to be separated from the seat of government and the facilities of commerce by a distance which rendered their position provincial.

A party is already springing up in California, looking towards separation, independence, making the Rocky mountains the dividing line between the two republics, and adding to the new one all that can be conveniently wrested from Mexico or added from the Pacific ocean. The fillibustering which our government has encouraged is thus returning upon ourselves; the doctrines which have justified the enlargement of our territory are applied to circumscribe it. Such a party in California has a formidable look. There is a natural and a geographical foundation for it, and the enterprise suits the temper of the people. It will have the prestige of patriotism and of local feeling; it will afford just the tool for demagoguism; and it will be put down, if at all, only by such concessions as the people east of the mountains will be most reluctant to make. *Providence Journal.*

☞ The funeral of the Rev. Sereno T. Abbot, of Hampton Falls, was attended on Monday afternoon, April 2. The public services were held in the Friends' Meeting House in Seabrook, which was freely offered for the occasion, and was crowded with people. Rev. Alvan Tobey of Durham, offered the funeral prayer: Rev. Mr. Hadley, of Maine, preached from Psalm 97:2. The preacher was a class-mate of the deceased, and preached on this occasion in compliance with a mutual agreement made many years ago, between the two. The sermon was followed by remarks by Rev. Benjamin Allen, late of South Berwick, who closed the services by prayer.—They were interspersed with solemn songs; and followed by depositing the remains in the adjacent cemetery.

Mr. Abbot was 49 years of age; was a native of Andover, Mass. and a graduate of the Institution there; had spent his whole ministry, of 18 years, at Seabrook and Hampton Falls; and by his industry, hospitality, and fraternal kindness, had greatly endeared himself to his brethren in the ministry, not a few of whom testified their regard for him by attending to look a last adieu on his lifeless face, and drop a farewell tear as they turned away from his grave.

ELECTION IN CINCINNATI.—CINCINNATI, April 2—The result of to day's election is not determined, but the Know Nothings are probably ahead. Several serious rows have taken place during the afternoon.

A Dr. Brown was assaulted at the polls in 4th Ward, this P. M., by a foreigner, and severly beaten. The Know Nothings turned out en masse, and taking a cannon from the Dutch and Irish, turned upon them and fired.

The 11th ward contains a large majority of Germans, and it having been changed, that party were prevented from voting the American ticket in that ward. A large party of Americans took possession of the ballot boxes and destroyed the tickets. Several were wounded in the struggle which ensued, but no one was killed. Dr. Brown being yet alive and likely to recover although badly injured.

The 11th ward is supposed to have given a majority of 6 or 700 for the Sagsright ticket, but the vote cannot now be counted.

SLAVE CASE.—The U. S. Marshal has been committed to jail for contempt of court, in refusing to produce the slave Rosetta before Judge Parker. It has been found that Rosetta is secreted from the authorities, having been taken from the jail. A report has reached here, that a large number of armed men are coming down to-night from Marysville, to take the girl by force to Kentucky, but the rumor is not generally believed.

The absence of the girl from jail is causing much excitement.

HARTFORD, April 2d.—The returns from nearly thirty towns, show that Ingham, dem., leads all others for Governor. Minor, K. N. leads Dutton, whig, very largely, and will fall but little short of Ingham. No election by the people. Thus far we have returns of 29 Democrats, to 21 Know Nothings and Whigs to the Legislature, with strong Know Nothing Districts to come in. First Congressional District doubtful; Third District, Sidney Dean, Know Nothing, elected by large majority; Burr, dem., for Senator, probably elected in 1st District, and Wheeling, dem., in 3d District. Hartford, R. T. Hubbard, democrat, and E. D. Tiffany, Know Nothing, to the Legislature. New Haven two Democrats.

In the County 3 towns to hear from, the vote for Governor stands Dutton, whig, 1281; Ingham, dem, 5701; Minor, K. N. 5049. The Whig and Know Nothing candidates have been elected in the 1st, 2nd and 21st Districts.

CONNECTICUT.—Despatches from Hartford, 34, say returns not all in, but result nearly as follows—for Gov: Ingraham (Dem) 27,000, Minor (K N) 25,000, Dutton (Whig) 9,000. The K Ns and Whigs have 19 or 20 of the 21 Senators, and probably "130" or the "234" Reps—so Minor will be elected by the Legislature. The Whigs and K Ns also carry four of the Congressmen.

MAYOR OF PORTLAND.—At the City Election on Tuesday, Neal Dow was elected Mayor.

☞ Harper's Monthly, for April, 1852, is received from Fetridge & Co. Boston, via J. F. Shores, jr., of this city, and contains its usual rich variety of reading matter. Towards the close, there are some plates of real elegant fashions, and some rich and Punchy burlesque cuts of grotesque fashions, for gentlemen and ladies.

AARON SIAS, the keeper of a sort of tavern in Boston, who is in jail for murdering his wife, is the same Aaron Sias who once kept a drinking house in Dover, N. H., and bought a barrel of Gin of Andrew Pierce, jr., for which the latter was prosecuted under the N. H. liquor law, in 1842.

A SMALL HUMBUG.—We have a circular from somebody who signs his name A. F. Boyle, 17 Spruce street, N. Y., who proposes to do wonderful things for country newspapers, and take his pay in postage stamps and advertising. Mr. Boyle had better buy out the *lithographed New York Letters* manufactured for Country papers, in Nassau street. Two humbugs, such as that letter and his New York city news, cannot exist in the same country.

So says the Portland Advertiser, and so say we,—as we also have been favored with one of these delectable circulars, sealed up like a letter, mailed March 31, postage unpaid. Ours, by the way, was directed to the "Chronicle, Portsmouth, *Maine.*" If the writer's general intelligence is on a par with his knowledge of local geography, his items must be as valuable as chips in porridge.

☞ The Boston Journal states that Mr. Emory Perry, a well known and highly respected citizen of Worcester, Mass., died on Monday morning, 2d, at the age of 55, leaving a wife and several children. He has long been a teacher of vocal music, and stood high in his profession. He was brother to Dr. A. Perry of this city.

CAUSES OF THE RECENT POLITICAL REVOLUTION IN THIS STATE.—Since the election the newspapers in and out of the State have had much to say of the causes that produced the great change in New Hampshire. Some contend that the anti-Nebraska sentiment did more than anything else; others, that the American movement had the most to do with it. The truth is, both are at the bottom of the great change we have witnessed, and it is extremely doubtful which has contributed most toward effecting the revolution. It is certain that the unpopularity of old parties has done nearly as much to effect the result, as the popularity of the new party.—*Manchester American.*

A new bill is on its passage in the Legislature, for division of the town of Andover. The former bill was defeated by opposition from the north parish, whose inhabitants wished to retain the ancient name of Andover, but a compromise has been effected, by which the south will pay the north $1000, and retain the old name. There is hardly any difference of opinion for which Yankees will not fix a cash value.—*Newburyport Herald.*

THE NEW YORK TEMPERANCE BILL was amended in the Senate of that state on Saturday, so to allow the importer to sell in the original packages, if not less than sixteen gallons. This was carried, 14 to 12. An amendment to submit the law to the people was lost, yeas 7 nays 18: and the bill was then ordered to a third reading without a count.

Forty or fifty members of the Indiana Legislature, after the passage of the Maine Law by that body, sent out a message to the people of that State, protesting against the law on constitutional grounds, and advising their constituents, and the people of the State generally to pay no attention or regard whatever to the law.

Valentine Dorn, a well-known German musician of Boston, who lived on Marion street, while attempting to sneeze, burst a blood vessel, and bled so much that he died Monday forenoon.

FATAL ACCIDENT.—On Monday the new Glass Factory at the town of Progress, N J, was blown down, and 25 glass-makers were buried in the ruins. At last accounts 8 dead bodies were recovered and several seriously injured.

ANOTHER CHURCH IN FIFTH AVENUE.—The society of the "old Brick Church" have purchased the four vacant lots on the corner of Fifth Avenue and Thirteenth Street, and will build "a first class church" immediately. There seems to be a sort of evangelical ambition to worship God in the most fashionable of the Avenues.—*N. Y. Mirror.*

ANOTHER SUICIDE.—William Raymond, formerly of Charlestown, tanner, committed suicide at the residence of his daughter in Malden, on Thursday afternoon. Mr. Raymond was about 70 years of age. Domestic affliction is supposed to have caused the sad act. It was probably precipitated by the recent suicide of Hooper, an account of which he had just been reading when he repaired to the attic of the house and committed the fatal deed.—*Bee.*

A merchant of New York was seduced by a pretty girl in the street, went home with her, and in the morning was $2,500 "short." Two girls are under arrest for the robbery, but they are inveterate know nothings, and the man is a "respectable" that the papers do not print his name.

The Health of Mrs. Daniel Webster, who was so severely injured by a fall from her carriage on Friday last, is improving, and there is now a fair prospect of her recovery.

The City Missionary acknowledges the receipt, on Monday, of $5.00 for the poor.

LOCAL.

FAST DAY.—To-morrow being Fast Day in this State, no paper will be issued from this office on Friday morning.

CITY COUNCIL.

TUESDAY, April 3.

In Board of Aldermen, a petition was received from 2nd School District, stating that their meeting was informal, (as the Moderator was not chosen by ballot,) and requesting the Board to appoint a Committee. The same Committee were re-appointed, Rev. Mr. Lamson' being chairman—who, parents will be pleased to learn, has been urged into acceptance of the responsibility.

Both branches of the City government met in Convention at 7 3-4 o'clock, for the purpose of choosing city officers, as required by the Charter.

CITY ACCOUNTS.—The Annual City Book has just been issued from the press; and as it is to be distributed to all the tax payers, we make no extended extracts.

Whole number of scholars in the schools, at some time in the year, not less than two weeks, 2,277. Average attendance, 1,287.

The whole number of arrests made by the Police, from June 13, 1854, to March 22, 1855, is 220, for the following causes:

Drunkenness 145, Vagrancy 15, Brawl and Tumult 10, Disorderly Conduct 8, Insane 1, Lodgings 18, Assault and Battery 11, Firing India Crackers 2, Stealing 6, Night Walkers 4. Of the above-named persons, 25 were not committed. Of the 220 persons arrested, 206 were male and 14 female, from different nations, (as near as could be ascertained,) as follows, viz.: Americans 125, Irish 82, Scotch 6, Nova Scotia 2, English 2, colored 2

The cause of the arrest of 170 of the above named may be attributed to Intemperance. There are many vices practiced in this community among the Irish, such as drunkenness and gambling in their houses. There is also gambling carried on extensively by a class of boys between the ages of 12 and 20, in old buildings and on the Sabbath in the fields.

There is drunkenness to an alarming extent among boys, and many other vices for the suppression of which the Police need the co-operation of parents and guardians.

Inmates of the Alms-House, March 26, 95: average for the year, 84,—of these 5 are idiots, and 13 are insane.

☞ We learn that considerable interest is manifested as the time fixed by some Adventists for the end of the world draws near. Ten of their converts were baptised on Monday noon. They expect to be "caught up," on the 19th proximo, while the earth and its inhabitants are *burning* up. *

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m a2 d&w

The reputation enjoyed by the VEGETABLE PULMONARY BALSAM, for *Coughs, Colds and Consumption*, has been acquired through long years of success, and those troubled with pulmonary Complaints should by all means try it.—*Dover Gazette, N. H.* [See advertisement in another column.] 2w m22

SEVEN DAYS LATER.

ARRIVAL OF THE DANIEL WEBSTER.

NEW ORLEANS, March 31.—By the steamship Daniel Webster at this port last night, we have dates from San Francisco, to the 9th ult.

None of the suspended bankers have resumed payment, but the excitement had subsided.

It was thought probable that none of the bankers would resume, except Page, Bacon & Co.

Since the previous steamer sailed, two new failures are reported.

The Supreme Court had decided that persons inclosing land in the mining region, could not hold it against the miners.

The Capt. of the Daniel Webster reports that on his outward passage to San Juan, he was brought to by shots from a Spanish sloop-of-war, an officer from which boarded the steamer, and after having examined her papers, permitted her to proceed upon her voyage.

The Star of the West left San Juan for New York on Saturday, with $300,000 in specie on freight.

OREGON.—From Oregon we learn that a conventional arrangement had been entered into for the extinguishment of the Indian titles in Williamett Valley.

Our correspondent at San Juan Nicaragua, writes that General Chamarra, chief of the revolutionary party, is dead, and that the revolution was considered at an end.

PHILADELPHIA, April 1. — The Sunday Liquor Law is strictly observed to-day, not a single drinking shop being open.

The new law regulating the Fire Department went into operation last night. Fifty-four Companies have accepted its provisions, while twenty-four have rejected them, and left the service. It was apprehended that a disturbance would occur, but the night passed off quietly.

MONTREAL, April 2.—It has been snowing hard here for many hours, with heavy drifts likely to impede the trains.

OGDENSBURG, April 2.—We had a severe snow storm with heavy N. E. wind this morning.

INDEPENDENCE, Mo., April 1.—KANZAS ELECTION.—We have returns from Kanzas showing the election of the pro-slavery tickets at Bull Creek, Lawrence, Douglas, Doniphan, Tecumseh, Shawnee Mission and Hookey Point, by majorities of from 200 to 800. The elections were conducted with tolerable quietude. The editor of the Kanzas Free State was ducked in Red River by a mob, on account of a speech delivered by him. Probably no anti slavery men are elected to the Legislature. A large procession paraded here to celebrate the victory.

PHILADELPHIA, April 2.—In the Supreme Court this morning, Chief Justice Lewis gave a decision granting a writ of error in the Beale case, on the ground that the jury that tried the case, instead of being sworn to render a verdict according to the *evidence*, were sworn to try the guilt and innocence of the defendant.

WASHINGTON, April 2.—Hobson & Son of Richmond, Va., have brought a suit against the Washington and New Orleans telegraph Company, to recover damages in the sum of $17,000 in consequence of an error in their despatch; they ordered 500 bales of cotton, and the operator at Montgomery made it 2500.

NEW YORK, April 2.—The receipts at our Custom House for the month of March show a decrease of $3,209,884, as compared with March, 1854.

The April term of our Criminal Courts commences to-day, and a very heavy calendar has to be acted upon, including no less than fourteen murder cases.

A strong westerly gale has prevailed since yesterday afternoon, and still continues. The weather is clear and cold.

SOUP HOUSES, BOSTON.—The last of the public and charitable soup houses was closed on Saturday. The whole number of gallons distributed was 17,447. The cost of the soup was a trifle short of 8 cents per gallon. Cost of furniture, &c., for each soup house, was $94.33; the furniture will be serviceable another season. These houses have relieved much suffering. It is worthy of remark, that about 80 per cent. of the soup has been applied for by foreigners.

DEATH OF MRS. CASS.—The Paris correspondent of the Commercial Advertiser states that Mrs. Cass, wife of Mr. Cass, United States Minister at Rome, died very suddenly in that city on the 3d of March, of congestion of the brain.

A letter from Meredith, N. H. says:—The snow is still very deep, and sleighing good.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y city: He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, of Boston, Massachusetts.
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. J. H. Anthony, formerly Governor of Rhode Island, now member of Congress.

History of a Zoological Temperance Convention

BY PRESIDENT EDWARD HITCHCOCK, D. D., LL. D.

CONTAINING THIRTY ILLUSTRATIONS.

Opinions of the Press.

A charming and instructive fable, and one that will implant good seed in many a youthful mind.—*Philadelphia paper.*

It is a good work, will make the boys laugh, teach them a good moral lesson, and many other things besides.—*Boston Weekly Telegraph.*

An amusing book, full of rich matter, worthy the particular attention of all persons interested in reforms.—*Boston Transcript.*

An extraordinary allegory, well illustrated.—The whole forms a peculiar, but forcible plea for sobriety.—*Watchman and Reflector.*

It is brimful of fun and temperance, with an occasional sly hit at some of the follies and evils besides those arising from the sale of alcoholic drinks.—*Congregationalist.*

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS,
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of twenty dozen will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND. May be had, Wholesale, at the Manufacturers' DEPOTS,

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; Fluor Albus, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL MENORRHAGIA OR FLOODING; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and I have induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, some of an serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered extremely, and at last was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than anything I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

THE ENGLISH MONSTER STEAM SHIP.—A recent number of the Edinburg Journal gives a detailed account of the immense iron steam ship now building upon the Clyde, the completion of which will signalize an era in naval architecture. There may well be some doubts of the success of such an experiment, but it is, notwithstanding, well worth trying, and may be successful. The hull of this ship will be finished early the coming summer, and her machinery is in process of rapid construction. She is 680 feet long, 85 feet wide at her greatest breadth of beam, and 60 feet depth in the hold, and she will measure from 22,000 to 25,000 tons. She will be furnished with both paddle wheels and screw propeller, the former of a nominal power of 1000 horses, the latter of 1600 horses. The four cylinders in which the pistons are to work, are the largest in the world; each of them weighs 28 tons. Lying on the ground, a man with his hat on may walk through without touching the upper side. The engines when erected and put together, will be upwards of 50 feet high, and the weight of the machinery is estimated at 3000 tons.

The structure of this vessel is novel, being cellular. Two tight iron partitions run the entire length, while there will be ten partitions entirely across her, and four decks; the hull will thus consist of 120 large rooms with water tight sides. Then three feet outside the hull, is an outer hull, extending above the water line. The strength of this form of structure is estimated at the same as if entirely solid iron. The most scientific engineers have expressed confidence in the plan.

The cost of this ship is set down as likely to exceed two millions of dollars. It is a magnificent experiment, and eclipses all previous dreams of ship building. If successful the argonauts of reality will be more wonderful than those of ancient fable.

She will carry several thousand tons of coal and merchandize, and will easily accommodate 1600 passengers. Notwithstanding all this, her draft of water will be small, not exceeding 20 feet when in ballast and 30 feet when fully loaded. She is to have five or six masts and five funnels, and her ordinary speed is expected to be 18 or 20 miles an hour. She is intended for the Australian trade, and her owners expect she will make the voyage from England to Australia in 30 days, and return by way of Cape Horn in 30 days more, thus making the circuit of the globe in two months. The machinery is all to be duplicated, so that in the event of an accident happening to any portion no delay need occur in its repair. There will be it is said 10,000 tons of iron used in the construction of the hull.

ENFORCEMENT OF PROHIBITION IN INDIANA.—Our Hoosier friends seem determined to enforce their liquor law. The Wabash Gazette says that Julia Walker recovered $475 damages against James Ditton "for causing the death of her husband by making him drunk, whereby he fell into the canal and was drowned."

The Wabash Courier gives the following account of another case:—

Mr. W. D. Johnson went into Smith's saloon and called for a small glass of brandy. Instead of taking the quantity customary for a drink, Mr. Johnson, while the bar tender's back was turned getting change, poured a tumbler full of brandy and drank it. He immediately started on a hunting expedition, and several hours after, when returning, dropped his gun into the canal. While searching for it in the water some calamity befel him, by which he became insensible, was carried home and died in a few hours. The jury returned a verdict of $500 for the plaintiff, the guardian of a minor child of the deceased.

The Noblesville Patriot gives an account of the destruction of five hundred dollars worth of liquors by the temperance people. Seventy barrels and kegs were consumed. The Dayton ale would not burn, of course, and

"The next morning droves of hogs licked the foam of beer, drank the half frozen spirits, and soon Mr. Porker began to hang his head and lop his ears, swinging his head towards tail and tail towards head, showing the whites of his eyes, and opening his mouth as if things didn't feel right in his internal arrangements. They soon took a line for the river, but occupying all sides of the street—in imitation of his more noble boon companion, the *biped*. Didn't catch them at it a second time. They were seen for days after standing sullenly and sagaciously beside a fence, looking as if the Maine law was in operation.

IRISH BEGGING AND SWINDLING.—A well known Irishman in Cambridgeport has been going about the place during the past season, begging from the good people. He has plead poverty, sickness, a large and "weakly" family, together with other pathetics, and so piteous and seemingly real have been his representations that he has been the recipient of much generosity; though how well bestowed, will appear. A few days since the Irishman applied to an Insurance office at the Port, for a policy of $1,900 on a house and lot which he had just purchased and *paid for*. The Secretary of the office recognized the Irishman as the person who had often begged money at his house, and in whose behalf his own daughter had interested herself to the extent of not a few dollars. On being informed of the facts of the case, her indignation and mortification could hardly be suppressed. In common with many others she had been the victim of this foreign swindler.

We venture to say that there are many poor American families in Cambridge who are really worthy of aid, but have not received it; while this foreign mountebank, by his falsehoods and pleadings has gathered in a short time the snug little sum of *nineteen hundred dollars*. It should teach our good neighbors to be discriminating as well as generous. *Boston Bee.*

Morning Chronicle.

THURSDAY, APRIL 5, 1855.

PORTLAND ELECTION.

This election came off on Tuesday. Hon. Neal Dow was elected Mayor, by a majority of 23. Dow, 1,904; McCobb, 1,830, rest scattering. He received the know nothing vote, which turned the scale. Four Dow Aldermen elected, and three opposition; ten Dow Councilmen; nine opposition. Two vacancies.

Great efforts were made to *defeat Dow*, in other words to prevent the execution of the new, *intensified* Maine Law.

The Argus, of Tuesday morning, after speaking against Dow as Mayor, says

Let us be understood., We do not object to the enforcement of the Maine Liquor Law; neither are we in the slang language of our opponents, "rummies." We desire to see the *sale of liquor* in this city as a *beverage cease*. We desire, too, that whoever may be Mayor of Portland shall faithfully enforce *all* the laws applicable to our municipal affairs. But we do protest against such a mode of executing the Maine law, or any other law, as shall infringe upon the private rights of citizens of this and other states, and compel the city to be heavily mulcted in damages.

* * * * Has he not rather added to the objections against him by diving into new depths of fanaticism, and by procuring the enactment of a real Neal Dow law, with which it will be in his power, if elected Mayor, not only to disturb, but actually to break up a large part of the business of Portland?

* * * * The candidates you have nominated are the men for the occasion, and you have but to rally to the polls to day in order to secure their triumphant election by a majority that shall be a death blow to Neal Dowism.

A correspondent of the Argus says,

I hope the people will let him know this time that they understand him and all his professions for temperance, which are but the cloak for his love for a muss and a row, and that he is at heart, whatever his pretensions, a real ROWDY DOW.

Onions are selling at 2 cents apiece in Philadelphia.—*Boston Post*

There will be a great demand for the article by our rowdy dow friends this evening, we predict. Pity the Philadelphians didn't know it earlier. "Ye who have tears, prepare to shed them" about sundown.—*Eastern Argus*

FREE AT LAST.—A despatch of the 3d, from Cincinnati, says that Commissioner Pendeny has decided Rosetta free, and she was immediately delivered to her guardians. The commissioner decided that, having been brought there by her owner, she came under the operation of the laws of Ohio, and was *not therefore a fugitive* from slavery.

The Commissioner decided this point correctly, and almost in the same words which we used several days ago. The Reverend claimant, therefore, has lost his claim.

There is one point, however, in the case, which ought to stir the public mind more deeply than it does, against the *unconstitutional* fugitive act. Commissioner Pendeny issued a second warrant to arrest the girl as a slave, after Judge Parker, of the Ohio State Court, had declared her free. In so doing, the Commissioner did not go beyond the *letter of the act!* nor would a Commissioner in New Hampshire go beyond it, should he cause the arrest of any man or woman, black or white, in our streets, on the bare oath of the veriest miscreant from abroad, that ever claimed a slave. And yet there are men, and some who call themselves lawyers, who deem this contemptible edict constitutional, and feel bound by it as a law of the land. Such a case as this, ought to awaken such dreamers out of their sleep.

MR. GUTHRIE'S CIRCULAR.—We hear from the East that the circular issued by the Secretary of the Treasury gi ing instructions respecting the Reciprocity Treaty, is differently construed in the collecting districts in New England. The Treaty admits as free, '*timber and lumber of all kinds, round, hewed, and sawed, unmanufactured, in whole or in part.*" The recent Canadian tariff admits "timber and lumber of all kinds," the produce of the United States, free of duty. Mr. Guthrie's circular limits the free list to such descriptions of lumber as require further manufacture before being put into use. This circular has excited much attention in all our seaport towns, as it decides that 'Lumber' is not 'Lumber.' Such hair splitting distinctions, if carried out, will certainly disappoint the just expectations of the friends of the measure.—If boards, planks, laths, posts, rails, shingles, &c., are not Lumber, what, in the name of all the dictionaries, are they?—*Boston Trans.*

A communication in the Portland Advertiser, denounces the Circular, as it contradicts and contravenes the Treaty.

The Circular, as we read it, seemed to be contradictory in some parts, to the Treaty,—and very obscure and foggy throughout.

THE MONTHLY JUBILEE is the title of a Magazine of thirty-six pages, "published by an Association of the Sons and Daughters of Toil," in Philadelphia, at 51 per year in advance. It earnestly advocates the rights of labor and the laborer, and in fact *all* rights, and deems that that will be a day of "Jubilee" which sees the accomplishment of all its ends.

KANSAS VS. NEW ENGLAND.—The editor of the Gloucester Telegraph, has a leader in his last issue, in praise of Kansas—which is perhaps all right; but in condemnation of New England, which we think is not quite correct. He says:—

The exhausted soil of New England, originally less fertile than that of the western territories, affords little hope to the agriculturist. It is now covered by a large population, who are chiefly dependent upon commerce, upon trade, manufactures and fisheries for their subsistence. Its growth in the future must be small, the opportunities for acquiring independence or even a comfortable livelihood, are, to the mass of its inhabitants, becoming fewer and fewer, larger amounts of capital are required for commercial enterprises, and the concentration of wealth in the hands of a few, notwithstanding the alleged diffusive tendency of republican institutions, is every day more evident.

The pleasure of even a tolerable climate is unknown to the untravelled New Englander. He struggles for half the year with cold and dampness; the chilling winds of his so called spring, are more unendurable than the winter of more favored localities, and the most he can hope is to escape actual suffering from the violence of the elements. The ice and frosts of the northwest chill his early summer, whose meridian heats are not less debilitating than that of regions near the tropics. He lives beneath a constantly changing sky, and amid the influence of an ever variable atmosphere

What then can be more desirable than to exchange such an inheritance for one whose natural advantages are so superior and "go to Kansas?"

Now it may be all well enough to go to Kansas—but we don't believe that many who make the same efforts to "get a living" at home, will starve or freeze here. Not all of the Puritans' descendants, we take it, are aware of the horrors described by the Telegraph.

RELIGIOUS TOLERATION.—It is certainly one of the christian graces, and not the least, to be tolerant of differences in belief or opinion. Rev. Mr. Hatch, at Gloucester, Mass., a young and active Orthodox minister, has recently preached on the subject of Amusements; and by the liberality of his sentiments, offended some of the more rigid members of his society. Quite a long, earnest, and somewhat personal controversy has grown out of this, in the Gloucester Telegraph; and this, like every thing else, displeases those readers of the paper who have no especial interest in the matter. The editor says he should be happy to comply with a suggestion to furnish every theological institution in the country with his paper, on receiving the cash in advance; and further:

"Such is our liberality, that we can accommodate private individuals, without reference to religious sentiments, upon the same terms While we regret the division of the christian world into multitudinous sects, we are glad to know that each is certain of salvation for itself, and earnestly hope that none will be disappointed. We are willing to bow to a Baptist, shake hands with a Methodist, dine with a Universalist, drink tea with a Unitarian, (if opportunity should be afforded) each with all, and all with each. Campbellites and Covenanters, Evangelicals and Second Adventists, New Lights, Albrights and Winnebrenarians, Episcopalians, Quakers, Swedenborgians and Tunkers, Pedobaptists, Anabaptists, Latitudinarians and Seceders, are invited to meet on the broad platform of our subscription list, and be served with equal respect and consideration. If liberality can go farther we shall be glad to know it.

SAD AND FATAL ACCIDENT.—A sad and fatal accident occurred at Dover, Mass., last evening, at about 8 o'clock. After the firing to celebrate the passage of the Charles River Railroad bill was over, Mr. George Bliss, a cigar maker, undertook to fire the cannon upon his own hook, and loaded it with two cartridges, weighing, six pounds, a double charge. The instant he touched off the piece it exploded, and one piece struck the unfortunate man upon the breast, severing the head and one arm from the body, and carrying them a distance of 20 rods. Deceased was 28 years of age and leaves a wife and two children. The passengers in the Needham train this morning raised $75 for the relief of his family. *Boston Traveller, of Saturday.*

An immense iron planing machine of the weight of eight tons, has been procured for the U. S Armory in Springfield, Mass. It was made at Nashua, N. H., and is a massive but highly finished piece of machinery. It is procured for the purpose of making machines for the manufacture of rifle barrels at the Armory.

There is very little animation in building in New York this Spring. City architecture is decidedly at a stand still. With the exception of one or two small buildings, Broadway has none of that activity which made it almost impassible a year ago.

BOWDOIN.—We have received from our friend Edward A. Rand, a handsome Catalogue of Bowdoin College. Number of students 245, of whom 46 are freshmen.

All the girls recently arrested and sent to prison in New York for walking the streets at night have been discharged upon a writ of habeas corpus, on the grounds taken by Judge Morris the other day. If they persist in walking the streets at night, they will be re-arrested and imprisoned under due form of law.

NAVAL.—The report that orders have been received at the Brooklyn Navy Yard enjoining extraordinary activity in fitting vessels for sea, is groundless. The frigate Congress has been ready for sea for weeks, but is detained for want of men.

LOCAL.

FAST DAY.—To-day being Fast Day in this State, no paper will be issued from this office on Friday morning.

NUISANCES.—There used to be a great deal of useless, offensive and indecent writing on fences and buildings, in the *town* of Portsmouth. There is not so much of it in the *city*, but there is a little; and any at all is too much. It is a nuisance, and the Police will abate it,—when they catch the offenders.

One other nuisance calls for notice at this particular time, viz. Coal Ashes in the streets, in heaps almost every where, in some cases on the sidewalks. There is an Ordinance against this practice; but it is extremely defective. It tells the people what they shall *not* do with them, viz. not put them in the streets. But it does not tell what *shall* be done with them; and in our very foolishly compact way of building and living, many shop keepers and house keepers have really no proper place where they can be deposited.

The remedy for the whole evil is easy and cheap. No substance is better to fill up a slough, or make the bed of a sunken street or a low sidewalk, than coal ashes. A cart, or carts sent by the city, once a week, would remove the nuisance, and convert it into a benefit. It would cost no more to cart this dirt than any other. In this way, when every house and shop has its dust barrel, emptied once a week, we may keep the streets clean of such rubbish; and probably it cannot be done thoroughly, in any other way.

"OLD FOLKS" CHOIR.—The Committee of Arrangements for the third Concert, given on the 28th ult., made report on Monday evening last. The receipts were $67, the expenses only $23—netting $44 for the Howard Benevolent Society, which the chairman of the committee, Mr. N. T. Moulton, was directed to deliver to the Treasurer of that Society.—To that committee, and particularly the chairman, are the poor indebted for this aid, and the public for this last concert. In their charitable efforts they were aided by the printers, the proprietors of the Temple and Exchange Hall, and others, so that the outlay was kept at the above low figure.

The Choir have enjoyed about forty "sings" since first coming together on the 25th of November, including the three Concerts—at which the united receipts were about $325. They have nearly a hundred music books, and spirit enough left for more concerts. They adjourned on Monday evening, subject to the call of the committee of arrangements. We think they will be heard from again. At any rate, they have pleased themselves and others, and fully met the wishes of the friend who first invited them together. Who shall say they have done no other good?

GRAND CONCERT.—Mrs. Emma A. Wentworth, with Mr. Arthurson the celebrated tenore, and the Mendelssohn Quintette Club, (instrumental,) are to give one of their splendid musical entertainments at the Temple in this city, on Wednesday evening the 11th inst. As the tickets are to be but 25 cents, of course the audience will be limited only by the size of the house.

For the Chronicle.

Messrs. Editors:—In the last Ballot, an article headed 'Correction,' states that a Roman Catholic, whose name is given, assures the editor of that paper that he believes any man a fool who says the *Catholic* religion is better than the Protestant.

Now one of the grand dogmas of the Latin Church, is, that there is salvation by or through no other church than the Roman Catholic Church, and all worshipers in that church are enjoined to believe in said dogma. This article of faith causes me, and I hope the majority of this reading community, not to be so credulous as to believe that the man was sincere in uttering the above statement; he being an active and I am afraid a life member of the *Roman* Catholic Church, perhaps he used evasion by styling it the Catholic only, and not the Roman Catholic religion.

DEATHS IN MARCH.—Whole number of deaths in this city in the month of March was 8—6 males, 2 females; as follows:

Males—aged 86, 54, 41, 19, 40, 1.

Females—aged 2 m., 9 m.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

LATER FROM CALIFORNIA.

NEW YORK, April 3.—The steam-ship Star of the West arrived this evening, with about 200 passengers and $239,000 in treasure.

Business was exceedingly depressed, and monetary affairs very stringent.

The rains continued, and the miners were actively engaged, but, owing to the scarcity of coin, but little dust had been bought.

The Kern River diggings were attracting thousands, being represented as the richest yet discovered.

Messrs. Well, Fargo & Co. were going ahead as formerly. It was doubtful when Messrs. Page, Bacon & Co. would resume payment, while all the other bank failures were bad ones. At Sonora, the depositors broke open the vaults of Messrs. Adams & Co., and, through a committee, paid themselves, leaving a balance of $8000.

Blake, who shot Mowry, a contractor at San Francisco, who swindled him out of $13,000, had been found guilty of murder, but recommended to mercy.

John Tabor, who shot and killed Mansfield, of the San Joaquin Republican, had been pardoned.

A writer in one of the San Francisco papers asserts with much confidence, that, owing to the non-compliance of Messrs. Adams & Co., with the laws of the State relative to partnerships, Mr. Alvin Adams can and will be held a general partner in the suspended house, and of course liable for the debts of the firm.

The Pacific Express Company, so called, has taken the place of Adams & Co. in California.

The publishers of the Alta California have prosecuted Senator Gwinn for breach of contract, laying their damages at $20,000. The Statesman was Gwinn's Sacramento organ, and the publishers allege that he contracted to procure for the paper certain government patronage, and otherwise contribute to its support, in consideration of its advocacy of his election to the U. S. Senate.

CINCINNATI, April 3d. — Our Municipal election is still undecided, frauds having been discovered in the 12th ward, where it is proposed to throw out the entire vote, which will give Taylor, the American candidate, about 100 majority. Had the entire vote of the city been counted, the whole democratic ticket would have been elected by 200 to 1000 majority. There was no more rioting after our despatch last night. It is supposed that ten or twelve persons were either killed or mortally wounded, and the only wonder is that the loss of life was not greater, as the cannon was discharged indiscriminately. It was altogether the most disgraceful election day ever experienced in this city.

Our community continue intensely excited. The cannon taken from the Germans yesterday by the Americans, was quietly conveyed from the public landing this afternoon, by the former. An immense number of people have assembled in Fifth street Market Place. They sent a committee for the cannon, which had been taken to Freeman's Hall, and passed resolutions that if it is not delivered forthwith, they will go and take it. This they appear determined to do, and a serious riot tonight seems unavoidable.

The following is the sequel to the election disturbances: It was found that the ballot box in the 12th ward contained 55 more ballots than there were names on the poll lists. On of the judges insisted upon throwing out the vote of the ward, but the others would not agree. While the judges were counting the votes, a body of men entered the room, and taking the boxes from them burnt the ballots and the tally lists in the open streets. The votes of the eleventh and twelfth wards were thus disposed of. The remaining wards give Taylor 477 majority.—The American party contend that a large amount of illegal voting was done. It is reported that Mr. Taylor will not accept the office under the circumstances.

Tuesday Evening.—The excitement in this city is on the increase. The Germans refused to give up the cannon. Fighting has consequently commenced, over the canal, and it is reported that several persons have been killed. The Germans are mostly armed, and fortified within houses, while the American party are also well prepared.

April 4th.—This morning a large crowd assembled in Fifth street, and the greatest excitement was manifested. The military are under arms, awaiting orders. The Germans have agreed to deliver up the cannon at 10 o'clock this morning, and if they do so, it may prevent a collision.

WASHINGTON, April 3.—It is reported that Col. Lewis D. Taylor, clerk in the first Auditor's office, has forged the name of Jefferson Davis to notes to the amount of some twenty thousand dollars.—The notes are in the hands of money lenders, and personal friends of Mr. T. Taylor left the city on Sunday night.

The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

A CONTRAST.—Last week a worthy and respected citizen, named Robert Hermit, died here, and was followed to the grave by a small number of quiet friends. A few days before, a prize fighter who had been killed in a drunken brawl, and whose name had constantly been coupled with tales of violence, bloodshed and brutality, was buried with pomp, eclat, and noise, five thousand person following him to his resting place. Such is public opinion. Better to be a bully and prize fighter, than an honest man and worthy citizen.

So says the New York Herald. The bodies of both of those mentioned by the Herald now rest in Greenwood Cemetery. The grave of the one will be watered by the tears of affection, and will call to the remembrance of those who may pass it the virtues of the deceased. "The memory of the just is blessed." The grave of the other will be pointed out as an object of curiosity, and will be looked upon by the good and virtuous with feelings akin to those with which they would view some monstrosity of the human race—with curiosity, but mingled with disgust. "And the name of the wicked shall rot." Truly, it is not "better to be a bull and a prize fighter, than an honest man and worthy citizen."—*Boston Journal.*

United States Bounty Land Agency.

Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will negotiate Land Warrants, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with the times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping. And to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly expe rienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended. In different forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 28 South street, Boston.

I feel it my duty to make known to the public the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *severely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

AGENCY SALES.

The large quantities of fermented and distilled liquors sold in towns and cities where the Maine Law is in operation, by the regularly appointed agencies, have become stand ing jokes in the newspapers, the sales of liquors in those places being so grossly and laughably in excess of the requirements of the physician, the manufacturer and the communion service. Scarcely a day passes but that we see in the journals a statistical paragraph about the enormous quantity, in pipes, hogsheads, barrels, casks, gallons and quarts, of liquors, which has been sold within an exceedingly brief period by the city agent of Hartford, for instance, or New Bedford. The paragraph generally winds up with the significant remark that there must be a good deal of sickness in the place spoken of, whatever its name may chance to be. We have instanced Hartford and New Bedford because we can put our fingers upon paragraphs referring to those places and of the nature in question, which are still current and going the rounds of the papers, as the phrase is.—*Boston Chronicle.*

We have published and analyzed every one of these statements, which have applied to any town of note. And if any candid man will take his slate and pencil, place the asserted Agency Sales by the side of the population, and divide one by the other, he will see that the proportion is not at all *surprising*, though 9-10ths of the Medical use of intoxicating drinks may be worse than useless.

The *whole* of the Agency sales yet reported, put together, shrink into insignificance, by the side of some individual dealers in Boston.

LIFE INSURANCE.—No man is too poor to insure his life. Persons of the most limited means can surely lay by the small sum of $10 a year, or about a shilling a week, which, commenced at the age of twenty-five, would secure $500 at death; or even $5 a year to secure $250. Trifling as this sum is, how many thousands of persons neglect to insure their lives, to whose families the sum of $500, or even $250, would be a blessing indeed, when suddenly deprived of the only means to which they have been accustomed to look for their daily bread.

The sum of $500 obtained at so trifling a sacrifice, would assist a widow to support herself and family, who would otherwise be plunged into the greatest misery and want; and when we reflect that want is too frequently the forerunner of crime, how much it behooves every parent to lay by something, though small, to provide against such a calamity.

The period of health, it must be recollected, is the only time when life can be insured at a moderate rate, as the tables are calculated for unexceptionable lives; for should disease make its appearance, an additional premium is always charged, and the life may probably be rendered altogether uninsurable. Let it not be thought that even one day's delay is justifiable. Postponement can effect nothing to counterbalance the risk of disease and death. As no one has any assurance that his existence will continue another day, procrastination is as inexcusable as it is unwise. A life insurance once commenced, is an earnest of fortune; and should future prosperity or other reasons render it no longer necessary, the insured has wisely secured himself against the mischances of life. The Policy is still of value, and the money which has been paid in premiums would most likely have been expended in some other way, leaving no beneficial result behind.

SATURDAY, APRIL 7, 1855.

RIGHTEOUSNESS EXALTING.

On Fast Day, at the Middle Street Church, in this city, Rev. Mr. Lamson, the pastor, preached from Prov. 14: 34. Righteousness exalteth a Nation.

Being present and hearing the Sermon, which seemed to us and others present worthy of reading as well as hearing, we sought and obtained leave to publish such a portion of it as we can accommodate in our columns.

We give merely the Heads of the Discourse, with extracts from the Application.

The preacher endeavors to show, that Righteousness is the most important Element of National Prosperity, inferring that it is so: From the Character of God, as the Governor of the Universe:

From the analogy between a nation and smaller communities:

From a survey of the actual Condition of Nations, showing that the importance of morals is paramount to that of politics:

And from the History of the Nations, which is fraught with the same lesson.

But I leave the discussion of the topic proposed. Taking it as admitted that righteousness is the most important element in the permanence and prosperity of a nation—what are some of the practical lessons to be inferred?

The first inference I would draw is this.—An immoral man is a practical enemy to his country. As far as his influence extends he is operating to effect his country's ruin. It is only necessary that we should become as a nation like him, and our ruin is certain. It is a thought worth being reflected upon by the man who is living in the indulgence of any immoral habit, that a nation of just such men as he is would be doomed as certain as there is a righteous God in heaven. Take the Sabbath breaker. Only let his example be followed until every man in the land and every woman and child had become a Sabbath breaker, and the Sabbath was blotted out of the observances of the nation, and our religious temples were closed, how long should we have a place among the nations of the earth? If this result do not follow, it is not because he has not directly contributed to it all the influence he had, but because that influence has been overborne by a better and mightier one. Our free institutions could not save us, nor our wise laws, nor our learned and eloquent men—if the Sabbath were gone. When that day ceases to be regarded by us as a nation, our days will be numbered, and the day of our destruction will draw nigh. Is it wrong then to affirm that the Sabbath breaker is an enemy to his country? It is only necessary to fill the land with such men to sweep away every pillar of our national perpetuity and prosperity, and make our ruin sure.

Or take the fraudulent man. I say he is a practical enemy of his country, whatever may be his political views or acts. If his example could so propagate itself, as to make the nation like him, if we were a nation of cheats, we could not exist. * *

2. We may see in the light of this subject the danger from unrighteous legislation. Unjust and oppressive laws may be enacted, and by mere force they may be executed. The righteous sentiment of a people may be awed into silence and their just indignation smothered, in the presence of an armed military force. The framers of the law and those who put it into execution may feel themselves strong, and exult as over a splendid victory, at every instance of the execution of the law. But they are just weakening one of the pillars of our national security—picking away one of the massive stones of our national foundation. There is a degree of unrighteous legislation which the nation could no more survive, than human life could survive a fatal potion of poison. Mingling with the element of justice, there may be just enough of injustice in our laws not to destroy but to weaken our whole government.

The fugitive slave law, while it continues, will thus be a weakening element in our government. It may be executed—because the military power and the treasury are at the command of those who would execute it.—But every instance of its execution—every dragging back of a fugitive to his bondage—is a blow beneath which the whole fabric of our national institution trembles. Law, unrighteous law triumphed, when the Court House of Boston, during the last summer, was filled and surrounded by our armed soldiery, and when Anthony Burns was taken away by force from the freedom to which he had fled. Law triumphed, but in the victory received a wound from which it still bleeds. A few such triumphs would be its ruin. The hopeful sign is that there was a moral sentiment in the people which felt itself outraged by that act, and which has since utered itself in words and deeds. * *

There is a fearful retribution awaits the nation whose laws are unjust, oppressive and cruel, to any portion of its subjects. There is a throne above us established upon justice and judgment; scouted and ridiculed though it be, there is a higher law—and an almighty arm to enforce its obedience or to inflict its penalty. O who does not shudder at, while he pities the presumption of men who, because they have the power, and because there is no human tribunal before which they can be arraigned, dare to trample under their feet the laws of the Infinite Lawgiver—the being who needs but turn his hand to sweep them from the earth!

3. We may see what is the first and the most essential qualification in a ruler. I say the *most* essential qualification. It is not to be denied that other qualities are essential—but it cannot, I think, be questioned that that which towers in importance above all others, is a pure life and correct moral principle. * *

When we look at the fountain whence our laws flow out, the wonder is not that now and then one of flagrant injustice is enacted, but that a far greater number of this character are not enacted. * *

4. We may see in the light of this subject, the true relation of the minister of the gospel to politics. There are, as on other subjects, two extremes in the views which are held in regard to this. The one is that we have no concern, and bear no part in the political affairs of the country. Confining himself exclusively to the duties of his sacred office—a member of a kigdom which is not of this world—he should stand wholly aloof from the strifes of political contests, and let the men of the world govern the world. Some even doubt if he should visit the polls. This is one extreme.

The other is, that he should be most active, and enter the arena fully equipped to take a full part in the struggle—that his voice may properly be heard in the caucus, and that he may, as any other man, enter the lists in the race for office. Now it seems to me, both these views are wrong, and both equally distant from the right view. I do not believe he is to stand aloof from the political movements of his day, or be merely an inactive, though interested spectator, of what others are doing. He is a citizen. He has, as such, the privilege, the talent of a voter, and is bound not merely not to misuse it, but to use it. He has no more right to bury this talent in a napkin and hide it in the earth, than he has to bury any other talent. It is to be regarded, therefore, not merely as a privilege which he is at liberty to use or neglect—this political action—but a duty which he is bound to discharge. But on the other hand I can never believe it is consistent with the calling or the proper influence of a Christian minister for him to enter as a combatant in the political arena—for his voice to be heard amid the wild tumult of a caucus—or for him to be seeking or accepting political offices.

It is to be regretted, I think, that so many of our clergymen have of late been chosen to office—and still more to be regretted that so many clergymen have been found willing to be chosen. In visiting the capital of a neighboring State, and meeting several of my brethren who are spending the winter in its legislature, I could not fail to regard them with sadness. I looked upon them very differently from what I had been accustomed to, when in other days I had met them fresh from their fields of toil—it was with a kind of revulsion that I was compelled to ask of them the doings of the House of Representatives, rather than of the spiritual interest of their flock.—They seemed to me to be out of their place—to have stepped down by an immense stride—when they consented to enter upon the work of legislators.

But while I view both these extremes as wrong, I seem to myself to see a medium ground on which the minister of Christ may plant himself and make his influence felt, and felt for good, in all the legislation of the country—and felt all the more strongly, from the fact that he is not wet with the perspiration and covered with the dust of the battle-field. When some great wrong is threatened by our national or state government—when the laws of God and the rights of humanity are about to be invaded by our rulers—when the heat of passion and selfish aims are leading men to lose sight the element of righteousness—then unquestionably it is both the privilege and the duty of the ministers of Christ, to let their voice be heard and their influence felt. They, if what they profess to be, will be quicker than other men to discern the moral bearings of a question; and better able, from their habitual studies, to unfold and trace out their bearings to the minds of others. It does not, therefore, seem to me that they are stepping aside from their appropriate duties, or doing anything inconsistent with the sacredness of their office, when they attempt to expose from the pulpit, the iniquity of unjust laws, or respectfully remonstrate against their enactment. It is a part of legislation which comes most directly within their sphere to examine. And however much may be said of their ignorance of political things, and their unfitness to judge of the statesman's duties, I do not believe they are, to say the least, inferior in moral discernment to those who reproach them. They believe that righteousness is the salvation of a nation, as it is of an individual; and as they would preach righteousness to the individual, so would they on fit occasions preach righteousness to the nation. * * *

If in the minds inat I now address, I have contributed at all to deepen a conviction of the importance of national righteousness to national prosperity, I have not spoken in vain. Upon the spread and deepening of this conviction, and upon its practical application to our political action, I verily believe our national security depends. * * *

THE MIRROR OF THE PHILOMATHEAN SOCIETY, is the title of a handsome pamphlet issued by the literary society of that name, connected with Phillips Andover Academy, Mass. It is published at the close of each term, and consists of prose and poetical articles, written by the members. This is an excellent plan—and considerable ability is displayed in the number for the term just closed. We are indebted for a copy, to Mr. Wm. W. Dow of this city, who is a member of the Society.

☞ Frank Leslie's Ladies' Gazette of Fashions, for April, comes to us loaded down with pictures and patterns of beautiful dresses, cloaks, bonnets, and gewgaws, to us unimaginable and undesirable. The general aspect of the whole, is holiday trapping, or adornment of those who live to dress. We don't see one plain, comfortable looking garment among the whole. It is all finery.

Frank Leslie, publisher, New York.

RHODE ISLAND.—The election of Governor, Members of Congress, &c. has gone for the K. Ns. by a large majority.

☞ A man named Bowers, was killed in Manchester, N. H., on Tuesday, April 3, while blasting a rock.

STILL VIGOROUS. The Bee says the Rev. John Pierpont is 70 years of age on Friday April 7. He has just returned from an extensive tour through the West.

LOCAL.

SIGNIFICANT.—Five barrels of liquor were sent by railroad from this city to Epping, a few days since. They were directed to "Gov. Dorr, Epping, N. H."

Were the Maine Law in operation, the liquor which is now transported to bogus Governors and Generals would be seized and destroyed, but our present liquor law only concerns the *seller*, who it is difficult to detect. *

INSTALLATION.—The Rev. Burroughs S. Fanton will be installed as Pastor of the Pleasant Street Church and Society, at their meeting-house, to-morrow (Sunday) evening.—The services will commence at 7 o'clock, and be performed by several of our city clergymen, assisted by the late pastor, Rev. Thos. Holmes, who is to preach at said house tomorrow.

☞ Elder F. H. Berrick will preach at the Advent Chapel to-morrow.

THE CITY BOOK, just published, contains much information respecting our city, which every inhabitant would do well to peruse.—According to a vote of the City Council, the Mayor's Address is appended, for the first time. Alderman Rundlett, who is the only one of last year's nullifiers returned to the new Council, protested against the publication of the paragraph reflecting on the course of the four Aldermen of the late Board—as unprecedented, uncourteous, and not having due regard to the free action of the Council.

BOYS, SAVE YOUR MONEY.—A friend requests us to publish the following, as an example for youth. An old man in Hampton Falls, on whom the snows of nearly ninety winters have lightly fallen, relates the history of his first hundred dollars, of what is now a very large property, in the possession of three generations of his children. When sixteen years old, he had earned a yoke of steers from his father—for which he realized $100. This he has ever since kept separate from his other property; and a dozen years ago it had amounted to more than three thousand dollars, by letting in various ways.

TEMPERANCE SUPPER.—The Ballot contains accounts of two social Political Suppers—one at the Franklin House in this city, and the other at the Union House in Rye—in both cases without intoxicating drinks. This is as it should be.

CIRCUIT JUSTICES.—Edmund L. Cushing Esq., of Charlestown, and Hon. Jonathan E. Sargent of Wentworth have been appointed Circuit Justices to supply the vacancies caused by the resignation of Judges Gilchrist and Minot.

☞ At Cincinnati, on the 4th inst., Judge McLean discharged the U. S. Marshal from custody, and remarked that the order by Judge Parker, by which he was committed to jail, was illegal.

The Germans gave up the cannon to the Sheriff and military, and the excitement was subsiding.

☞ The trials of Martin Stowell and others, concerned in the attack on Boston Court House, to rescue Burns from slavery there, commenced in the U. S. Curcuit Court in Boston, on Friday, March 3. These trials will last some time, cost much money, be a good bone for the lawyers,—and make the free people of New England hate slavery, and despire its abettors more heartily than ever.

THE RECIPROCITY TREATY.—A despatch has been received stating that another treasury circular is to be issued, explaining the Secretary's instructions in relation to the admission of lumber under the reciprocity treaty.—Boards, beams, planks, laths, and the other enumerated articles, will, if imported in their rough, hewn or sawed state, be entitled to free entry, as comprehended in the timber or lumber referred to in the treaty.

A PATRIOT AFTER HIS BOUNTY LAND.—The following is a copy of one of the two thousand letters applying for bounty lands under the last session of Congress, which were received at the Pension Bureau. The "frog sticker" referred to, which was sent along, carefully done up by way of circumstantial proof of the applicant's service as claimed, is an old fashioned half butcher's knife and half cut and thrust sabre, and looks as though it may have gone through all the wars of our country, from the old French war to the very last encounter with the Sioux on the great overland route to Oregon.—*Washington Star.*

WASHINGTON, March 27.

Mr. Commissioner of pentions:—I send you my frog sticker. I was in the war at bladensburg, and used this saber like a true solger. I want you to give me land, as they say you am the man for that bisness, and I want you to send my land to me by the rale rode, so that I can get it, and I want you to give the frog sticker to the Congress of America, for I see that old president jack-on had his sord give to that benevolent asilum, or you may give it to the Washington monument.

Your friend, ELTON BRENT.

All the old fellows who remember the Battle of Bladensburg (near Washington City) will recollect it was not much of a fight, but that the Militia fled like a flock of frightened sheep, leaving the Capital a defenceless prey to the British army, who acted there the part of incendiaries.

A BENEFICENT LEGACY.—We understand that the Rev. C. L. Brace, agent of the Children's Aid Society, has received from a former pupil of his, lately deceased at New Haven, a legacy of $15 000, in trust for that society.—*N. Y. Evening Post.*

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m a2 d&w

The reputation enjoyed by the VEGETABLE PULMONARY BALSAM, for *Coughs, Colds and Consumption*, has been acquired through long years of success, and those troubled with pulmonary Complaints should by all means try it.—*Dover Gazette, N. H.* [See advertisement in another column.] 2w m22

SEVEN DAYS LATER FROM EUROPE
ARRIVAL OF THE BALTIC.

SANDY HOOK, April 6th.—The steamship Baltic from Liverpool, 24th ult. has arrived off this point.

The Liverpool Cotton Market has advanced 1-16 a 1-8 d. Breadstuffs, &c. unchanged.—Money market easier.

Vienna Conference.—The first of the four points of guarantee, namely, that the Danubian Principalities be placed under the protectorate of the five powers, has been unanimously agreed to.

Alexander has made a speech to the army, but, on the whole, his language is interpreted pacifically.

The siege of Sebastopol is unchabged.—Lord Raglan officially admits that the Russians are making the place stronger.

The latest despatch from Vienna, dated Friday evening, says the Conferences are progressing favorably. The second point was either settled to-day or will be to-morrow. It must be repeated that the question of peace or war is not decided until the third point is settled.

The new Czar gives strong evidence of abiding by the plans traced out by his father, and that he will make no concessions.

CINCINNATI, April 5.—It is reported this evening that the judges of the 12th Ward polls, had the ballots so nearly counted when the boxes were destroyed, and having a memorandum of the notes, they are prepared to render a sworn statement of the vote cast, which will be received as returns from that ward. This will give nearly all the Democratic candidates a majority, and they will be sworn in next Monday.

DETROIT, April 5.—The Democrats have carried a great majority of the town elections in this State.

NEW YORK, April 3.—The drafts of both Messrs. Page & Bacon of St. Louis, and Page, Bacon & Co., of San Francisco, were allowed to go to protest in this city to-day.

The shipment of gold by the steamship Atlantic, for Liverpool to-morrow, it is said, will probably be $1,500,000.

Senor Arrangoiz, ex-Consul for Mexico, moved in the Superior Court this morning, that the parties prosecuting the suit against him to recover the discount he deducted from his collections from this government, be required to file their authority, as he believed no such authority existed. Judge Bosworth denied the motion.

PORTLAND, April 4.—The engine of a freight train, on the Androscoggin and Kennebec Railroad, ran off the track this afternoon, at Danville Junction, killing engineer Hussy, of this city, who jumped, fell under the train, and was horribly mangled. He leaves a wife and children. Several of the cars were thrown off the track, but no one else was injured.

NEW YORK LEGISLATURE.—The Temperance bill has finally passed the Senate by a vote of 21 to 11. It has now to go back to the Assembly for concurrence in the various amendments made by the Senate.

THE PRICE OF COAL.—The Philadelphia Ledger says the coal business this spring opens with fine promiso. Large sales have been made to the retail dealers in that city, and on terms that we are sure warrant a material reduction in prices.

SAFETY OF PASSENGERS AT SEA.—The grand jury of the U. S. District Court, at New York, having under consideration the safety of passengers at sea, made their report on the 2d inst., suggesting several projects for a law upon the subject, the most prominent being the construction of bulkheads in steamers, the advantage of which was so clearly demonstrated in the collision between the Vesta and Arctic, the former vessel being saved by means of her bulkheads.

A violent gale prevailed in Easton, Pa., on the 1st and 2d inst., doing considerable damage. The rails on the Central Railroad were blown from the top of a high stone bridge at Clinton, preventing the passage of the trains.

The Board of Councilmen in New York city have adopted resolutions adverse to the proposition now before the Legislature for converting the Crystal Palace into a market place.

HORRIBLE.—In Providence, R. I. April 4, a house occupied by two elderly ladies, Mrs. Baker and Miss Hamlin, was burned in the afternoon, and both the inmates were found dead. It is suspected that there was foul play.

BUFFALO, April 3.—A few scattering returns from the elections in Iowa, indicate the success of the prohibitory liquor law.

Per Ship Oriental.

The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,

AS well as Liver Disease, Fever and Ague, Bilious Complaint, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. City. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

AMERICAN AND FOREIGN OFFICE.

Agency for business with the Patent Office, Washington,

75 State st., opp. Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1836) determined to present advantages in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of any fault in obtaining a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of a 20 years' practice, the extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elastic and pleasant of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also in Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its efficacy in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or WHITES; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAL MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in the worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 33 South street, Boston.

I feel it my duty to make known the wonderful virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered excessively, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

THE LIQUOR LAW.—This new, or *intensified* liquor law, does not allow liquor to be stored in this State beyond the period of twenty four hours, except in case of inevitable accident, on penalty of seizure and confiscation.

If a cargo of Malaga fruit should be brought to Portland, and with it a quantity of wine, designed for sale in this market, the wine could not be landed and stored here beyond the twenty four hours, on pain of seizure and destruction.

If a vessel, having a cargo of grapes and wine from Madeira, should desire to try this market, and the owner should wish to store it till he could make sale of it in Canada, Boston, or elsewhere, his wine would be subject to seizure and confiscation if stored here, or allowed to remain more than 24 hours in this State.—*Portland State of Maine.*

Isn't it shocking to think of?

One of the papers remarking upon the late election riot in Cincinnati, where Americans took from Irish and Germans, a cannon which they brought with them to the polls, says it is a disgrace to the country. They don't tell us which part of the transaction is disgraceful—that the Irish and Dutch should take possession of the ballot box and keep Americans from voting, with a loaded cannon; or that the Americans should seize the gun, and fire upon the foreigners. It would appear quite enough that we should suffer the "foreign extraction" without the saltpetre. When the Dutch are not content with voting, but must assault and beat Americans from the polls, and bring out the guns to shoot them, they ought not to complain if the powder flashes in their own eyes. There is not a town between here and Cincinnati, where under similar circumstances, the streets would not be cleared of them at the shortest notice.—*Newburyport Herald.*

THE RECIPROCITY TREATY.— We learn by private telegraphic despatches received in this city from Washington, that a new circular will be immediately issued from the Treasury Department, which will meet the questions raised in New England in regard to the *free* importation of lumber under the Reciprocity Treaty. This document will counteract the former treasury circular which has excited so much comment in business circles. It is said that the new circular will contain the following:

While boards, beams, planks, laths, and the other enumerated articles would, if imported in their rough hewn or sawed state, be entitled to free entry as comprehended in the timber or lumber referred to in the treaty articles entered under the same designations, any other articles of wood, if manufactured in whole or in part, by *planing, turning, splitting, shaving,* or any other process of manufacture other than hewing or sawing, must be considered as remaining liable to the duty imposed by the existing tariff act on "manufactures of wood."

FROM THE CHIMERA.—"Is there any news from the Chimera?" said Mrs. Partington, dropping in upon us suddenly, like a bombshell, on the arrival of the last steamer. She had Ike with her, who immediately seized upon a pair of scissors and began puncturing the top of the desk against which he was standing, at the same time kicking the table at which we were sitting. "Is there any news from the Chimera?" We told her that the news of the emperor's death was confirmed. "Ah!" said she with a sigh, "the war is indeed dreadful when it wont allow people to make their peace when they die. I declare it gives me a nashus at my stomach when I think that men should forget the kindnesses and meannesses of life (she meant amenities) to worry each other by minny rifles and dog's delight. It is them awful military engineers that does it—if they would have civil engineers there, now, in a little time the Black Sea of war would become a Pacific ocean." She drummed nervously on a book before her—Loring's One Hundred Boston Orators, herself more eloquent than them all—took a pinch of rappee out of Col. Rhoade's box, and became oblivious, while Ike was turning his attention towards a new inkstand in an attempt to understand its principle from actual experiment, as his hands bore upon each palm a map of the Black Sea.—*Boston Post.*

SUICIDE IN BUFFALO.—H. M. Price committed suicide in Buffalo, on the 21st inst' by taking laudanum. He had business connections with E. J. Townsend, in the manufacture of cars. His prospects in life were flattering, and no particular cause could be given for a desire to die, save an imaginary one growing out of mental disturbance. The following letter was found on his table at the Clarendon: "Forget me, all—I am not worth remembering. May all forgive, as I do. This world is hardly worth living for. I can but try another. Death comes but once; I will trust in Deity. I have swallowed the draught; I expect to finish my life. Once for all, I am weak, but not sinful. I never commited a crime—errors per haps many. Hope is against me; I yield to fate, and——I was not made to breast the world successfully. I cannot write personally to friends—I should fail. But oh! how much larger and warmer is my heart than many would suppose. But so weak—and—I am almost afraid I have not succeeded, this laudanum works so slow. I got laudanum, as I supposed it would be easier to bear—a sleep without wakening. I hope it will not fail me. Oh! my relatives, forgive first, and then forget. I have just taken the last drop of three ounces of laudanum. I hope they will not disturb me. Farewell all. Believe me, truly, that I am more weak than sinful. Oh! a deep and dark plot. Farewell, farewell.

Morning Chronicle.

MONDAY, APRIL 9, 1855.

How it Works.—The Newburyport Herald says—"The popular vote in Connecticut has disappointed the wiseacres, and shown an Administration strength that was not dreamed of: it may also be a lesson to other States. * * * * The Know Nothings have not over five thousand votes more than the members of their order, while at least seven thousand Whigs have voted for the Democratic candidate. This arises principally from opposition to the Liquor law, as is seen by the votes of the large places, most interested in the liquor traffic, and which, formerly the strong holds of Whiggery, have suddenly become as strong for the anti-Maine Law Democracy.

* * * * The liquor question, with temperance men, is a sentiment; with their opponents it is interest and appetite. Very few men vote for a sentiment—it is too abstract; a man's appetite and interest go to the ballot-box with him. * * * *

It would appear as though the Know Nothings had swallowed up the Whigs, who last year carried the State of Connecticut, but it is no such thing. If Know Nothingism had not been born, the Whigs would have been beaten as badly as they are now; and without the Maine Law the Democrats would not have been so strong by five thousand at least.

We don't doubt that many men, both in Connecticut and elsewhere, are more closely wedded to their cups than to their parties. Nor have we any reason to doubt that political parties in some of the States, will be rolled over two or three times, either by opposing the prohibitory laws, or by supporting them.

Now we have never supposed a prohibitory law was the panacea for all human ills: but such a law has done much good in a neighboring State; and one something like it will do all the good it can in this State. Perhaps some of the parties will roll in the sand: but that is a small matter.

A Question for the Strict Constructionists of the South.—It is universally known that the most inconsistent, obnoxious and anti-democratic feature in the Constitution of our free, republican government is embraced under the 4th article, in these words:

"No person held to service or labor in one State under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due."

It is upon this provision the slave holding States have placed the strictest construction, and Congress has recently passed the infamous Fugitive Slave bill—a bill virtually re-enacting what the Constitution guarantees! Now by virtue of this provision, if a slave escapes from any State in this confederacy, which tolerates slavery, into another State, he shall be delivered up on claim of the party to whom he owes service or labor; but what, as Daniel Clark of Manchester, in a recent speech asked, if a slave escapes into a *territory*, not into another *State*, as the Constitution defines, shall he then be delivered up? By what authority? By the Constitution? But the Constitution does not so demand. By virtue of the Fugitive Slave bill? But this will be *unconstitutional*. A territory is not a State, therefore if a slave escapes into a territory and refuses to return, by what right can the party claiming his services or labor require him to be delivered up?

If the Southern States demand the literal fulfilment of this provision of the Constitution, we say, let them abide by their text as it is.

Americus.

Latest from Cincinnati.—Cincinnati, April 5.—It is reported this evening that the judges of the 12th ward polls had the ballots nearly counted when the boxes were destroyed, and having a memorandum of the votes, they are prepared to render a sworn statement of the votes cast, which will be received by the city clerk as returns from that ward. This will give nearly all the candidates on the Democratic ticket a majority, and it is stated that all of them will, accordingly, be sworn in next Monday.

April 6.—The complete returns for magistrates in this township give a Democratic majority of 800. The ballots for these officers were not destroyed in the 11th and 12th wards.

Heavy rains to-day have served effectually to cool all the belligerent spirits.

We presume this Cincinnati city election ought to be set down as a victory of the present National Administration, as the *Saynicks* [Say Nothing] Order among the Germans there, was stated some days ago, to have been concerted in Washington, for the purpose of counteracting the Know Nothings, by a society as secret as their own.

☞ On Friday evening, April 6, Hon. Henry Wilson delivered the closing lecture on slavery in Tremont Temple. The subjects were "Anti slavery in 1835 and Anti slavery in 1855 contrasted." The attendance was quite large. The orator handled all pro-slavery men and parties without gloves.

☞ On Fast Day, in Boston, Rev. T. Starr King preached a sermon, which is finely reported in the Boston Chronicle. The preacher opposes the proscription, secrecy, and oaths of the Know Nothings.

☞ The Ladies Repository for April, contains the following articles:—The Revenge; Fortitude; God, a Sun; The Passing World and the Enduring Christian; The Angel and the Child; The Fisherman's Daughter; The Change; The Virgin Mary; Waiting upon the Lord; Spring; Patience; Jairus' Daughter; Universalist Belief; When Shall I See Thee? Dr. Isaac Watts, the Sacred Poet; One Year To-Night; A Pastor's Memories; Be Kind to Each Other; The Sister's Lesson; The Monastery; Letters from the West; Two Pictures; Love the Fulfilling of the Law; French Washerwomen's Fate; To Daughters; The Editor's Table.

Mayor Wood.—The Journal of Commerce declares, and its statements are corroborated by other New York papers, that a purse of twenty thousand dollars has been raised by the policy dealers, gamblers, and keepers of liquor shops and houses of bad repute in the city, for the purpose of procuring the passage of such laws at Albany as will drive the present Mayor of New York from office, or at least fetter his power to work the public weal by destroying their nefarious traffics.

A similar, but smaller class of men, raised a terrible storm in Portland, to stave off Mayor Dow's election;—and they scold most desperately now that the election is over.

Mayor Wood works finely: we hope Mayor Dow will do as well.

The Duke of Cambridge testified before the Crimean committee of the British parliament, that the soldiers died there for want of porter! Our Maine law men should be warned by this fact.—*Newburyport Herald.*

Truly; and so should our young men be warned not to contract any habit of bottle sucking so inveterate that they must die in the weaning.

By the way, the American army has no spirit ration, and no porter.

☞ The body of an unknown man was found on Wednesday, 4th inst., between Lowell and Manchester, hanging over a wall, where he had probably been for several weeks. He was a small man, with grey hair, perhaps sixty years old. The rats had eaten and disfigured his face.

In his pockets were found a Boston Herald of January 17, 1855, some tobacco, and a broken pipe, lining to a hat, and two cents in money. Nothing was found in his pockets indicating his name. Very likely he froze to death.

Murder of Two Women.—A coroner's inquest was held at Glocester, R. I., to-day, on the bodies of Elizabeth J. Baker and Mehitable Hamlin. Mrs Baker was the widow of Abraham Baker, aged 69 years. Miss Hamlin, a single woman, aged 74 year, daughter of the late Samuel Hamlin of Providence. They lived together in Gloucester, about three miles from where Crossman was murdered a few years since by Hicks—about a quarter of a mile from any other house, and a few rods back from the road.

About one o'clock yesterday the house of Mrs. Baker was discovered to be on fire—the neighbors on arriving found Miss Hamlin on the floor of the parlor entirely lifeless, with several severe bruises on her head, either of which the physicians testified was sufficient to produce death—they appeared so have been inflicted by a club or some other blunt instrument. The skull was fractured in several places, one of the fractures was seven to eight inches long, and the left eye was discolored and swollen.

Mrs. Baker lay in the same room a few feet from Miss Hamlin, but was not discovered on account of the smoke in the room, until half an hour afterwards. She was so much burned, the house having then fallen in, that she could not be recognized, and an examination of her remains afforded no evidence of the means or manner of her death. There was no fire in the room where the bodies were found when the neighbors first arrived. The fire was set in the extreme other end of the house.

They were not reputed to have money in the house, and the little silver ware they had was not taken by the murderers, but was found in the ruins.

The good people of Glocester are using every exertion to ferret out the murderer, and have the fullest confidence they can succeed.

The verdict of the coroner's jury was, that they were killed and murdered by some person or persons to the jury unknown.—*Providence Journal, 6th.*

Horrid Accident.—Horace H. Hazard, oldest son of Col. A. G. Hazard, of Enfield, while proving powder near the Hazard Powder Co. Mills, in Hazardville, had his right arm blown off near the elbow; and both eyes put entirely out. The powder is proven in a mortar, (which he was cleaning out,) by pouring in powder loosely, and firing it. He had fired it once, and was pouring in powder the second time, when it ignited,—probably from fire remaining in the gun from the first firing—setting fire to the powder in the cannister, which exploded, blowing his right arm to atoms, and putting out both his eyes.

Loss of a Schooner and all Hands.—The wrecking schooner Rio Grande, Lee, of New York, put into Newport on Monday night, for a harbor, and reports that schooner Teazer, from —— for New York, anchored near Montauk Point at 8 o'clock on Monday morning, during the heavy WNW gale, and at 2 1-2 P. M. she filled with water and rolled over, when all hands perished, consisting of F. Crammer, master; Joseph Brown, John Emery, and Millet Ragner, seamen.

☞ The last Concord Statesman refers to the statements which have appeared in the newspapers in regard to the serious illness of Hon Ralph Metcalf, and says it "cannot learn that such is the case."

LOCAL.

GREAT FALLS AND CONWAY.

By the advertisement, on the 4th page of this day's paper, it will be seen that citizens of Portsmouth may communicate directly by Railroad, three times a day, with South Berwick, Salmon Falls, Great Falls, Rochester and Milton, in passenger trains, and once a day in Freight Trains.

At Rochester also, the track of this new railroad comes within a few rods of the Cocheco Railroad, which runs to Alton Bay, on Lake Winnepisseogee.

It will be perceived in a moment, that these new facilities for business and pleasure travel, are too valuable to be neglected. They are already beginning to produce their effect here, and some trade flows in through this channel. This stream should be encouraged, and it may be augmented. And one principal design of this notice is, to call the attention of our traders to this renewal of our intercourse with this portion of our back country, from which we have been cut off, during a number of years past. A full renewal of our former trade would be mutually beneficial to us as a seaport, and to other towns as customers.

A word to the wise is sufficient.

For the Chronicle.

"*Missionary Heroes and Martyrs.*"—I have turned over with refreshing interest the pages of the book with the above title, which is being introduced into the families of this city, through the agency of Mr. William W. Dow. Mr. Dow is a native of this city, and now a student at Andover, in view of the christian ministry; and is filling up the time of the present vacation, by circulating a most interesting volume of Biography and incidental missionary History, which commends itself to the homes and hearts of all christian families. The work has a most able introduction, written by Rev. Dr. Sprague of Albany, whose name alone, in connection with the work, is no mean *prestige* of its value. It also contains beautiful engravings—portraits of eminent missionary heroes and martyrs. The initial picture of missionaries, is a grouping of the representations of four remarkable and revered names—Fisk, Martyr, Richards and Newell. Notwithstanding the simple art of this engraving, it is a gem of a picture. And then there are pictures of the laborious Judson, whose name is a missionary charm; of the gentle and early lost Fox; of Boardman; and others, whose names are known in intelligent christian families. The letter press sketches of lives and labors, are of exceeding interest to the christian reader, and to the student of the best examples of practical piety and devotion to Christ. If christian parents will become possessed of this volume, and read portions of it at different times, in the family circle, it will work in the hearts of the members of the family like a good leaven, and it will increase christian ardor, and multiply the joys of christian experience; and brighten their path with the light of the best examples. Each Sabbath School Library in the city, ought to have one copy, at any rate, of the work, and it would be a good thing if more than a single copy were possessed.

The work is for sale by Mr. Dow, in two styles of binding, varying in price, and either style is worth all you will give for it.

Henry D. Moore.

Gov. Plumer's Life and Times.—The Dover Enquirer says Rev. A. P. Peabody of Portsmouth, is preparing for the press and will publish in the course of the summer, a memoir of the late Gov. Plumer, embracing a political history of the times in which he lived, which cannot fail to be a work of great interest. Gov. Plumer died in 1850, at the age of 92, and was for many years one of the most prominent and active public men and politicians in New Hampshire. He was a member of the Convention that formed the present State Constitution, a lawyer in extensive practice, Speaker of the House of Representatives, President of the Senate, Governor of the State for many years, and a Senator in Congress from 1802 to 1807. He was a voluminous writer and kept during his entire life a full and minute diary. He was in very extensive correspondence with distinguished statesmen in every section of the country, and his letters are still preserved. In a communication to Rev. Samuel Osgood, Secretary of the N. Y. Historical Society, Mr. Peabody states, that Hon. William Plumer, Jr., who died last year, prepared a memoir of his father from his papers, "which it is not too much to say, contains more and more valuable contributions to the yet unprinted history of the country than any single biographical work of these latter years. It not only embodies numerous sketches of events of local interest to the inhabitants of New Hampshire, but in the memoranda of Gov. Plumer's congressional life, and in the correspondence of the several succeeding years, there is exhibited a great deal of the latent history—the counselings and plottings, hopes and fears of that perilous epoch. Identified with the Hartford Convention, I have nowhere seen so minute and authentic an account of the disunionist movements of that day; and I am inclined to think that some of the correspondence embodies in the memoir may help to substantiate facts that have been hitherto regarded as high figments, and, at the same time, to justify motives which have hitherto been either impeached or denied.

Mr. Plumer died last autumn, leaving the memoir complete, but without the work of condensation and revision needed to fit it for publication. This work I have engaged to discharge, and shall enter upon it as soon as a fair copy of the manuscript, now in progress, is completed. I shall probably be able to send it to the press early in the summer."

☞ The down train on the Concord Railroad, Saturday evening, was thrown from the track, by the breaking of an axle of the baggage car. One passenger, a lady, had her arm displaced or broken, and a brakeman was somewhat injured by being suddenly thrown backward. The train was delayed about an hour.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then return when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

ONE WEEK LATER NEWS.

NEW YORK, April 7.

The steamship Illinois, from San Juan, arrived here this afternoon, bringing about 300 passengers and $710,000 in specie.

The California dates are to the 16th ult, and were brought down by the Sonora The J L Stevens was going into San Francisco when the Sonora left.

None of the suspended banks had resumed business. Robinson's Savings Bank yielded no assets. The deposits amounted to $207,000. He has been arrested on a charge of embezzlement.

The affairs of Adams & Co. had come before the Courts in a variety of shapes.

G. Hubert Saunders, an attorney of San Francisco, has been arrested on a charge of forgery. $20,000 bail was furnished, when Saunders immediately decamped.

Abundant rains had fallen.

The trial of Hamilton Bowie, late Treasurer of San Francisco, indicted for embezzling the public monies, resulted in his acquittal.

WASHINGTON, 5th.—SLAVERY IN CUBA. The views of the Spanish Minister of State have been entirely perverted by translating the Spanish word *dejar* into "continues" instead of "cease." Correcting this, it follows that Spain has no idea of abolishing slavery in Cuba. The Spanish paper, the Presse, misrepresents Luzupiago on this subject.

It is now said that Taylor's forgeries will not exceed $5,000.

RICHMOND, 5th.— RICHMOND ELECTION. The Know Nothings here have elected their candidate for Mayor, carried both branches of the City Council, and elected all the city officers. The vote for Mayor is as follows: Joseph Mayo, K. N., 1971; Col. Manfield, Dem., 1715. The vote for the other officers is about the same.

NORFOLK, 5th. — THE FRIGATE JAMESTOWN sailed with sealed orders received from Washington, which are understood as directing her to call at Havana.

THE OFFICERS OF THE COLUMBIA have been detached, and granted three months furlough.

YELLOW FEVER.—Sixty-three cases of yellow fever were sent to the Hospital from the Columbia, out of which there have been five deaths.

ST. LOUIS, April 4.—Messrs. Page, Bacon &Co. publish a card, stating their determination not to close their doors. They assure their friends that their assets largely exceed their liabilities, although not immediately available, and that they will be applied faithfully in the payment of their obligations.

The Know Nothings elected their candidates here yesterday. They were also successful at Jefferson City.

PHILADELPHIA, April 5th.—GREAT FIRE AT ST. THOMAS.—A letter has been received here from St. Thomas, dated March 13th., which reports the burning of the Custom-house there, and the adjoining warehouse of Messrs. Whitmore & Co., with all its contents. This loss is put down at $50,000. It is supposed to have been the work of an incendiary.

CORNELIA AND HER JEWELS.—Several persons in New York are making up a purse to present a testimonial of respect to the brave woman in Maine who turned out with her shovel and dug away the snow, that her daughters might reach the schoolhouse. The Evening Post acknowledges the reception of $30 in aid of the movement. It says the proceeds are to be appropriated to the purchase of books for the use of the daughters.

Martin Van Buren, Jr. son of Ex-President Van Buren, died at Paris, France, on Tuesday 20th ult. He had long been wasting away from consumption, but his death was nevertheless very sudden, having taken place instantaneously while he was seated at dinner.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George R. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. J. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

JUST PUBLISHED!

History of a Zoological Temperance Convention.

BY PRESIDENT EDWARD HITCHCOCK, D. D., LL. D.

CONTAINING THIRTY ILLUSTRATIONS.

Opinions of the Press.

A charming and instructive fable, and one that will implant good seed in many a youthful mind.—*Philadelphia paper.*

It is a good work, will make the boys laugh, teach them a good moral lesson, and many other things besides.—*Boston Weekly Telegraph.*

An amusing book, full of rich matter, worthy the particular attention of all persons interested in reforms.—*Boston Transcript.*

An extraordinary allegory, well illustrated.—The whole forms a peculiar, but forcible plea for sobriety.—*Watchman and Reflector.*

It is brimful of fun and temperance, with an occasional sly hit at other foibles and evils besides those arising from the sale of alcoholic drinks.—*Congregationalist.*

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
73 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty) is paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can save small themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar.*—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR—Your favor of the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called,

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb: FLUOR ALBUS, or WHITES: CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observation.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been supplied with the medicine, for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, all of so serious a nature, that latterly my physicians pronounced my case Womb. I suffered extremely, and at last was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 57 Mill street.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

A DIFFERENCE.—The Boston Transcript says:—The Rev. Rufus W. Clark, pastor of the Maverick Church of this city, is the author of a volume recently published, entitled 'Romanism in America.' Mr. Clark is a clergyman highly esteemed for his talents and piety by a circle of friends far wider than the limits of the denomination with which he is connected. His work is reviewed in two of the April Quarterlies, viz., the North American and Brownson's Review. We read these notices within a few hours of each other, and they are so widely different, that we are induced to copy a few of the sentences from each, to show our readers how differently Mr. Clark's work is viewed by the two writers, neither of whom is of his own faith. The staid North American says:

"Mr. Clark has precisely the qualities of head and heart adapted to make him a *popular* writer in the best sense of the term. He knows how to present the results of diligent study, profound thought, and devout feelings, in forms that shall at once satisfy the demands of the more cultivated, and meet the needs of the less cultivated."

Mr. Brownson, on the other hand, boldly states that—

"Mr. Clark is very ignorant, and even more untruthful. Candor and courtesy towards those with whom he differs, are evidently qualities he has not yet acquired, and qualities which we fear he is utterly unable to appreciate. He is both credulous and unscrupulous. * * * His whole work is simply a tissue of false assertions, unfounded charges, gross perversions of facts, and unwarranted inductions."

THE NEW YORK CYPRIANS.—The Evening Mirror takes up the cudgel for the street nymphs of New York with considerable earnestness:

"How many of these poor girls now immured in the cells of Blackwell, were lured from innocence and betrayed to shame by men whom the law allows to walk the streets unmolested, and whom society calls respectable! How many of them, thrown out of employment by the terrible times through which we have just passed, after struggling against hunger until exhausted nature could endure no more—after vibrating between the dreadful alternatives of suicide or sin, parted with their virtue—the immediate jewels of their souls'—to save their bodies from the lingering agonies of starvation! It strikes us that the community in which these poor, defenceless, broken hearted creatures have been driven to shame, and the seducer who led them to the gates of hell, and there left them to 'shift for themselves,' are more deserving of punishment than their weak and wretched victims. We are inclined to think that this Cyprian problem is one that will puzzle our worthy Mayor to solve. It is a delicate disease in our social organism, and one that requires delicate treatment. It is hereditary—and *in the system;* and it will puzzle the doctors to eradicate it. Thus far, we believe, Mahometism and Mormonism have proved the most effectual remedies."

Suppose this were all true: it affords no reason why Mayor Wood should not send these poor vagrant girls to the Alms House.

SAD ACCIDENT.—A sad accident occurred in Mt. Vernon, in this State, on Thursday morning last. Moses Robinson, an old man 70 years of age, was burnt to death in his own house. The house was all in flames when discovered at 4 or 5 o'clock, A. M., the inmates with the exception of Mr. Robinson, barely escaping with their lives. One young man in the second story was obliged to leap from the window. The bones of the old man were found upon the hearth; it is supposed he was bewildered and unable to find his way out.—*Portland State of Maine.*

A late telegraphic despatch received in London from the East stated "that Lord Stratford de Redcliffe had left Constantinople in a *"terrible fright,"* and guesses as to the cause were thick and wise—until it turned out thrt it was in the *Terrible* frigate.

NEW WORDS.—The learned Mr. Trench in his lectures on "English, Past and Present," mentions that one is surprised to discover of how late introduction the word "its" proves to be in our language. Through the whole of our authorized Version of the Bible "its" does not once occur; the work which it now performs being accomplished, as our rustics would now accomplish it, by 'his' or 'her' applied as freely to inanimate things as to persons, or else by 'thereof' or 'of it.' Mr. T. remarks that 'its' occurs but three times in all Shakspeare, and he doubt whether Milton has once admitted it into Paradise Lost.

A grave event has just occurred at Moscow. The large bell of the tower of Ivan-Velik, in the Kremlin, fell to the ground at the moment when the ceremony of swearing allegiance and fidelity to the new Emperor was going on, and by its fall crushed nearly 100 persons. For a people so superstitious as the Russians, this disaster has appeared a most sinister omen, and the letter which gives an account of the event, states that the effect on the public mind has been that of great consternation.

Morning Chronicle.

TUESDAY, APRIL 10, 1855.

THE ARGUS ON DEATH.

The Eastern Argus of the 6th, notices our strictures on its previous article respecting the deaths of Moore and Barton, and the sickness of Wilson. The first paragraph of the rejoinder in the Argus, is as follows:

"No Man can Serve Two Masters."—So we said, in biblical form, a few days since, and proceeded to show that three men of note, Messrs. Moore and Barton of New Hampshire, and Wilson of Massachusetts, *all Know Nothings*, had been suddenly cut short in their political career, as though by "Divine dispensation" Certainly, it is remarkable that these men, who, previous to their "providential visitation," were the most "shining marks" in the Order, in New England, should be struck down while in the very furrow.

So it is remarkable: but we do not see that it has the least application to their *serving two masters*, or that it throws the least light on the question *who* or what the two masters are, to whom the Argus refers? Will that paper please to inform us?

The Argus continues:

We naturally called attention to this fact, and our remarks elicited some two columns and a half of editorial cant and "twattle," from the Portsmouth Daily Chronicle,—"Uncle Toby," for the nonce, giving his pen a very *loose* rein. Conspicuous as these men were, on account of the position they had assumed and the circumstances which had made their names and lives public property, we considered it our duty to refer to their "taking off."

We desired to impress upon our readers, first: that we were all under the subjection of an overruling Providence, One whose thoughts penetrate our thoughts, and Whose judgment is superior over our judgment. We believed we saw the operations of "that hand which none may see," in the "visitations" alluded to, and if we were mistaken, it is remarkable that a party should lose its best men in the very hour of trial.

We admire the latter paragraph above quoted; and we are as confident as the Argus can be, in the wisdom and goodness of God's overruling providence, which took away these men's lives. So we have lost some very near friends, indeed our "best," in the hour of trial, but it never occurred to us that God put them to death because he was offended against them. By the way, we doubt not that there may be thousands of as good men living among the K. Ns. as those who are departed.

The Argus says, again:

It is perfectly clear, to every unbiased mind, that Know Nothingism and a love of Liberty cannot co-exist. The idea that geographical lines shall be regarded as impassable barriers to the friends of freedom, especially when we are assured that God has "made of one blood all nations of men," is so ridiculous that we cannot listen patiently to any arguments bearing upon the question.

Uncle Toby is not a Know Nothing, but he loves liberty most ardently, and cares but little about geographical barriers. And loving liberty as he does, he is not favorable to priestly domination, nor to overriding free American ideas with those that are foreign and slavish. He does not see, however, that the above paragraph from the Argus, has much bearing on the question why these men died, or on the two masters they served.

The next paragraph is more pertinent:

The three men mentioned were in the most vigorous and hopeful period of manhood. They were endowed with such talents as would have enabled them to make their mark upon the age. Sentinels they might have been on the national watch-towers; but they turned from this high position, to mouse in political by-paths and midnight burrows.

The three men were quite unlike. Mr. Moore was a Universalist preacher, and one of the Democratic party: Mr. Barton a politician by profession and occupation, and had been called a Democrat; Mr. Wilson, a noted politician, a Whig, and then a freesoiler.

Here their offence is defined; they forsook *the high and holy* paths of two old parties, Democratic and Whig, and went to *mousing* in a new party: therefore, God, being the special guardian of Old Line Democracy, and of National Whiggery, puts them to death as a penalty for this wickedness! Mr. Wilson however is living.

Once more, the Argus says:

We stated that Mr. Moore was the gubernatorial nominee of a "midnight cabal." The Chronicle is offended by the epithet. Webster, however, says the word "Cabal" means, "A number of persons united in some close design; usually to promote their private views in church or state by intrigue. A junto." We ask the Chronicle and every candid reader, what better definition of Know Nothingism could be given; especially as exemplified in the N. H. State Convention, or in this city, in the late Municipal election! Persons united to promote their views *by intrigue!*

We are by no means offended with the epithet, Midnight Cabal: though we exceedingly dislike late nocturnal assemblies. Uncle Toby, however, has always used the word Cabal, and seen it used, as applicable rather to a small assembly than a large one, as the word was made in King Charles the Second's time, and applied to his Ministers, Clifford, Ashley, Buckingham, Arlington and Lauderdale, whose initials form the word CABAL. Webster, or rather Webster's editor, in the same paragraph whence the Argus copies a part of the definition, says the word is sometimes synonimous with *faction*: but a *cabal* usually consists of *fewer* men than a party. Dryden calls it the secret artifice of a *few* men united in a close design.

The Argus does not say whether the K. N evening convention was more or less a *midnight* cabal than Congress sitting all Saturday night and half Sunday,—nor whether it was more or less a Cabal than our Concord Clique or the Albany Regency.

Lastly, the Argus closes thus:

The body of the Chronicle's article is devoted to this question:—If the three men mentioned, were visited by a "judgment," why are not scores of politicians in New England, who stand upon the same ground, visited in like manner? We answer it with its own quotation, "Those eighteen upon whom the tower in Siloam fell, and slew them, think ye that they were sinners above all men that dwelt in Jerusalem? I tell you Nay; but except ye repent, *ye* (Know Nothings) *shall all likewise perish.*"

Here it is, as plain as daylight. Messrs. Barton and Moore, Old Line Democrats, were God's special favorites, and so they lived: but they became Know Nothings, and therefore they died: Now, says the Argus, except ye repent, ye Know Nothings, and become good Democrats, ye shall all die suddenly.

We would ask the editor of the Argus, in all soberness, if he really believes that there is any peculiar holiness or sacredness, in the Democratic, or Whig, or Freesoil Parties, to which these three men belonged, which induces God to keep these great men alive?

Or if he really believes his own *prophecy*, that all persistent Know Nothing shall perish?

We pause for a reply to these questions, and also for a definition of what he means by the two masters.

Since writing the above, we perceive a statement that B. F. Hallett, Esq., U. S. District Attorney for Massachusetts, is sick abed, so that the Burns Case Treason Trials are postponed! Also another, that Senator Wilson has just delivered his Anti-Slavery lecture in full, being the very same discourse, in the previous delivery of which he was struck down! Here is matter for serious consideration. By a most mysterious providence, Hallett, the saint, is so sick that he cannot serve God by prosecuting those treasonable rascals who despised the sacred fugitive act! While Wilson, the sinner, the wicked Know Nothing, is up on his legs again, libelling the blessed institution of slavery, and speaking evil against all those dignities and dignitaries who eat Southern dirt to save the Union. Will the Argus please tell us who is warned to repent or perish in this case?

Lastly, we see in the Boston Chronicle, of Saturday, that Mrs. —, wife of Mr. —, No. 43, — street, "died very suddenly at her residence. Deceased was engaged in sweeping her room, when she was seized with a fit, to which she was subject, and before medical aid could be procured, she expired."

On the plan of the Argus, and by its preaching, here is an awful warning to all tidy housewives who use a broom, that unless they repent and leave the dirt where it is, they shall all likewise perish. Thousands of slatterns hate a broom as badly as the Argus hates the Know Nothings, and can probably quote the Scriptures and handle moral questions about as well. *They* will probably take warning—but the neat women will sweep on, even though one of their number happened to die in the act.

Speaking of the recent town elections on Long Island, and of the measure of success which 'Sam' enjoyed therein, a correspondent of the N. Y. Times says: "Where the temperance people voted with him, the young man had every thing his own way. But where he named a candidate who was not a Maine Law man—his candidate was seldom chosen."

Stampede.—We learn that quite a stampede took place at the Capitol School, on Monday, in the department under the charge of Miss Abbott. One of the young lads in the school was seized with convulsions, which frightened the others, and they made a terrible rush for down stairs, tumbling one over another like a flock of sheep, but fortunately none were seriously injured. It was highly fortunate that the stair way was safely constructed against such an event. The case was very similar to the one in Brooklyn, N.Y., where a large number lost their lives—the cause of the fright being the same.—*Detroit Adv.*

The celebrated race horse Lexington won the twenty thousand dollars match against time, on Monday, at New Orleans. He ran a four mile race in seven minutes and nineteen seconds, the quickest time ever made by horse flesh.

The Boston Traveller says, Jacob Carter, a temperance lecturer, with the documents in his pocket, was taken into Station No. 1, Monday night, very noisy and drunk.

St. Patrick's day was celebrated with great spirit in Louisville, Ky. Nine living Irishmen were committed to jail on Saturday, and three dead ones were found on Sunday.

LOCAL.

INSTALLATION.

On Sunday evening, April 8, the Pleasant street Church was crowded with people to witness the Installation of Rev. Burroughs S. Fanton, as Pastor of the Christian Society worshiping there. The services were performed by the following ministers, embracing one each, of the Unitarian and Orthodox Congregationalist, Baptist, and Methodist Episcopal churches.

Reading of the Scriptures by Rev. Mr. Spaulding, of this city.

Introductory Prayer, by Rev. Mr. Tebbetts of Cambridge, Mass.

Sermon and Address to the Society by Rev. Prof. Holmes, a former Pastor.

Prayer of Installation, by Rev. Mr. Lamson, of this city.

Charge, by Rev. Mr. Payne, of Kittery.

Right Hand of Fellowship, by Rev. Mr. Rowell, of Rye.

Concluding Prayer, by Rev. Mr. Moore, of this city.

Benediction, by the Pastor.

The services were interspersed with appropriate music.

Rev. Mr. Holmes preached during the day, to large audiences. He is about making a tour of a year or two in duration, in Europe.

☞ The closing Lecture of the Mechanics' Lyceum Winter Course, is to be delivered this evening, by Rev. T. W. Higginson, of Worcester, Mass. on the Old Puritan Clergyman.

Mr. Higginson is a descendant of one of the old Puritan clergymen; and is besides a most independent thinker and actor. He is, moreover, under indictment in Massachusetts, for assault and battery committed on the door of the slave pen in Boston.

The Concert announced for to-morrow evening, will be one of the most brilliant ever given in Portsmouth. Mrs. Wentworth has received the highest approbation of musical critics everywhere; and cannot fail to draw a crowd in this her native city, nor to highly gratify them. Mr. Arthurson, from London, is one of the very best tenor singers; and the Mendelssohn Quintette Club is unexcelled as an Orchestra, besides furnishing beautiful solo playing.

Look Out.—A couple of seedy young loafers entered the Confectionery establishment of Charles H. Fernald, on High street, Saturday afternoon, and stole about $3 in change from one of the money drawers. He knows who the thieves were, but has not legal proof enough to convict them.

Flooring Cement.—Those who wish for hard cellar floors that the rats cannot dig through, or water proof stable floors which will carry off without waste all liquid manures into tanks, reservoirs or absorbents placed for this purpose; or tight cistern walls that the water will not soften, nor frost crack; or compact surfaces on garden walks and ornamental grounds, where weeds cannot grow, even on side hills, where the rains cannot cut channels in the pathway, can be accommodated very easily and cheaply if they happen to live in a city or town where gas works are in operation for supplying the citizens with light. Take the rejected gas tar therefrom and after carrying it home mix it up with sand and gravel till it becomes a mortar, and then spread it whereon you wish. It will soon become as hard and compact as iron, and neither rain, nor frost will in the least affect it. Common tar would probably answer as good a purpose as this refuse from the gas house, but it would be more expensive—perhaps too costly for common purposes.—*Rural Inteligencer.*

A side hill spot, in a street in Portsmouth, was tarred 25 years ago;—and the good effect of it has not yet disappeared.

Jenny Lind has been creating an immense *furore* among the Dutch at Rotterdam & elsewhere. The profits of one of her concerts at Amsterdam amounted to $2000. It was given in behalf of the Gueliderland and Brabant sufferers from inundation.

Miss Betsey Bowers, of Hancock, N.H, a maiden lady of about 70 years, was recently found dead upon the floor of one of the apartment in her cottage in which she lived alone.

The population of Geelong in Australia in 1841 was 454; in 1854 it was 20,900.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their hundred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

OXFORD, April 9.—A most disgraceful riot occurred in this place yesterday morning. It appears that a Roman Catholic, who had been married by a Protestant clergyman, and in consequence excommunicated, entered the Catholic church in company with a protestant friend while the congregation were assembled for public worship. The priest immediately ordered him to be put out, which order was most faithfully carried out. At the door a fight commenced, in which it is said the priest took part. The exercises in the church were suspended, and a crowd assembled at the nearest hotel, where a more general fight ensued between the Catholics and Protestants, in which the former came off second best. The priest and several of the rioters were arrested, and their examination is now being proceeded with. No lives were lost, but many were seriously injured. All is quiet this morning.

LANCASTER, PA., April 5th.—THE GRAND STATE COUNCIL OF KNOW-NOTHINGS met here on Tuesday, and broke up this afternoon in great confusion. The cause of the difficulty is said to be the opposition which was manifested towards open organization, on account of public opinion running counter to secrecy and oath bound conspiracies. Messrs. Cameron, Johnson, and Gen. Irvin, left this morning in disgust.

CHICAGO, April 9.—Sufficient returns have been received from Iowa, to show that the Whig State officers are elected by a larger majority than that given the Whig ticket last August.

In Wisconsin, Coles, Whig, is elected a Supreme Judge.

PORTSMOUTH, Va., April 8th.—The election for Mayor and members of the City Council took place here yesterday, and resulted in the success of the American party by a mdjority of 151.

LOUISVILLE, Ky., April 7.—The election here is progressing quietly. Barbee, the Know Nothing candidate for Mayor is without doubt elected. Speed, the anti-Know Nothing, and the present incumbent, refused to run, on the ground that his term of office had not expired. The Know Nothings will most probably carry the city by a large majority.

CINCINNATI, April.—The City Council this afternoon passed an ordinance to purchase the River Landing, east of Mill Creek, from the Ohio and Mississipi Railroad, for half a million of dollars' payable in city bonds. This will enable the Company to complete the road at once.

ENGLISH RECRUITS FROM BOSTON!—We take the following paragraph from the Halifax Colonist of April 4th:

Yesterday morning the brig America arrived from Boston, with her complement of the new troops, amounting to about ninety in all. They were landed in course of the forenoon, at the Queen's wharf, and marched up to quarters in the military hospital. They are, we understand, principally Germans, healthy looking men, but of all conceivable degrees of stature.

CANAL OPENED.—Yesterday the first official notice this season was given for clearances to boats upon the Illinois & Michigan Canal. Two boats cleared for Lockport yesterday, and others would have cleared for La Salle, but were not permitted to do so till to day.—*Chicago Tribune, 4th.*

SNOW DRIFTS IN APRIL.—The cars that left Binghampton at 7 o'clock on Monday morning did not reach Syracuse till half past seven Tuesday morning, having encountered snow drifts from twelve to fifteen feet deep.

DESTRUCTION OF AN IRON BRIDGE.—The English papers give the particulars of a terrible catastrophe at Briston. An iron bridge was totally destroyed, and several lives were lost. A screw propeller came in contact with the iron frame work of the bridge, which rested on side piers. The account says:

The force of the collision was so great that, notwithstanding the power of a very strong ebb tide, the steamer rebounded eight or ten feet, and the bridge immediately fell with a tremendous crash, carrying with it everything that happened to be upon it at the time of the occurence. Of the extent to which life was sacrificed it is impossible as yet to speak with accuracy. Three or four persons swam to the banks, and were got out alive; but it is said that a woman with a child in her arms, and two ladies, who were seen struggling in the water, are missing, as also a little girl, who was seen close to the bridge, and who it is believed, was upon it. Two carts were thrown in by the fall, and one or two of the horses drowned.

The bridge was of cast iron; was of 160 feet span, and comprised a single arch, with six cast-iron ribs, trussed by iron girders, tied and pinned, and supported by cast iron stanchions. It occupied in its erection from 1805 to 1809; and it is worthy of notice that, in 1808, owing to some defects in the stonework upon which it rested, it fell, and either killed or severely injured thirty-two persons.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

SALT.—Mons. Thomassy, a Frenchman, has discoverd a new method of preparing the universal and indispensable condiment, by which it may be obtained literally without any expense, save that of transportation—the wind and the sun being the only workmen necessary to complete the process.

Mr. De Bow says that Mr. Thomassy's method will effect a complete revolution in the production of salt, and that by its application the United States will cease to import millions of bushels annually, but will manufacture the article for home consumption, thereby keeping at home two or three millions of dollers and obtaining salt at less than one half the price now paid for it. Mr. Thomassy proposes to form a company in Louisiana for the manufacture of salt on an extensive scale.

IMPORTANT IMPROVEMENT

Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much faster and better than any other now in use. I would particularly call the attention of those in want of machines for nice work, or for planing everything, cross-grained or knotty material, to these machines, as it is impossible for them to tear or throw out loose knots.

My Clapboard Machine will plane and join as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon any quality of clapboards, in a very superior manner, without tearing the thin edge.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

JAMES A. WOODBURY.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of this medicine; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the GERMAN CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and feel induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *excessively*, and at last was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

HE BUT CAME HOME TO DIE.

BY S. W. HAZELTINE.

"They laid him in the grave to-day—
I saw them lay him there;
I would that I were by his side,
This grief I cannot bear.
For years he has a wanderer been
On a far distant shore;
And now, though he has just returned,
He dwells on earth no more!
How aches my heart—how burns my brain,
My hopes all withered lie;
For brother who hath just returned,
He but came home to die!

He wrote us from that distant shore
That he would soon come home,
To view again the pleasant scenes
Where once he used to roam.
O joyful news! it filled my heart
With deepest, sweetest joy;
And never once I thought that death
Would mix it with alloy.
And ere he came, how very slow
The sluggish days moved by;
Ah, little thought I then, that he
Was coming home to die!

He came at last! what bliss was mine
To clasp again his hand;
And welcome him with tears of joy,
To his dear native land!
To see the love-light in his eye—
E'en now I see his look.
And hath he passed fore'er away?
The thought I cannot brook!
Alas, we scarce had welcomed him,
Before we saw him lie
All cold, and still, and pale in death—
He but came home to die!

He but came home to lay his bones
Beneath his native sod!
To take him hence, though just returned,—
Such was thy will, O God!
We hoped to have him stay awhile,
To make our hearts rejoice;
That we might drink again his smiles,
And hear his pleasant voice!
But I will murmur not, my God,
For thou'rt more wise than I;
But O, my heart is crushed, for brother
Only came home to die!"

CATHOLIC CHURCH PROPERTY.—The more respectable Roman Catholics are resolutely seeking to thwart the design of the pontiff respecting the tenure of church property in this country. In Pennsylvania Legislature on Wednesday, a remonstrance was presented from over seven thousand Catholic citizens of Philadelphia, against the bill relative to church property; and in the Massachusetts Legislature on the same day, a petition was presented from the Catholics of Lowell, praying for the passage of a law giving control of church property to pew owners or those who contribute to the erection of churches.

The 1st Baptist Church, Chicago, Ill., has formally withdrawn its invitation to the American Baptist Home Missionary Society to hold its next annual meeting with that body; and has at the same time declined to entertain or open its house of worship to the two Bible Societies, which had intimated a wish to hold their next anniversaries there. The church is unwilling that its harmony should be endangered by bringing home to itself the unhappy and persistent controversy existing between the Boards of these Societies.

The decline of Quakerism in Boston is the topic of an interesting historical letter in the last number of the Christian Inquirer. The writer says that "the anomaly exists in Boston of a church without a single worshipper, residing in the city, of the faith of those who built it. It is believed that not a single Quaker now resides in Boston. Diligent inquiry of the Friends and of others, has failed to bring to light a *living* Quaker as a resident of Boston for several years.

MASSACHUSETTS.—The Boston Advertiser says,—In the Legislature, last Saturday, the Senate adopted all the House amendments to the liquor bill, and this bill is now likely to go to the Governor without further alterations.—If signed, the bill begins to operate in 30 days.

FALL OF A BUILDING.—Last evening, a small unoccupied building of the new material called "concrete," consisting of mud, cobble stones, &c., situated in Brookline, Mass., fell to the ground. It was built last fall by a carpenter named Cousins, as an experiment.—There was a high wind blowing at the time, and it is supposed that the walls were weakened by the frost having been drawn out during the last few weeks.—*Traveller.*

The great defect in this composition is, that it does not resist frost—at least in this vicinity. In New York State, it appears to be an excellent material. The Fowlers, book publishers, have a dwelling house made of the composition, built nearly ten years ago, which still remains solid and impregnable.—*Bee.*

OUTSTY LAND.—Commissioner Waldo has made another important decision under the bounty land act—that persons employed in the revenue cutter service do not belong to the navy. The fact that a revenue cutter, in a time of war, was employed to carry instructions, does not change her organic character.—In this view of the question, the officers and crews of the revenue cutter service, no matter where or when employed, are not entitled to land bounty under the act of March 3, 1829.

JURY TRIALS.—The Boston Chronicle says, the bill which was passed by both Houses of the Legislature, which gives to jurors the power to judge both of the law and the evidence, was on Saturday signed by his Excellency the Governor. It is understood that the legal adviser of the Governor was opposed to his signing the bill.

Morning Chronicle.

WEDNESDAY, APRIL 11, 1855.

WHO WILL ANSWER?—The Boston Post not having any fears of the Maine Law and its hosts of 'Independent' Supporters, asks the following question:—

If Massachusetts assumes to decide how far the laws of the United States shall be executed in Massachusetts, why shall not Boston decide how far it will obey the "liquor law" of Massachusetts?

This is a fair question, and deserves a serious answer. In deciding whether an act of Congress or of a State Legislature be *a law* or not, it is needful to inquire in the first place, whether it consist with justice, equity and humanity. If it do not, it is *no law*.

Next we are to inquire whether it consist with the fundamental principles on which our national existence and our federal and State constitutions are founded. If it do not, then it can have no moral support and derive no proper sanction from the nation and State.

Our nation planted itself, as a nation, on the ground that all men have, as the Creator's gift, a right to *liberty*—and the Constitution of the United States, in its preamble, sets forth *liberty*, as one of its objects. Similar declarations exist in the Constitutions of Massachusetts and New Hampshire.

If they mean *any thing at all*, then an act or edict which reduces a man to a chattel, is *no law* in Massachusetts.

And if an edict or act, which prohibits the sale of rum or gunpowder, except as restrained by statute, can be shown to be contrary to justice, equity and humanity, every city and every man ought to fight against it, and secure a free trade in those inflammable articles.

If the public good in Boston demands that every man shall catch negroes and sell liquors, every one shall store his own powder, sell his own ashes, take care of his own swill, and keep his own pig,—no doubt the people will either make or break the laws to suit the emergency. But if, on the contrary, they decide that the public good *does not* demand free trade in negroes or ashes, gunpowder or pigs, rum or swill, they will be likely to pass a tariff, to regulate or to prohibit the traffic, as the case may be.

Human legislation, at best, is rather a jumble; and in explaining or executing laws, common sense and common humanity should never be out of sight. With these safeguards the law is as easily understood as the gospel. Without them, the *forms* of *law* are but the *implements* of *oppression* and outrage.

THE SCHOOL QUESTION IN MASSACHUSETTS.—NO OBJECTION ON ACCOUNT OF COLOR.—There appears to be some prospect of the passage, by the new American party of the Massachusetts Legislature, of a law providing for the admission into the common schools of children of the African race on a footing of equality with the descendants of the original Puritans. This may do for Massachusetts, perhaps; but it strikes us that it is a poor expedient of aid and comfort to the new American party in Virginia. If the Know Nothings of the North choose to admit white, black and yellow children upon the common level of equality into their public schools, the Know Nothings of the South must secede from them, or be disbanded. No party in the South can co-operate with any party in the North which attempts to enforce socially or politically, this ultra-abolition doctrine of amalgamation. Of late we have been puzzled to guess, and should like to know, what are the national principles of this new American party in Massachusetts?—They hold the Legislature with scarcely an opposing voice against them in either house. What is the meaning of this new bill, consulting it in reference to the campaign of 1856? Is it a sectional or a national movement? a measure of peace or agitation? conservative or abolition? We should like to know.—*New York Herald.*

We have no exclusive right to answer for Massachusetts, nor for the Know Nothings: but we can answer for the great body of the People of New England, (aside from place hunters,) that they have no fellowship with slavery, and are not disposed to shape their Domestic Institutions so as to please either a slave driver or a priest. And while our people, as a whole, do not feel a constant or deep interest in the subject, yet they have been so exasperated by the fugitive act, by the Burns case, and by the Nebraska affair, that any party here which avows itself pro-slavery, must go to the bottom at once. The feeling to which we allude, pervades all parties, some more than others doubtless, but no one is free from it. And if an orator of any party, now, should utter with ever so much gravity, the Union-Saving words so common in 1850-51, he would "bring down the house" with laughter. The old bugbear cheat has lost its charm.

There was scarcely a pro-slavery speech in New Hampshire during the late canvass.—The administration orators aimed their guns at the Know Nothings, and *very wisely* ignored the slavery subject, or spoke *for freedom*, not against it. They, our home orators, know our people better than they are know in New York or Virginia. The people of New Hampshire are opposed both to priestcraft and to slavery;—and when fairly roused up, they say so, pretty plainly.

Scarcely has there been a time for forty years when it was so hard for the laboring man to obtain the necessaries of life, as now. Work is scarce, and many have little to do, while the employed obtain small wages compared with the last half dozen years. On the other hand nearly every thing necessary for a family is enormously high. House rent is 10 per cent. at least higher than three years ago; coal and wood and lights are thirty per cent. higher; flour is from $10 to $13 per barrel, potatoes from $1 to $1,25, beef anywhere from 9 pence to a shilling; butter two shillings, and everything else in proportion. If this is not a hard look for the poor mechanic or laborer with his half dozen small children—when bean porridge and rye bread are the only cheap articles left—we do not know what is. And this happens in a country with millions of acres of the most fertile and healthful lands unimproved, that any body can have by cultivating them.—*Newburyport Herald.*

A state of things something like it, existed at the close of the war with England. Then, by the Embargo, the War, the peace in Europe and the peace here, every thing was unsettled. So now, by the Australian and Californian gold discoveries, by our annexations, war and treaties, and by the numberless swindles and speculations to which they gave birth, every standard of value is shaken, every regular industrial pursuit disturbed—and the poor are ground between the upper and the nether millstone.

NEW YORK.—Saturday's Journal of Commerce says:—

"It will be seen by our report of Legislative proceedings yesterday, that the Assembly concurred in the Senate's amendments to the Liquor Bill by a vote of 80 to 45. A motion was then made to reconsider the vote, which motion was lost. This completes the legislative action on the subject, and as Governor Clark is known to be in favor of the bill, he will of course sign it, if he has not done so already, and it will thus become a law."

The Evening Express of the same date says:—

"There is much feeling on the subject among many whose pecuniary interests are immediately affected, which is likely to go on increasing between now and the time the law is to go into effect. An appeal will be made to the Judiciary to test the question of constitutionality—and if the State Courts will not pronounce against it, it is thought a Federal tribunal will."

Apropos, the New York correspondent of the Baltimore Sun, says:—

"The first public demonstration against the Maine liquor law, it seems, will be made on the very first day it goes into operation—the 4th of July. Arrangements are making for a meeting in Madison square, where a mock declaration of independence will be read, so worded as to exhibit such legislation in the same light as the legislation of George the III."

Very likely: and the whole company will probably give a beautiful illustration of their independence, by getting gloriously drunk on the occasion. By the way, the Fourth of July has always been the most drunken holiday among the Americans. St. Patrick's Day among the Celts may be on a par with it, but can hardly go beyond. The wine and spirit dealers of New York will hold a large meeting next week to concert measures for the protection of their interests.

☞ The North American Review for April, is received from the Editor.

Of the ten elaborate and regular articles, the Arctic Search, the French Colonists in North America, and Judd's Life, were specially interesting: but the Critical Notices, in their manliness, impartiality and freshness, are among the most valuable features of this old familiar periodical, now so happily rejuvenated. We read the North American regularly for twenty years; then had a vacation of we forget how many; and now, beginning again, find our old friend not only in a new dress, but living a new life.

☞ The American Monthly Magazine for April, is just received from the publisher, James S. Tuttle & Co., Boston. It is a well executed, interesting Monthly Magazine,—American in its authorship and in its principles. The April No. has an engraved likeness of N. P. Banks, jr., as a frontispiece. Price of the work $2 per annum, 15 cents single.

THE PHRENOLOGICAL JOURNAL for April; and the Water Cure Journal for the same month, are received from the publishers, Fowlers & Wells, of New York. The former contains a likeness and notice, with Phrenological sketch, of Florence Nightingale, the female philanthropist and head nurse in the English Hospitals in the Crimea: also a likeness and notice of Nicholas, Emperor of Russia, deceased.

☞ Mrs. Anne Senter, a Boston lady, wife of Mr. W. H. Senter, formerly of this city, has recently made her appearance on the stage in Boston. She was announced at the Museum on Tuesday evening, to appear in the "Mysterious Stranger," in which she sustains six separate characters.

Dr. Smith says: The tale-bearer and the tale-bearer should be hanged up together, back to back, the formed by the tongue, the latter by the ear.

LOCAL.

☞ The closing Lecture of the Mechanics' Lyceum Winter Course, was delivered on Tuesday evening, by Rev. T. W. Higginson, of Worcester, Mass. on the Old Puritan Clergyman.

The lecturer showed his thorough acquaintance with his subject, and enriched his lecture with many items of Puritan History, gay and grave. He was not a mere eulogist of the puritan clergy, but exhibited their virtues and their failings with commendable impartiality.

THE CONCERT THIS EVENING, at the Temple, by Mrs. Wentworth, assisted by Mr. Arthurson and the Quintette Orchestra, promises to be one of the best musical entertainments ever offered in this city. The artists engaged for the evening are well known to the musical community of the country, and need no special commendation from us. We hope Mrs. W. will be greeted by a large audience, on this her second appearance in her native city.—She certainly comes with most flattering commendations from every quarter; and with most excellent aid. The price of admission is lower than is usual at such entertainments.

THE DEFENCES OF HAVANA.—A Havana letter to the New Orleans Bulletin says:—

"We have now this Island in a perfect state of defence—on a war footing—no less than 80,000 men armed and equipped, ready to spill their last drop of blood in defence of what they consider their rights and their government. There is one great fact that speaks volumes in favor of the volunteer militia; it is this: over $200,000 have been required to be spent in the different parts of the Island to equip, (uniform, &c.,) the militia, and every cent of that money has been willingly and cheerfully spent by the volunteers as they enlist. Havana alone goes in for a share of nearly one-half that amount."

FATHER CULLON.—A despatch from Oxford, N. Y. April 9, says,—This afternoon Father Cullon was held to bail, with several others, in the sum of $1000, to keep the peace. He has also been served with a writ from the Supreme Court, at the instance of his countryman, who claims private damages. Much excitement still prevails. More arrests are to be made, and more fighting is expected.

WAR'S DOINGS.—The dashing 93d Highlanders, the pride of the English army, left Constantinople 800 strong, and after their arrival in the Crimea received an addition of 150 men. This gallant regiment has recently returned to Constantinople, reduced to 14 men and 5 officers, though still bearing with them their glorious and unsullied banner.

NEW YORK, April 10.—The Washington correspondent of the Times asserts that a most decided demonstration is to be made against Spain. That Com. McAuley is furnished with instructions calculated to bring matters to an issue, and that as strong a naval force as can be spared has been ordered to cruise in the neighborhood of Cuba.

Gov. Clark signed the Temperance Law last evening.

COLUMBIA, S. C., April 9.—Eight of the crew of the ship James Chester, abandoned at sea, arrived at Savannah on Saturday last, in the Dutch ship Two Friends, and were taken into custody on suspicion of having murdered the captain.

BALTIMORE, April 10th.—Capt. White of ship James Chester, has arrived in this city. He denies all knowledge of the augur hole, and says the vessel was water-logged when she was abandoned.

TRENTON, April 10th.—At our municipal election, yesterday, the Know Nothings elected all their candidates.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Kittery, April 5. eod2w*a9

HARTFORD, April 9.—The democratic party nominated a union-ticket, against the know nothings, which was supported by the anti-k.n. whigs, at our election to day. This ticket is elected, with the exception of the old clerk, Henry Francis, who succeeds on personal considerations alone, by about 100 votes. The union-ticket carries four of the six Aldermen, and thirteen of the twenty-four Councilmen, making nineteen anti-k. ns. on a joint ballot in the Council. The k. ns. have been routed in this city on a full vote.

VIRGINIA.—WISE'S PROSPECTS.—The Richmond Whig of the 5th inst., brings us the particulars of the municipal election which took place in that city on the 4th inst. The telegraph reported that the majority for Mayor, the K. N. candidate for mayor, was only 246, but it appears by the Whig that his majority was 1,256. The largest Whig majority ever given in the city of Richmond, was 841. The vote stood as follows: Joseph Mayo, K. N., 1,971; J. D. Munford, Dem., 715.

The Know Nothings have also elected Wm. D. Branch, mayor of Lynchburg, over Biggers, Independent, by 288 majority.

These elections would seem to indicate that Wise's chances to be Governor were growing beautifully small.

PHILADELPHIA, April 9.—Marshal Murphy, of this city, with a posse of officers, went this afternoon to Springfield, Delaware co., and arrested a party of twenty-five persons, principals and accessories in a prize fight that was going on there. The principals were Daniel Smith and John Smith, who were held to bail in $1000. The others were held in bonds of $500 each

CINCINNATI, April 9.—The new city government was organized and went into operation to day. Mayor Farran announced in his inaugural his determination to enforce the city ordinances.

The funeral of Munroe place yesterday and passed off quietly. About one thousand persons joined the procession.

LOUISVILLE, April 9.—At our municipal election on Saturday the Know Nothings swept the whole city by a tremendous majority. Barber the Mayor, and all the municipal officers, except one trustee and two councilmen are K. N. On the liquor question, the anti-liquor party had a large majority. The election passed off quietly.

Woods' Nurseries.

THERE are offered at these well-known Nurseries, this season, an unusually large number of FRUIT TREES of all descriptions. The collection of standard PEARS is very large, numbering, probably, more than any other Nursery in the State, and embracing over one hundred different kinds which have been proven adapted to our soil and climate. 3000 Pear trees on Seedling Pear roots, many of them being in a bearing state. 10,000 Apple Trees, forty varieties, from three to six years on the bud. 1500 Cherry Trees, a good selection from two to four years old; besides Dwarf Pears and Plums—many desirable kinds. When desired, selections will be made for those ordering trees by mail, for doing which we offer an experience of twenty years

TIME REDUCED.

THE Meeting for the sale to come off April 16, instead of June 5.

Those who would secure a Fortune in Real and Personal Property for $1 00, NOW is the time to invest. One half of the Shares already disposed of, and with the increasing demand the Shares will all be taken up before the day of the meeting. It is called by competent judges the best sale of property ever offered in New England, and is patronized by all who would make safe investments.

For particulars, see list of property, on the statement of which you may safely rely, without the slightest doubt, as I give as good men as there is in the State for Reference.

The time is short, and those who would secure a Share will send in their orders, post paid, at once, to R. SMALL, Office No. 9 Central Block, Biddeford, Me.

N. B.—All unsold Shares, and all Money for Shares, must be sent in or before the day of meeting, to secure an interest in the sale.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, is equal to nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, removed, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

James Wilson, who was the first maker of artificial globes in this country, died in Bradford Vt., on the 26th ult. aged 92. He was of the Scotch-Irish race, and was born in Londonderry, N. H. He made his first globes at his shop in Bradford, but afterward carried on the business in Albany. When over 80 years of age he made with his own hand a Planetarium which finely illustrates the revolutions of the earth, bringing day and night, with the regular changes of the seasons. He took great pleasure in philosphical and astronomical studies and by the aid of his books and own observations had made highly creditable proficiency without the aid of other teachers. Being strictly temperate in his habits and keeping his mind always at work, he retained both his physical and intellectual powers admirably, to the great age of 92 years, and was altogether *himself* to the last.

FROM CAPE TOWN.—Her Majesty's discovery ship Enterprise, Capt. Collinson, from the Arctic Seas, for England, last from Hong Kong, arrived at Table Bay Feb. 7. She has been absent over five years, having sailed with her consort, the Investigator, from Plymouth Jan. 20, 1850. The latter was left abandoned on the ice in Mercy Bay. Only 8 men had died out of a company of about 70 on board, and the state of the health of the crew has been remarkably good. The Cape Town Advertiser observes that the problem of the North West passage has been solved. There is a passage, put nobody can pass it except on foot.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21ST, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clap boards, in a very superior manner, without *tearing* the thin edge.

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

HEATS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HEATS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HEATS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, and, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Get all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URSINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URSINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

A TOTAL WRECK.—On the first of January, 1854, a gentleman doing business in this city was worth, with what he had invested in business, 111,000. At the same time he was blessed with a lovely and intelligent wife, beautiful and promising children. He was surrounded by friends who esteemed and respected him. His business was lucrative and promised to continue so. Indeed his position as well as his prospects were seemingly all that he could desire to render his happiness perfect. How complete the wreck which the year closed upon! The first misfortune was the transfer of merchandise to the amount of $18,000 to a California dealer, for which not one cent was ever received. The next were two successive robberies, by which $25,000 were lost. Soon after this, the unfortunate made an investment in real estate to a large amount.

The next and crowning misfortune was a trip with his family to Europe. They embarked on their return, with thirty-eight thousand dollars in goods, on board the steamship Arctic, and all shared her luckless fate! In settling up his affairs, his real estate was sold under the hammer at a sacrifice of forty thousand dollars, making the aggregate loss of his property during the year, $118,000, eight thousand dollars more than his assets. His friends were obliged to make good the deficiency! Was ever destruction more complete? Father, mother, children, and fortune all gone—swept from the face of the earth—nothing left to show that they ever existed! We doubt whether, among the many wrecks which the past year has witnessed, there has been among them one more melancholy than this.—*New York Courier.*

THE CALIFORNIA PIONEER.—The Boston Traveller truly remarks:—A sad story is that of General Sutter, a man noted for his benevolence, but now reduced to poverty. The first gold found in California was discovered in the race of his mill, and soon, thousands of squatters had "prospected" upon his possessions. With a "hand open as the day to melting charity," he relieved the wants of all. We are told that the aged patriarch, guiltless as a child, and totally wanting in commercial tact, unsuspectingly confided his secrets, his business, even his property, to any one who by an affectation of interest, or a hypocritical show of assistance, offered themselves to his friendship. One after another, thousands of his broad acres slipped from his grasp; he placed his affairs in the hands of an agent who deceived, deluded, and finally robbed him of some hundreds of thousands of hard dollars; his property dwindled down to merely a tithe of what it had been, and the old man's sorrows were heavy upon him.

In this condition he put a farm, his sole remaining support, into the hands of his son, who proved worse even than strangers, and robbed him of this last possession. He is now reduced to all but begging, but awaits the decision of some commissioners in respect to a land claim.

Poor Sutter: a man of many noble qualities, generous, brave and hospitable, but careless and convivially intemperate.

"SILENCE—THE PRIMITIVE DISCOURSER."—The Boston correspondent of the New York Christian Inquirer, in the course of an interesting letter suggested by visiting the bones and pieces of coffin exumed on the site of the old Quaker burial ground, in the rear of the Transcript Building, mentions the following incident:

We attempted with a friend of ours to hear something new, a few years since, as we were sojourning in Philadelphia for a sabbath, and we attended a Quaker meeting. Our sermon was more ancient than the one recently preached in Lynn by Rev. Mr. Cook. That was preached to the same church two hundred years ago. Ours was older than the creation. Silence was the text, silence was the preacher, silence was the sermon. We were silent, though not solitary worshippers. It was one of the most eloquent discourses we ever listened to, and much more so than some we have heard. The belief of the Friends is, that silent worship is often quite as useful and improving to their spirits as the most eloquent preaching.

ROBBERY BY A BARBER — CHLOROFORM USED.—Thursday evening last, the 15th inst., a gentleman named Pleasant Field, who was returning westward from Elmira, New York, where he had just before effected the sale of a farm in Wisconsin, with the money, over fourteen hundred dollars, chiefly in bank bills, in a package in his pocket, being detained at Dunkirk a few hours, put up at the Loder House. During the evening, about ten o'clock, he went into a barber's shop, under the hotel, to be shampooed and shaved. He sat down in the chair, having previously taken off his coat for the purpose of having the sleeve cleaned by the barber, and removed the package from the side pocket of the coat to his pantaloons pocket. Soon after the negro had commenced the shampooing, Mr. Field complained of feeling suddenly sick, and on the barber's assuring him that he would put something on his head that would cure him in a minute, he got out of the chair and lay down, as directed. He woke up at three o'clock the next morning perfectly unconscious of what had occurred in the meantime, and minus his money and everything else that he had in his pocket the evening before. The fluid used by the barber in rubbing Mr. Field's head was undoubtedly chloroform, as some was found in the shop the next day —*Cleveland Herald, March 22.*

The Halifax Morning Chronicle of the 3d says: Copious vernal showers fell on Sunday last. These have had the salutary effect of extracting most of the little frost that was in the ground, greatly to the benefit of all concerned in an early season.

Morning Chronicle.

THURSDAY, APRIL 12, 1855.

For the Chronicle.

THE FEDERAL CONSTITUTION.

Some fanatical abolitionists have brought reproach upon the Constitution by often publicly asserting that it guarantees slavery. Indeed the Southern statesmen have labored to maintain that erroneous position. As, some among us may believe it is true, because often affirmed in public meetings, we state that the words slave or slavery are not found in the Constitution. Had its framers intended to guarantee the institution, the omission of those words would have been singular and unnatural. We have good reason to believe that with such a guarantee, the Constitution could not have been adopted, and that the prevailing idea at that time was, that slavery in our Union would soon come to an end. The truth is, that the Constitution contains but three allusions to the subject, without using the express words. The first relates to direct taxes and the three fifths representation "of all persons." That was a contract or compact among the then existing States, under which the slave States now unjustly have twenty three representatives in Congress, but as a mere nominal sum has been assessed as direct taxes, the consideration of the compact failed. But representation is no guarantee of slavery. The second allusion to the subject authorized Congress to prohibit "the importation of such persons," &c., meaning to abolish the slave trade, after 1808. An act abolishing the trade was passed. That was the reverse of a guarantee. The third allusion is to persons (which includes apprentices) held to service in one State, escaping into another, &c. We admit that this is an odious clause; but as it stands in the Constitution, it would be a dead letter without the legislation of Congress, which now many of our most eminent statesmen and jurists hold is unauthorized by that instrument. Congress has no right to legislate upon the subject. The *States* are prohibited from passing any law discharging the person escaping from such service. We say that the odious clause is no guarantee of the institution of slavery within the States where it exists, or the great mass of slaves there, for it relates only to the comparatively few persons held to service, who have the good fortune to escape, and in respect to these, we deny that the States to which they escape, are under any obligation to return them to their masters although the latter may capture them if within their reach; and the States shall pass no laws to discharge the fugitive from service. We therefore deny that this clause is a guarantee of slavery, or that it imposes an obligation upon the free States to return the fugitive. But such an obligation is found only in the unconstitutional statutes of Congress. A guarantee of slavery would have been an eternal disgrace to the memories of the republican patriots and sages who framed the Constitution, and to the age that sanctioned the work of their hands.

STRICT CONSTRUCTIONIST.

LIQUOR PROSECUTIONS.—The Mayor of Manchester, N. H., has caused the following notice to be printed, and sent copies of it to all persons engaged or supposed to be engaged, in the unlicensed sale of liquor:

MAYOR'S OFFICE,
CITY OF MANCHESTER, April 7, 1855.

SIR:—Satisfied that the illegal sale of intoxicating liquors is highly injurious to the best interests of the city, and ruinous to the welfare and happiness of many individuals and families; and knowing that a large portion of the inhabitants are dissatisfied with it, and impatient under the burdens which it imposes on the community;—that they are desirous and anxiously expecting the constituted authorities will promptly exert the power vested in them to suppress the same; and being ourselves desirous to bring about so desirable an object without resorting to stringent measures, or putting any one to the cost of prosecution;—we have chosen this friendly method of requesting you, if in any way connected with the business, to abandon it forthwith.

And we wish you distinctly to understand that all persons who shall hereafter be found engaged in the illegal sale of intoxicating liquors in this city, will be prosecuted according to the provisions of the law.

T. T. ABBOT, Mayor.

GREAT BOOK BUSINESS. — Messrs. Ticknor & Co., of Boston, and the Harpers of New York are about to have a great united, but not consolidated, book establishment, in New York, where an order for *all* publications, foreign and domestic, can be filled at once, and put into one bill. F. & Co. will also keep up their present business in Boston, with the new facilities afforded by the connexion.

☞ Hunt's Merchants' Magazine for April, among other articles, contains an essay on Money, which is worth more than a year's subscription to the book. Freeman Hunt, editor and proprietor, New York.

For the Chronicle.

Messrs. Editors:—Reading the article in your journal, over Americus, our attention was turned to that provision of the Constitution upon which the present fugitive slave law is based.

"No person held to service or labor in one State under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due."

Now does it inevitably follow, or does it follow at all, by any logical inference, that the black person enslaved by the South, is such a person as is plainly indicated by the makers of the Constitution, in this provision? Is the Chinaman a slave, who pays in service, according to contract, the ship master who brings him to this country? Were those persons who before the revolution emigrated to this country, and bound themselves by similar contracts of service, slaves? No, it cannot be proved by the strict constructionists; even Senator Wells, armed as he is by Presidential patronage, backed as he is by the U. S. Treasury and all the National power, spiritual and material, cannot do it. What, then, is the true inference? Why that this fugitive slave law stands upon a fictitious construction, and before the sunlight of truth vanishes, like the "baseless fabric of a vision," or as when the foggy atmosphere of the lower law clears away, and the inspired genius of American liberty asserts her inherent and inalienable rights in a *free* interpretation of her glorious Constitution. Now please turn to the second section of the first article of the Constitution, and you will find the basis of population upon which national representation is founded, to include the whole number of free persons; also, those persons bound to service for a term of years, who are the very persons meant by the framers of the Constitution, in the above provision, and not the three fifths of all other persons, whom the South now hold as slaves. This is evidently the meaning; no persons are to be included in the enumerated basis of representation, but such as are *persons* who have a human soul with its *essential* attributes, free will and freedom of action. From no other source, they were well aware, could a vote come, which was to sustain the government which we contend they meant *alone* to establish; even a government founded upon free votes, and free voters. It will follow, inevitably, then, that the South have no right to count slave votes. If they choose to hold the slaves, they must give up the votes. This would satisfy the North now; and the awful responsibility of human slavery, of man converted into an article of property, would fairly rest with them, where it rightfully belongs. Then if they consider this kind of property in any way profitable, for raising cotton, sugar, or coffee, and can hold it by their State laws, we cannot make any available political objection. But certainly, as to profit, it does not come within the reach of any system of political economy with which we are acquainted.

SAMBO.

CARE AND SAFETY.—Dr. Chadbourne, of Concord, N. H., in a report on Small Pox, last year, said,

It might prevent much panic and alarm, if it were more generally understood how very limited is the sphere of contagion around any individual case of small pox, however malignant, *provided the necessary ventilation and cleanliness be duly observed*,—that it actually extends but a small distance from the patient, probably but a few feet, and that the physician in attendance, *when proper precautions* are used, is never known to communicate the infection to others. There can be therefore no possible danger in passing near the house, or even entering, by any one, if the room occupied by the sick be not entered.

It should also be understood that, although vaccination affords perfect immunity from all danger of small pox, yet its effects on the system *may*, after a lapse of years, become weakened, or, as some believe, *worn out*. No one therefore can have perfect assurance that his system is so protected, and that he can safely expose himself to the contagion except by re-vaccination. For if at any period of life a person becomes again susceptible of the action of the vaccine virus, he is equally susceptible of the virus of small pox, and if exposed would be liable to take the disease. Hence the propriety of *re-vaccination* at adult age of all who have only been vaccinated in infancy or early childhood.

THE NEXT EXPEDITION TO LIBERIA.—Our next expedition will sail from Baltimore and Norfolk the 1st of May, when all applicants for passage to Liberia, the expenses of whose emigration and six months support in Liberia have been provided for, will be comfortably accommodated. The exhausted condition of our treasury prevents us from offering a free passage in this expedition to any applicants. Sixty dollars for each emigrant (the lowest average rate at which emigrants can be sent and supported six months in Liberia) will be expected.—*African Repository.*

BOUNTY LAND APPLICANTS.—The commissioner of pensions has made an important decision, in which he draws a distinction between distant and actual service in time of war. The decision is to the effect that a person who was in the military or naval service of the United States during any of the wars in which this country has been engaged since 1790, is not entitled to bounty land under the act of March 3, 1852, if he was not at the seat of war.

LOCAL.

FIRE.

On Wednesday evening about 9 o'clock, a fire broke out in a cluster of wooden buildings near Bow street. In the rear of No. 18 Bow street, machinery had recently been put in for a sash and blind factory; and a steam engine was placed in the Dorr Bakery, adjoining, to carry both the baker's machinery, and that of the sash manufactory. The fire began in the cellar near the engine; and in about an hour destroyed the bakery, a barn adjoining, the building occupied as the sash factory, and a back building attached to Gerrish's brass foundry, containing patterns. The contents of these were all destroyed. The back part of No. 18 Bow street, belonging to John Trundy, was also burnt, but the contents were saved. Mr. Trundy's loss was small, and he was not insured.

Mr. Gerrish's loss was about $300; insured $150.

Mr. Dorr's loss is at least $2000, without insurance.

Favored by the wet weather, the engines, when after some delay they got to work, kept the fire within bounds; but had the night been dry, the result must have been disastrous. It is proper to say, however, that the fire department was in a transition state, many of the firemen being new men, and the new board of Engineers being assembled for organization when the fire broke out.

☞ On account of the storm, Mrs. Wentworth's Concert was postponed from Wednesday evening to a time hereafter to be named.

THE BURNS CASES.—During the arguments, on Tuesday, on the motion to quash the indictments, Judge Curtis intimated that part of the indictment which charges the assaulting and resisting U. S. Marshal Freeman, without stating the process, could not be sustained.

Mr. Hallett resumed his argument Wednesday morning against the motion to quash the indictment. After Mr. H. had concluded, Judge Curtis, after a consultation with Judge Sprague, intimated to Hon. J. P. Hale, who was to make the closing argument, that as at present advised, the Court did not consider it needful to hear any reply to Mr. Hallett's argument. If on further consideration it should be necessary, the Court would hear him to-morrow morning. Further proceedings in the case were therefore adjourned to that time.—*Boston Transcript.*

HISTORY OF STRUGGLES FOR LIBERTY. The Boston Chronicle reports Senator Wilson's Lecture on Slavery. We copy the following paragraphs to show the tone and temper of the whole.

In 1832 the New England Anti-slavery Society was organized; the American Anti-slavery Society followed in 1833. It seemed as if liberty was about to arise and assert its rule; but the South took the alarm. Bribes were offered for the leaders of the movement. Excitement prevailed, and the stillness of night was broken by acts of violence by men who cared not for the laws of God or man. In Canaan, N. H., 300 farmers assembled with 100 yoke of exen and removed a seminary of learning, because colored pupils were received there. In Connecticut a law was passed prohibiting colored people from coming into the State for the purpose of attending free schools. In Massachusetts the doors of Faneuil Hall were opened on petition of 1500 merchants of Boston, who sneered at the Anti-slavery movement, and passed resolutions expressive of their views upon the subject.

He also alluded to a meeting of ladies being disturbed and the ladies mobbed by excited pro-slavery men; to the election of a Governor who recommended that there should be no discussion upon the subject of slavery; and to the slavery excitement in the West. Frank Pierce had said there were no advocates of the Anti-slavery moment in New Hampshire, except a few priests, a few women and children, but he presumed that President Pierce thought differently now; allusion was made to Texas, the Missouri Compromise, and the great agitation and change in the popular sentiment upon the passage of the Nebraska bill. He spoke of the great changes which had taken place in New England, referring to the result of the last election. The action of the present Legislature has proved the words of the Senator who said that freedom was national, and slavery sectional. He said there was danger to the Anti-slavery movement; it is exposed to seductions by other parties. He alluded to the death of the Whig party, and said the elevation of the Democratic party was not because the people loved the party, but because they hated its rival.

If anybody believes that they can organize a party to do what the Whigs and Democrats could not do, he would commend them to the guidance of those who seek sites for insane hospitals. Whatever party lifts a finger to repress the progress of the Anti-slavery movement, that moment they will begin to die. The days of proscription are over. The lecturer spoke of the duties of the party, and added, in conclusion, "The time for extermination of dough-faces has come—for the extermination of Whig dough-faces, and Democratic dough-faces, and above all the extermination of American dough-faces; and if there are Anti-slavery dough-faces, their extermination also."

The speaker was frequently applauded.

The Picton Chronicle says:—After the universally mild weather in the early part of the season, the winter seems to have settled firmly upon us, there being fewer indications of spring now, on the 29th of March, than there was in the middle of February, but as the wild geese have made their appearance in considerable numbers we may look for an early break up of the ice.

The printing of the Protestant Bible, which had been commenced in Madrid, has been prohibited by the Spanish authorities. Such is the religious liberty allowed in a thoroughly Catholic country.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M.D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope it will be better known and more generally used."—(See advertisement in another column.)

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

BALTIMORE, April 10.—The underwriters of this city have received from Wilmington, N. C., a copy of an affadavit made by two of the crew the derelict ship James Cheston, alleging that the auger holes were bored by the captain and mates; that there was no necessity for abandoning the ship; and that part of the crew refused to sign the captain's protest when they were offered $100 to do so.

The underwriters have applied to the District Attorney for a writ to arrest Capt. White on the statement of one of the crew, that there were but thirteen inches of water in the hold when the ship was abandoned. He also states that the fresh water on board was good and plenty, and that the crew were well. The log book states that there was seven feet of water in her, and that she was water-logged before she was abandoned.

OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,
AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.
Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."
The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.
I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.
It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston.
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.

The last "Kladderadatsch" (the "Punch" of Berlin) has a very apt illustration of the fatal peninsula of the Crimea in the form of a huge dragon, into whose wide-opened and destructive mouth, the four armies of France, England, Turkey and Russia are marching with headlong pride and confidence, with all their stores and treasures. Underneath is the motto—"Friedeernahrt, Unfriede verzehrt;" "*Peace nourishes, war devours.*" What better argument could be desired to prove the follies and the miseries of war, than have been furnished by the history of this campaign?—*Newburyport Herald.*

NEW YORK, April 10th.—THE POOLE MURDERERS.—In the Court of Oyer and Terminer, this morning, Judge Cowles denied the motion to quash the indictment against Irving, Morrissey, and others, concerned in the Poole murder. The counsel for the defendants gave notice that he should move on Thursday for all the defendants to be admitted to bail.

Intelligent Californians say that the decision of the Supreme Court in favor of Col. Fremont's land claim, will be of little avail, since the land is now occupied by 1500 squatters, engaged in mining, desperate and armed men who would oppose to the death any interference with their operations. The authorities would sympathize with the miners.

HO! FOR THE BIG COFFEE POT!

THE subscriber begs leave to say that he may be found at his old place of business No. 18 Daniel street, and is prepared to execute all orders in his line of business satisfactorily as heretofore, all kinds of Tin, Sheet Iron and Copper Ware made to order, in the most thorough and workmanlike manner. IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crooked* or *knotty* material, to these machines, as it is impossible for them to *tear* or *shave out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing* the thin edge.

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Gross Pens will contain a label with a fac-simile of the Manufacturers' name.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PAINFUL OR SCANTY MENSTRUATION, FLOOR ALBUS, OR WHITES; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OR Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly respectable Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URINARY CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that from the use I have obtained cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URINARY CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced one gale from the W. and had occasion to use it several times, and on every occasion it worked finely."

INTERESTING NEWS FROM UTAH AND THE MORMONS.—We have dates from Great Salt Lake City to Feb. 7th.

The Eastern Mail arrived at Salt Lake City on the evening of Feb. 6. This arrival brought intelligence of the appointment of Col. Steptoe, as Governor of the Territory, Vice Brigham Young; Harris, Secretary, vice A. W. Babbitt; and some other changes. The news took the Mormons by surprise, but it was thought no open opposition would be exhibited.

On New Year Day quite a serious collision took place between the United States soldiers and the citizens, at a drinking shop. Firearms were freely used, and seven or eight persons were shot, but fortunately none of them were killed. Two of the soldiers were severely wounded, and for a time it was thought they could not recover. The Mormons ordered out the "Legion," threatening to destroy the whole battalion of United States troops in the city under Colonel Steptoe. The three companies of United States troops were paraded under arms, — they strengthened their position, and waited the assault of the "Legion," which was every moment expected. The state of *quasi* warfare lasted for three days, when calmer counsels prevailed and hostilities ceased.

The Territorial Legislature of Utah, at their late session, passed an act organizing Carson Valley into a County of that name. They had appointed one Styles as District Judge, and Orson Hyde as Probate Judge of the County. From the temper of the inhabitants of Carson Valley, very few of whom are Mormons, and most of whom have applied to be incorporated into the State of California, it is probable these appointments would be received with little favor. Styles is notoriously incompetent, besides being very dissipated. Orson Hyde is President of the "Twelve Apostles," and is one of the leaders of Mormonism. Among other legislation was the passage of an act called the "Gift Law," by which the faithful are to vest all their real and personal estate of every kind in Brigham Young! It remains to be seen whether Congress will tolerate such outrageous legislation in one of the National Territories.

AN INGENIOUS STRATAGEM.—On Thursday night last, between 1 and 2 o'clock, in Baltimore, a gentleman was aroused from his bed by a man dressed like a watchman, who informed him that a friend of his had been arrested by the watch for a breach of the peace, and that the friend had sent for him to come and be his bail. The gentleman knowing his friend to be a very exemplary man, supposed that something extraordinary must have occurred to cause him to be in a lock-up. He took all the money he had in his house with him, $45. At the time it was raining very hard, and procuring an umbrella, he started for the station-house, but he had scarcely got ten yards from his door, when two men rushed out of an alley, and before he could cry out he was gagged and thrown upon his back, after which he was dragged up the alley, where he was robbed of all his money, and a gold watch valued at $50. After robbing him, they tied him to the latch of a gate and decamped, going in the direction of the Belair road. No other violence was offered him. After kicking with his feet against the gate for some ten minutes, the inmates of the adjoining houses were aroused and came down and released him. It is needless to say that his friend was not in the watch house, and that the person who called upon him was not a watchman.

TOOK HER WITH HIM.—It will be remembered that last fall the editor of the Green Bay Advocate, (Wis.) during his absence left his wife to edit the paper, and that she being a whig, took the democratic ticket down from its columns, and wrote some energetic whig editorials. The editor it seems has been called again to the capitol, and through his substitute, announces as follows, on Mar. 22:

Our editor has gone to Madison, and in order to make a sure thing of it, and prevent the appearance of any more whig editorials, has taken his wife with him.

LOCATION OF HELL—*the new doctrine.*—The New York Post reports a curious sermon delivered on Sunday week, at the Roman Catholic Church of the Annunciation, in Manhattanville, by Father Walworth, a son of ex-chancellor Reuben Hyde Walworth, of Saratoga. Father Walworth is one of the comparatively recent order of the Redemptionist missionaries of the Latin church, whose members are already scattered throughout the United States. The topic of his discourse "was the location and torments of hell. He undertook to demonstrate that hell was situated in the inside of this earth, commencing about twenty-one miles from the surface, where granite begins to melt. He also affirmed that heat was the predominant characteristic of this abode of the damned, and illustrated the proposition by reference to the uniformly high temperature of everything which had reached us from that quarter of our globe."

NOVEL RELIGIOUS MOVEMENT. — Gerrit Smith, Beriah Green, and a few other spirits of that order, have lately been holding a meeting of several days at Oswego, to adopt measures to break up all old religious denominations and organizations, and build up a new system of their own, to take the place of every other. They hold that all sectarianism is wrong, that there should be but one universal church, and that honesty should be the only test required to entitle a person to the rights of membership, and so on.—*Argus.*

Morning Chronicle.

FRIDAY, APRIL 13, 1855.

NUNNERY COMMITTEE.

We have been much amused, we can hardly say edified, for several days in succession, in reading columns and columns in the Boston newspapers, about the deeds and misdeeds of the Nunnery Committee, so called.

The legislature, in its wisdom, appointed a committee with full powers to visit and inspect all nunneries and convents in the State. A part of the committee, six only, taking with them about ten other legislators not of the Committee, went, in two omnibi, to a little establishment, half school and half asylum, kept by seven Sisters of Charity, in Roxbury; this establishment the committee, proper and improper, examined pretty thoroughly, but did not find any thing very bad—except that they have since found themselves in a bad predicament between the talking newspapers and the offended Sisters.

We have read all the newspaper accounts, pro and con, the legislative proceedings, and finally, the Lady Superior's testimony, and the statement of the Sisters. And a sillier affair than the whole of it, we never read.

The right of the legislature to inspect the private school has been doubted, though a school is not a dwelling house as some assert. But there is no doubt at all, that the *volunteer* committee men were entirely *unauthorized*, and performed a gratuitous act of espionage.

But next, What harm is done? Certainly not much, that we can see. The visitation, if it was wrong, as we think, was a misdemeanor only, not a felony. An action of trespass would lie; but no jury would give more than six cents damages.

The Lady Superior was offended; (as all such ladies are apt to be touchy;) the five sisters who happened to be at home were agitated; and the children (scholars) were frightened.

The ladies, who say they are not Nuns, but only single sisters, sign their fancy names thus: MARY ALOYSIA, *Superior*; SISTER JULIA; MARY JOSEPH; MARY CLEMENT; SISTER PERPETUA.

These, of course, are not real names, any more than those of Mrs. Partington and Uncle Toby; but the lady Superior swears and testifies by her *nom de guerre*:

They say,—One of the undersigned was at her devotion in the small room fitted up as a Chapel, and, not having been notified of the presence of the Committee, until they entered there, she may have been somewhat agitated, and endeavored to leave the room by a door which happened to be locked, when one of the Committee laid his hand on her shoulder and desired her to answer certain questions which she did for a few moments, but declined further conversation in that place, when he followed her into the entry and continued the questions, taking in his hand the rosary suspended from her person, in a manner more familiar than she had ever been accustomed to.

Another of the Committee informed one of the undersigned that he had formerly been a Catholic, but had left that Church, to which he hoped to return, and desired to know when he could see her and have a *pleasant conversation*; but as the vows of the undersigned confine their efforts to the teaching of young ladies, no appointment could be made for the purpose desired.

One of the sisters went to the chamber of a sick scholar, and advised her to appear to be asleep when the men came.

With regard to the young lady who was ill in her bed, the Superior stated that before leaving the parlor, she informed the gentlemen that a young lady lay ill in her chamber above, and begged them to *pay particular attention*; she supposed they would understand how to interpret the remark, "pay particular attention." When she arrived at the door of the chamber where the girl was lying, she again stated the fact, and remained by the door. Several gentlemen came about the door and looked in over the bed; one entered; the girl felt his breath on her face. The girl also saw two gentlemen looking at her through another door, who for the purpose of the view must have leaned over a bed placed against it.

A Mr. Hiss, one of the Visitors, called himself *Evans*, at the school, as the Superior testifies; so that fancy names seemed to abound.

But Mr. Hiss says it is all a mistake, and that the Lady Superior asked him who was the chairman of the committee, to which he replied "Mr. Evans."

In the course of the testimony of the Superior, at the State House, was the following:

Question—Was the Chapel *invaded*?

Answer—A large number of gentlemen entered of their own accord, and startled the sister at her devotions.

Q. Was there any loud talking there?

A. There was.

Q. Was there any shrinking of ladies in terror?

A. We were all very much frightened; and the sister in the chapel endeavored to escape as fast as possible as soon as she found herself surrounded.

Q. Did you think the place *desecrated*?

A. *Yes*, by the *talking* and the *noise*. *We* never speak there, unless it be in a *low whisper*.

The witness further stated that the sister in the chapel was so much terrified that "she shook all over, like a leaf." The talking in the chapel was loud, as an ordinary conversation in a common room.

In answer to a question from Mr. Samuel May, the witness stated that she felt grossly insulted by the behavior of the party, especially their conduct in the chapel.

The boarding school contained a dozen girls only, but the teachers were also connected with a day school kept under a church. The whole institution appears about as harmless as such a school can be.

The Visitors were evidently rude and ill-mannered; and the inmates, used only to an artificial, constrained and superstitious life, were sadly interrupted and offended by an occurrence which a corps of Yankee school ma'ams would have used as a laughing stock after the clowns had departed.

The Lady Superior, on the first day of the examination in the legislature, made oath to the statement signed by the five sisters; but on a subsequent day she testified that neither she nor they wrote the statement, and would not tell who did. She testifies also that she knew only those of the transactions which she relates of herself, though she had, as above, made oath to the whole statement.

In the statement, they say,

"They are not Nuns, nor is the institution under their charge, in any sense, a Nunnery. They are free to go and come as they please, under suitable regulations."

Yet, Sister Mary testifies that she considers their house a Convent.

This is not really a contradiction, though to some protestants it may appear so. To a well informed Roman Catholic the two terms differ widely. These sisters, who go out and mingle with the world, in keeping a day school, are not near so holy or sacred persons, as a nun, shut up for life, and devoted to religious seclusion.

Mr. Chapin called attention to the remark of the witness, "we don't go about from one *convent* to another," and asked if she considered the institution at Roxbury a convent? She replied that they sometimes spoke of it as a convent in familiar conversation; properly it should be called a boarding school.

The fact that she called it so at the visitation, shows that a committee of protestants were fully justified in believing and treating it as such.

Miss Crabb, the sick girl, testified to the door of her little chamber being opened, and said,

Men looked in at my door, and I felt their breath as they stood so near; the man looking over me said, 'this is nothing but a sick child;' heard the Superior asked if there were boys in the school; I was very much afraid; did not turn in my bed to see who was over me, but knew it was a man because the breath smelt like cigar smoke; do not know that there was more noise made than was necessary, for a large number of men.

Mr. May of Roxbury was one of the extra visitors, invited to go, by the committee, on his own request. He testifies—

I saw nothing unbecoming during the visit; heard no rumors against the institution, and do not know that any exist; thought none of the inmates were alarmed; I was one of the first who entered the school-room, and the children seemed quite pleased; heard no screaming, and saw no indications of fright; I was not near enough to the sick room to cast my breath into it; on my remarking that 'twas the sick room, the party withdrew without approaching it.

My reasons for wishing to join the party were of a private nature, as I have a sister in a convent, and I wished to see how such an institution was conducted. My sister is in a convent at Emetsburg, Maryland, and I have never been able to see her since she entered; she first went there to school, and I believe is kept in the convent against her will; my brother and myself went to Baltimore to see her, but were there informed we could not have an interview with her, because we were hereties; she has written me several letters, but I have not answered them, believing that my letters would not be allowed to reach her. Her letters were not signed by the name she had with us. It is the same institution from which Miss Bunkley escaped; my sister has been there fifteen years; I do not think she went there freely.

Mr. Holbrook of Weymouth testifies that the visitors were in the house from twenty to twenty-five minutes; that they did not keep their hats on in the chapel, nor speak what he called loud there; that he saw nothing improper in the committee's conduct, and saw no alarm among the inmates.

We cannot very well resist the conclusion, that the sisters and scholars are a great deal more alarmed and troubled *now*, than they were while the visitors were in the house, when one of the girls told a sister, "the house is full of Know Nothings."

Very like a farce, the whole of it; and if we must name it, we should call it "Much ado about nothing."

THE POPE'S OPINION OF THE KNOW NOTHINGS.—Pope Pius IX. in his allocution, delivered in the Secret Consistory at Rome, on the 9th of December last, thus speaks:—"We have still to lament the existence of an impious race, who would exterminate all religious worship, if it were possible for them; and we must count amongst them, before all, the members of secret societies, who, bound together by a criminal compact, neglect no means of overthrowing the Church and State by the violation of every law. It is against them assuredly that the words of the Divine Redeemer are directed: 'You are the children of the devil, and do the work of your father.'"

It seems clear that none but Tyrants need be afraid of secret associations. Tyrants wish to monopolize all secrecy for themselves; but the noblest minds have no need either to covet secrecy or to fear it.

LOCAL.

CITY COUNCIL.

THURSDAY, April 12.

ALDERMEN.—*Petitions presented.*—For sash doors in Brick Market—referred to Ald. Yeaton and Dearborn.

For Hadley's company to play the Reformed Drunkard on Saturday evening—leave to withdraw.

For license to keep a billiard room in Congress Hall—leave to withdraw.

For a plank walk in Water street—referred.

For $500 more school money to Dist. No. 1—referred.

Several bills were approved; among them one of Mr. Hatch, of $35, for defending Marshal Hanscom's case.

COMMON COUNCIL.—An ordinance defining the duties of the city solicitor, was presented and referred;

Also, a petition to appoint S. B. Lord a surveyor of lumber.

☞ Mr. Dorr's loss by the fire of Wednesday night, was much larger than we stated—about $5000. He had just put in a new and powerful steam-engine, and bread-making machinery, of great value. Mr. Wm. B. Lowd 2d, an enterprising an skilful machinist, also sustained a heavy loss—said to be $1000 or more. He had just fitted a shop for the manufacture of circular knitting-looms, attached to Mr. Dorr's engine; and most of his tools, with stock, &c. were ruined. All who have enjoyed the beauties created by Mr. Dorr's enterprise and good taste, regret this disaster on other accounts than the loss of property. The slated roof doubtless preserved his splendid mansion from further harm than a severe scorching. We hear the buildings will be rebuilt forthwith. Mr. Dorr endeavored to insure his premises on Tuesday, but the risk was considered too great.

☞ It will be seen by an advertisement in another column, that Whitehouse's New England Bards are again to favor our citizens with one of their popular Concerts, on Tuesday evening next. Many persons were prevented from attending their last Concert by the snow storm, which occured that evening.

☞ Mrs. Emma Wentworth's Concert is to take place early next week.

CARD.—We tender our sincere thanks to those Gentlemen who rendered us their invaluable assistance at the fire on Wednesday evening; also to Misses Potter, Goodrich, Downes and Grant, for their kindness and assistance; also, those noble, generous and heroic Firemen will please accept our kindest thanks for their noble exertions.

Wm. Downs and lady will please accept our heartfelt thanks for their sympathy and entertainment on that eve.

* JOHN STOKELL & LADY.

CARD.—Laconia Engine Co. No. 2 tender their thanks to AMOS T. GOODRICH, Esq., for the bountiful supply of refreshments furnished them at the fire on the night of the 11th inst.

a13* WM. B. GROGAN, Clerk.

CARD.—The Engineer, Officers and Members of Atlantic Engine Co. No. 6, tender their sincere thanks to AMOS T. GOODRICH, Esq. for refreshments furnished on the morning of the 12th.

Teachers' Institute.

ROCKINGHAM COUNTY.

TWO Sessions of the Institute will be held in the County, this Spring. The first at HAMPTON, commencing Monday, April 30. The second at CANDIA, (probably,) commencing Monday, May 7; each continuing one week.

The services of Prof. Russell, Dr. Cutler, and other experienced educators have been secured for both sessions. a13 1w

INDICTMENTS QUASHED.

In the U. S. Circuit Court, at Boston, on Thursday, Judges Curtis and Sprague, quashed the Indictments against Martin Stowell, for treasonable assault on Marshal Freeman, in the Burns case.

The result is, that the motion to quash the indictment for the cause that it does not appear therein that any offence was committed, must be allowed.

Whereupon the District Attorney entered a *nol. pros.* upon the other cases, viz: of Phillips, Parker, Bishop, Higginson, Proudman, Morrison and Cluer. So end the treason trials, unless Mr. Hallett chooses to go before another Grand Jury.

The prisoners were all discharged.

This finishes up all the Burns cases,—except some indictments in the Municipal Court, for breaking the Court House door.

HOW ESTEEMED BY PHYSICIANS—JOHN A. BERRY, M.D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VERMIFUGE PULMONARY BALSAM is best, and I hope it will be better known and more generally used."—[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and C. H. KINGSBURY, and sold by the Drug. gists throughout the United States. 2m a2 d&w

BALTIMORE, April 11th.—Captain White and the two mates of the ship James Chestou, Messrs. Chason and Packwood, have been arrested and held to bail for a future examination, on the charge of barratry. Several of the sailors, who belonged to the vessel, testify that there were only thirteen inches of water in the hold; that none of the crew were sick, that there was plenty of good drinking water on board, and the vessel was in good condition at the time of her abandonment. The sailors, who have arrived at Wilmington, have been arrested as witnesses. Rum is said to have been the cause of the abandonment.

At the city election at Hagerstown, Md., the Know Nothings elected all their candidates by a majority of 600.

KANZAS ELECTION.—A telegraphic dispatch received yesterday from Kanzas, says: A majority of pro-slavery members in each house of the Legislature of Kanzas, have received certificates of their election. Gov Reeder, it is said, recognizes the right of the Legislature to decide cases of contested election. The Governor leaves in a few days for Washington.—*St. Louis Republican, 7th.*

WASHINGTON, April 11.—At the Treasury Department today $1000 worth of U. S. stocks were received for redemption.

The government makes but poor headway in getting suitable vessels to reinforce the Gulf squadron, and poorer still in getting men to man them.

SMALL CHANGE TO THE CRIMEA.—Seventy five tons of coin have been engaged as part of a cargo of a vessel now loading here for Constantinople, and the shippers, it is said, have 45 tons more, which they are anxious to engage. It is all in kreutzers, (the copper coin of Germany) nearly equal in value to our cent, and comprises a collection made, probably, from the money brought out by emigrants. It was taken by the vessel at $8 per ton freight. When it arrives the Mussulmans will be well supplied with 'small change.'—*New York Ex.*

A French clergyman, the Abbe Laborde, has published a pamphlet which makes a great noise in the religious world, entitled "A Memorandum of the Opponents of the New Dogma of the Ineffable Bull." The author, immediately on his arrival at Rome, in November last, presented a petition to the pope against what he terms the "profane novelties" intended to be enforced upon the church. The only answer made by his holiness was a summons to attend the *Segretaria*, and there, in a dark chamber, he received from a monk the order to leave Rome immediately. He did not obey. Ultimately, and after being compelled to appear before the Inquisition, he was conducted by gendarmes to Civita Vecchia, and there put on board a vessel bound for France.

A CLERGYMAN WITHDRAWN.—J. H. Tackett, a Methodist clergyman, of Forrestville, N. Y., has withdrawn from the Know Nothings, "because the obligations of the Order bound him to vote for second degree members, and for those only," under pain of expulsion.

He must be a greenhorn who supposes himself *bound* to vote for or against any body. And expulsion from any voluntary body is but a bull without horns.

☞ The Independent Democrat says,—The report in the Boston Post, of Governor Metcalf's illness, is entirely without foundation. In a letter dated April 10, he writes us that his health "has not been better for twenty years."

LAWNS.—The trade in New York is still backward; Dunnell & Co's. are held at 11 a 11 1-2 for small figures; and 12 a 12 1-2 for more elaborate styles, on the Portsmouth and Hadley Falls cloths.

BURLINGTON, VT., April 11th, 3 P. M.—Snow to a depth of fourteen inches has fallen since last evening. The ice on the lake opposite this place is breaking up, and the crossing is consequently unsafe.

BUTTER FOR BOSTON.—The Detroit Advertiser states that on Monday last a provision dealer in that city forwarded fifteen tons of Wisconsin butter for Boston.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS,

AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, is the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Peaslee, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. R. Arnold, formerly Governor of Rhode Island, now member of Congress.

WONDERFUL IF TRUE.—A man applied to Station No. 3 for lodgings, last night. He gave his name as Willam Densmore, and said that he was 100 years 7 days old; was surgeon in the army during the revolution, and served under Gens. Washington, Sullivan, Wayne, Gates, and lastly under his father. He says that he has been engaged in 37 battles during his long career, and that at the battle of New Orleans he lost a brother, and at the battle of Chippewa, under Gen. Scott, two more brothers fell for the glory of their country. Sullivan states that he was born in Worcester, Mass. If this story is true, (and some people are rather inclined to doubt it) he would be a valuable companion for our historians.—*Boston Tel.*

Some of the Western Evangelical clergymen publish a card in the Peoria Press, stating their grief at having allowed the celebrated Dr. Achille to take up contributions in their churches, for the distribution of the Bible in Italy; when the said Dr. Achille is a Swedenborgian. A terrible offence surely. They had better do penance by eating no meat for the remainder of their lives.—*Newburyport Herald.*

ANOTHER "ROSARY."—The Traveller states that at South Boston, on Sunday last, a woman, while under the influence of delirium tremens, took it into her head that the devil was in her stomach, and to pacify him attempted to swallow her rosary. The cross at the end was too large for her throat, and she was nearly strangled, when the beads were drawn out by a person who chanced to be with her.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21ST, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, wrest-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PARTURIUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URINARY CATHOLICON, I respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that in no case I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URINARY CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *excessively*, and at last was *entirely disabled from attending to my usual pursuits.*

. . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Hill street.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The fo lowing is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

THE EFFECTS OF SALERATUS.

Dr. Alcott, in a letter to the New York Tribune, represents Saleratus, which is so much used in some preparations of pastry, as a poison. There is a plausibility in the opinion, theoretically, that a substance possessing such powerful alkaline affinities as saleratus and pearlash, should be inimical to the organic structure of the gastro-intestinal mucous membrane; and, upon absorption, to the circulating fluids and vital forces generally, if taken in any considerable quantities.

Dr. Alcott says:—

SIR:—In a former number of this paper I alluded to the use of Saleratus in modern cookery. I have not hesitated to pronounce it an efficient agent in the production of that most alarming infantile mortality which prevails. Your readers know, perhaps, that we lose about 300,000 inhabitants of the United States every year; and if they have read all that has been written on the subject within a few years, that in my opinion not a few of these children might have survived had it not been for the effects of saleratus.

Some individuals have doubted the truth of my suggestions — they have seriously questioned whether saleratus is really poisonous. Such individuals may be interested in the following statements and facts:

I had been lecturing in North Adams, Mass, on diet and regimen. At the close of the lecture Rev. Robert Crawford came to me and inquired whether I was not fond of collecting facts; and when I replied in the affirmative, he gave me a particular account of an incident in Williamstown, which is only four miles from that place.

In 1835 a lady in Williamstown took about fifteen boarders—chiefly if not wholly young men attending college at that place. She was ignorant of fashionable cookery, but knew *rich* food was generally preferred. She had heard of saleratus, and that by many cooks it was freely used. Accordingly she procured a quantity and freely used it. The warm biscuit were so full of it as not only to give them a yellow or burnt appearance, but also to render them bitter or nauseous to the taste. Many other articles were filled with it in like manner. In endeavoring to make light puddings, she used so much of the article as to make them almost as heavy as lead. The students called these puddings by the name of 'specific gravity,' and when they wished for a slice, would asked to be helped to some of the 'specific gravity.'

After the lapse of a few months, a disease broke out among these students, so severe that many believed it to be contagious. Of the whole number, thirteen were confined for a long time; the fourteenth slightly affected for a few days. The house became known as the pest-house—two of the patients died, and another barely escaped death. Eleven finally recovered.

The individual who wholly escaped the disease was Prof. Tatlock, now of Williamstown college—the one slightly affected was Rev. Mr. Crawford, my informant. The latter had no doubt—never had any—that the disease was caused solely by the saleratus. I saw Prof. Tatlock subsequently, and he confirmed the statement of Mr. Crawford. It appears that these two ate very little of the food which was so filled with saleratus, and seldom tasted the biscuit.

I also saw and conversed freely with Dr. Sabin, one of the two principal physicians who attended at the "pest-house" during the sickness aforesaid, and who is still a practising physician in Williamstown. He told me that, to the present day, neither he nor his associate, Dr. Smith, had ever entertained a momentary doubt that the whole trouble was caused by Saleratus.

The nature of the disease was somewhat peculiar; but in every particular gave indication that the citadel of life had been attacked by no mean or powerless enemy. The bowels lost their tone, and there was great muscular prostration. Blisters applied to any part of the system, were sure to be followed by almost immediate mortification of the part. In short, the disease was one of the most severe ever known in that region.

But, if the *most excessive* use of this irritating substance is liable to produce such terrible effects, can the *less excessive* use of it, which almost everywhere prevails, be entirely innocuous?

Many tell us they do not use it to excess, though they are well aware that many others do so. But so it is with almost every abuse.

I have seldom, if ever, met with a person who would confess to the error of *tight lacing* —though I have met with thousands who knew that such an abuse prevailed all around them.

I was recently taken to task by a venerable housekeeper of this commonwealth, for saying that the use of ten or twelve pounds of saleratus in a family in a year, was by no means uncommon. Why, said she, I do not use so much in my great family. How large is your family, madam, I inquired. It consists of ten persons. And how much saleratus do you consume yearly? A pound will last me three weeks, she replied. Well madam, that is between seventeen and eighteen pounds a year. She was surprised, and said she did not use so much—that a pound would last her nearly four weeks. But this, to her surprise, was thirteen pounds a year.

There can be no doubt but that the sub-inflammation of the alimentary canal, which the habitual use of this alkali induces, both in adults and children, is one cause of that dread mortality which prevails among the latter; but which in summer and autumn, when other causes co operate, proves peculiarly alarming. For my own part, I can hardly resist the full conviction that of the 300,000 above mentioned who die prematurely, at least 100,000 might survive but for the effects of saleratus

Morning Chronicle.

SATURDAY, APRIL 14, 1855.

THREATENED INVASION OF CUBA.

In violation of our treaty of amity and commerce with Spain, there seems to be no doubt that a piratical expedition is fitting out in some of our southern ports for the invasion of Cuba, and it is stated, will sail immediately after hearing of the safe deposit of arms at a small island in the vicinity. These things are as well known to our administration as to the authorities at Cuba, and yet the former adopt no measures to suppress the lawless expedition. On the other hand, it may be inferred from the Ostend Conference, and more recent instructions of our Secretary of State, that the administration, acting in subservience to the slave power, views the expedition in a favorable light; for a letter from Havana states that Secretary Marcy has instructed the acting United States Consul there to notify the Captain General of the island, that "if one drop of American blood is spilled *in the present crisis*, the government of the United States will not be answerable for the result." It would be idle to contend that Mr. Marcy has reference only to shedding of the blood of our citizens engaged in lawful commerce—there is no danger of that—and the threat was made at Ostend, that if Spain should refuse to sell the island, it would be wrested from her by lawless force—a force, as pretended, which our government would be unable to restrain. Under all the circumstances, Mr. Marcy's instructions to our Consul must be considered as a bold and audacious threat—disgraceful to our national character. "Should one drop of American blood be spilled, in the present crisis," our government would not interfere *against* the fillibusters, or attempt to destroy the military forces which may be fitted out for the piratical capture of the island. It would wholly disregard our treaty, and the law of nations. If the instructions do not imply this, "in the present crisis," we know not what other construction they will bear.—Should the American fillibusters effect a landing, and one drop of their blood is spilled, such would be the exasperation and excitement in our Southern States, that our whole naval force would be unable to cut off additional lawless expeditions! And therefore the inhabitants of the island are advised to passive submission to the invaders!

But the lawless threat will not be heeded. The Spanish, French and English forces at and near the island, are prepared to give the fillibusters a warm reception. And our federal government, by such conduct, may speedily involve our country in all the horrors of war. There is too much reason to believe that such will be the result, for which the administration *ought* to be answerable. That it is in the power of our government to prevent the spilling of one drop of American blood by giving proper orders to our naval commanders, no one can doubt. But nothing has been issued, except a deceptive, empty paper proclamation. A. B.

We do not exactly share in our correspondent's fears. Nevertheless, we give his warnings a place. Cuba, beyond doubt, is better armed, and better watched by sea, than ever before. Still, she is ill at ease: restless spirits move in her own bosom,—not the slaves, for all the whites prey upon them,—but the creoles are uneasy, and well they may be.—Yet they, like many other sufferers, do not see *all* the causes of their disquiet.

Cuba, one of the best countries in the world, is afflicted with slavery, priestcraft, and kingcraft, each as intense and malign as possible. Spanish pride, slavish ignorance, and popular superstition, characterize the island, which our fillibusters propose first to conquer, and then to annex as a State. What valuable citizens the people of Cuba would make.

We expect to hear that the fillibusters are defeated and captured; but we are not yet prepared to expect a war on their account.—Still it may be so; we have seen scoundrelism and fraud enough among fillibusters and their sympathisers, to prevent our being astonished at any amount of it hereafter.

WHEAT AND FLOUR.—The Rochester Advertiser receives from a miller of that city, who has made a thorough examination, a statement of the surplus wheat in all the region of country in the West, whose products will find an Atlantic market through the several routes of Buffalo, Oswego and Ogdensburgh. This shows the aggregate of wheat to come forward this spring is not over 1,500,000 bushels—equal only to about 300,000 barrels of flour. This is exclusive of the amount to come from Canada, concerning which we have no definite information, though we believe it will be found pretty large. In any event the prospect for cheap bread is not very flattering.

Truly; and therefore farmers in New England should raise and eat their own Indian corn, much better and more wholesome than fine flour, though the latter costs at least double. Indian corn besides, furnishes, in its leaf and stalk, the best possible fodder for cattle.

FREE SCHOOLS.

Messrs. Editors:—Permit me to call the attention of your readers to an extract from the Report of our High School Committee, that we, as a community, may be led to reflect upon the injustice and cruelty of the prejudice against color, which we are still cherishing in our midst.

"The African School is still taught by Miss Clark, who has not diminished her interest in her labors, although the number on whom they have been bestowed is small. The number now in regular attendance on this school is only *two*, the expense of whose tuition is about $80 each a year. Cannot some less expensive instruction be found for these children?" Again—"The African School is kept in a room unfit for any human being, where the sun is excluded throughout nearly the entire day, and where the water has entrance both through the roof and the door."

One almost involuntarily asks on reading such paragraphs, Where are we? Under what system of government do we live? Can it be possible that a christian community in the nineteenth century will tolerate such an outrage upon the plain, simple teachings of Christ? For one moment let us look candidly at this question, and let us place ourselves in the circumstances of our aggrieved and injured citizens, who by this wicked prejudice against color, are exposed to provocation and insult and discomfort everywhere,—in our streets, our lecture rooms, our school rooms, and our churches. Now this state of things will continue just so long as separate arrangements like that of our African School are permitted. Let distinct accommodations, apart from all the rest of the community, be provided for the vicious and for the disturbers of the public peace; but let us no longer bring reproach upon the sacred name of christianity by permitting innocent children to be set aside as unfit to associate with the community at large, because of the color of the skin. One of the darkest features of American Slavery is its demoralizing influence over the public sentiment of the nominally free States; and this influence is clearly seen in the return of the hunted fugitive, the building separate pews in our meeting houses and separate school rooms, for our colored citizens, and in various other ways. "If ye have respect to persons, ye commit sin." JUSTICE.

For the Chronicle.

SOUTH MILL POND.

The City Authorities will do well to make early preparation for the removal of the nuisance occasioned by the South Mill Pond.—Whether it be at the expense of the city or the owner may be a question; but at all events it should be attended to before the weather becomes too warm to remove the offensive matter.

The following plan has just occurred to my mind, and is offered for consideration. Take one half of the flats next to the channel, or more if necessary, and throw them up on those next the shore, until they become so high that the highest tides shall not overflow them. This can easily be done without diminishing the quantity of water, and at the same time give the owner or the city, whoever it may devolve upon to perform this labor, sufficient land to pay all the expense of labor. C.

Messrs. Editors:—Now that the ice has fairly left the South Mill Pond, is not this the time that it should be cleared thoroughly, before warmer weather; so that the nuisance of the effluvia therefrom may no longer prove a disgrace to our city? Many men are still complaining for want of work;—cannot the city here provide it? And are there not many farmers in the vicinity who would be glad of this opportunity of providing themselves with manure, merely for the hauling? A LOVER OF GOOD AIR.

A NOVELTY.—Petitions for all kinds of curious matters are at times presented to legislative bodies. The latest curiosity was a petition presented by one of our newly elected city officers, to the City Council, praying that the members would, after adjournment, take with him, a dish of Oysters at Freeman's.—The prayer of the petitioner was granted without a count.

☞ It will be seen by his advertisement, that Prof. Leon, a native Parisian and an excellent instructor in French, will open his institute on Tuesday next. For any information respecting it, apply to Mr. Shores.

☞ At the late term of the Court of Common Pleas for this county, on motion of W. H. Y. Hackett, Esq., Mr. Mark J. Dennett, of Kittery, Me. was admitted to practice as an attorney in the Courts of this State.

☞ Rev. Mr. Rice of Vermont, is to preach at the Universalist Church to-morrow.

CARD.—The subscriber returns his sincere thanks to the Fire Department and citizens generally for their energetic efforts to preserve his property from the flames on the evening of the 11th inst.; also to AMOS T. GOODRICH, Esq., for kind offices to his family, who were compelled so suddenly to remove from their home.
a14 JOSEPH A. DORR.

NEW ROUTE TO PORTSMOUTH.—Since the destruction of Piscataqua Bridge, by the ice, last winter, the little intercourse which we have had with our Portsmouth neighbors, aside from conveyance by Railroad, has been almost wholly suspended—there being no way of reaching that place except through Newmarket or Eliot, a distance of more than 20 miles. To remedy this inconvenience we understand it is contemplated to put a Horse Boat on the river at Dover Point—the ancient "Knight's Ferry" which was the principal travelled route sixty years ago. By this route the distance to Portsmouth will not exceed nine miles.—*Dover Enquirer.*

THE SLAVE OF THE LAMP.—We have received from Fetridge & Co. of Boston, *via* J. F. Shores, Jr. of this city, a 12 mo volume of 436 pages, entitled the Slave of the Lamp; by Wm. North. It is a novel of rare spirit and pith—original, exciting, wild and wonderful—but not impossible, and therefore not extravagant. The pen which produced it was one of uncommon power. Alas, that the hand which alone could wield it, now lies prostrate in the dust. The book will have a great run.

Published by H. Long & Brother, 121 Nassau street, New York.

The Journal of Commerce discloses a new attempt at extortion practised upon country clergymen. A lithographed letter is sent to some village preacher, purporting to have been written on Sunday by a person just returned from church, wearied with the "coldness and formality of metropolitan sermons," and who proposes to exercise his influence to procure "a call" from "our church" to the party addressed. The writer has heard his *protege* preach "once while passing through your place," and his exalted opinion of the "calm piety and deep perception of human nature," which that sermon evinced, has been recently confirmed by a "notice of you in the new publication of travels through the states." The writer concludes with a postscript, in which he offers to get the book referred to, for his correspondent, adding—"I believe it sells at a dollar and a half or thereabouts." The whole being a piece of ingenious rascality.

Clergymen who can swallow such a bait as this, must be so vain and soft as to make the cheat beneficial to them; though the scamp who plays the game deserves to be sent to the penitentiary.

MR SEWARD AND KANSAS.—A Washington correspondent says:

I understand that Mr. Seward will not oppose the admission of slave states from the territory lately covered by the violated and repudiated Missouri compromise.

To this the New York Tribune replies

We "understand" the very opposite of this, and venture to assure our readers that Gov. Seward will treat this Kansas election as the impudent swindle it manifestly is, and recognize no claims based on it to public employment, unless it be in the Penitentiary.

THE WETHERBEE CASE.—The Charlestown *Advertiser* says:

"The case of Dr. Wetherbee, charged with having committed adulteries in Essex county, has been patched up, and the prosecutor prevailed upon not to appear against him—so the case will not come into court again. We hear it said about town that the Doctor contemplates going west, but we cannot vouch for it."

☞ The Biddeford Union states, that the friends of the Maine Law have elected their tickets in every one of the ten cities in Maine. This does not look like re-action.

The Bishop of Bellay, famous for wit, said he was surprised at two things. One was, that the Roman Catholics, who say the Scripture is very obscure, nevertheless rarely explain it in their sermons; the other is, that the Protestants, who say that the Scripture is clear as day, nevertheless explain it always.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

FOUR DAYS LATER.

ARRIVAL OF THE WASHINGTON.

NEW YORK, April 12th.—The steamship Washington, from Southampton 28th ult., has arrived.

Nothing satisfactory has resulted as yet from the Vienna Conference.

The allies do not insist on the dismantling of Sebastopol, but propose other conditions disagreeable to Russia.

London Consols closed at 92 7-8 a 93.

Cotton was firm; sales for three days previous to the sailing of the Washington, 26,000 bales. Breadstuffs unchanged.

The Washington brings 130 passengers. At the time of her departure the Canada had not arrived out.

THE WAR.—By advices from Odessa of the 24th. it is stated that the Russians, notwithstanding repeated attacks, maintained their position on Mount Seporium, whence their guns play on the French lines and part of their camp.

The weather continued fine and the health of the troops was improving.

The advanced batteries of the British were making considerable progress.

According to accounts received from Russian deserters, the Czar's death had not been promulgated in Sebastopol.

On the 13th the Russians opened fire from the heights of Balaklava, but the English, assisted by Gen. Noyes, routed them. On the 17th, the Russians attacked the whole line of the allies, but were driven back with great loss.

Preparations continue to be made in Constantinople for the reception of the Emperor Napoleon. Meanwhile both the emperor and empress intend visiting Victoria about the 16th of April.

It is understood that the conference at Vienna had agreed upon the two first points, and that the third point, upon which peace or war hangs, the demolition of Sebastopol, then under consideration, was not to be demanded.

GREAT BRITAIN.—In the House of Commons the second reading of the bill to abolish the stamp duty on newspapers passed by a large majority.

The British Parliament agreed to Sardinia's request for a loan of two millions sterling. One million to be immediately advanced from the public treasury, the other in a year from hence if necessary.

The Madrid correspondent of the London Times states that the Spanish Cabinet have been discussing a strong note addressed to that government by Lord Howden the British Minister, on the subject of a religious basis, and it was a question whether the letter should not be returned to its author. Lord Howden got an intimation of this intention, and he threatened if such an insult were offered he would within six hours suspend all intercourse with the Spanish goverment. A satisfactory adjustment was looked for.

THE LATEST.—*Vienna, evening of the 27th.*—The state of the political horizon again becomes gloomy. The Conference of the previous day on the third point, was anything but satisfactory. Conditions very disagreeable were required of Russia.

THREE DAYS LATER.

HALIFAX, April 13.—Dates from Europe, to March 31, have been received by the America, at this port.

Affairs in the Crimea had undergone no change.

Public attention was wholly concentrated upon the Vienna Conference, which is represented as being in great difficulty upon the all important third point; so much so, that although the demands of the allies had been greatly modified, the Russian Plenipotentiary had referred the matter to St. Petersburg.—Nothing further could be done until a reply was received. The French Ministers of Foreign affairs has also been in London to confer with the English Cabinet upon this momentous question.

For Cotton an active speculative demand existed, and a buoyant tone prevailed.

Breadstuffs, except Corn, had slightly declined. Provisions slightly declined.

BALTIMORE, April 12.—Capt. White and the two mates of the ship James Cheston were held to bail. The mates charge Capt. White with deserting the ship without cause, and state that the vessel was in good condition when abandoned, and contradict the captain's protest in all the material points, although they signed it. One of the crew says "the whole voyage was a "bacchanalian frolic." The vessel was abandoned owing to the drunken insanity of the captain.

THE DEATH PENALTY IN WISCONSIN.—The House of Representives of Wisconsin, by a vote of 44 to 27, have restored the death penalty in that State. The Senate have yet to act upon the matter.

Blind or Bleeding Piles can be Cured.

READ the following letter:—

Take this along with you.—'Tis just what you want.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

DECREASE OF IMMIGRATION.—The great decrease of immigration is shown by the following statement of the number of foreigners arrived at New York, for the first quarters of three years last passed:

	1853.	1854.	1855.
January,	4,901	15,514	7,485
February,	11,958	4,446	6,123
March,	9,685	3,758	2,069
	26,544	23,718	15,677

An English lady lately arrived, with a blind husband, complains that she was induced to put up at a house in Water street, and soon after, a man entered her room, while she was in her night clothes, tied her hand and foot, and robbed her of 26 sovereigns, her marriage certificate and finger rings, and left her almost naked on the floor, where she remained nearly two days unreleased.—*N. Y. Mirror.*

The records of the commissioners of emigration show that of the 2069 who arrived during last month, 912 were from Germany, 445 from Ireland, 335 from England, 102 from France, 90 from Switzerland, and the remainder from other countries.

AN OLD VESSEL.—The British brig Brothers, a collier, was recently lost on Strangford bar, coast of Ireland. This vessel was built at Barmouth, in Wales, in the year 1752, and was, when lost, in her 103d year.

Rev. John Pierpont is 70 years old and has within fifty days travelled 4,060 miles, delivered 20 lectures, and preached 6 sermons.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very thin, *cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clap boards, in a very superior manner, without *tearing* the thin edge.

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

United States Bounty Land Agency.

Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres.

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will furnish the Judges of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary instructions and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and they entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for the curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb: FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL LEUCORRHŒA OR FLOODING; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been called with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIN, 28 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that utterly my physicians despaired of my life. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its operation:

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

MONDAY, APRIL 16, 1855.

ARCHBISHOP HUGHES, in a recent letter to the New York Courier and Enquirer, says:—

"If there be an intention among the public men of this country to disfranchise Catholics, to abridge them of their rights, in the name of all that is honorable, I would say let it be done by a manly and open declaration to that effect. If Protestantism cannot thrive in this country unless it have some one or more denominations to trample upon, as in Great Britain and Ireland, let it speak out candidly and make known the fact. If defamation in aggregate and in detail can accomplish it, the Catholics of this country will soon be degraded enough in the minds of their fellow-citizens. But even of this we should not have so much reason to complain if the purpose were openly avowed, so that all parties would have fair and timely warning. If that should be done, I have no hesitation in taking on myself to say, that so far as Catholics are concerned, immigration will soon come to a dead stand, and emigration will probably commence.

We like this open talk. The people of this country have had a fine opportunity, through Brownson's Review and the Roman Catholic newspapers, to witness and understand the anti-republican and despotic character and assumptions of the Roman Church: Not what ignorant or wicked protestants say of her, but what she says of herself—viz. that she is the only true—the infallible—the unchangeable—the supreme—above all temporal powers.—American Republicans dislike all this—and the conduct of the priesthood has increased their dislike.

Besides this substantial difficulty, there are others, founded on historical enormities and traditionary prejudice:—insomuch, that if Bishop Hughes's threat, or warning, that Roman Catholics may cease to come, and begin to go, would be hailed with delight by thousands of Americans, if they thought it likely to be realized.

It strikes us as particularly rich, that Archbishop Hughes,—of a church which has always *trampled* and *degraded* every denomination over which it has had power,—should cry out lest somebody else shall now trample the holy mother church.

NO DANGER.—Some people in the United States have gone almost into fits, for fear that Old Spain, at the instigation of John Bull and the—(don't mention him!)—should free the slaves in Cuba. But it appears that the Spanish Minister of State, Luzuriaga, has written a letter to the Governor General of Cuba, which ought to compose the nerves of those distracted patriots, who are the advocates, *par excellence*, of slavery everywhere.—Let them read the following extract, guaranteeing the blessed institution, and be comforted.

"As treason, the blackest of crimes, extinguishes in its authors every moral sentiment, it has, upon this occasion, been accompanied, as it always is, by its natural auxiliries—falsehood, corruption, and the purpose to commit assassination, *and the confiscation of the property of all faithful men*. But Divine Providence not permitting that crime should for a long space of time obscure the truth, the entire nation, legitimately represented by the Constitment Cortes, with the unanimous assent of all the Deputies, and in entire conformity with the manifestation, likewise unanimous, of all the Ministers of the Crown has just proclaimed, in the sitting of the 8th, the firm resolution of all to *protect property in the form and in the conditions which are proper to it in that portion of the monarchy*, recognizing explicitly that *one of the most essential is slavery*, to the end that slaveholders may have the preservation of their property assured to them by the national vote, and may count consequently, upon the efforts of Government, whatever that Government may be.

ANOTHER INVESTIGATION.—In the House of Representatives this morning, an order was adopted on motion of Mr. E. M. Goff, of Westfield, for a committee to investigate into the conduct of Joseph Hiss, Esq., a member of the House from Boston. The order was unanimously adopted. We presume the Hartford and Springfield matter, as well as the Lowell affair will now be looked into.—We learn that Mr. Hiss is recently from the rural districts. He came to Boston from Worcester county, and we believe is connected with a K. N. council at the North End.—*Boston Transcript, Friday.*

Mr. Hiss is in a fair way to use himself up. He is already the laughing stock, the by-word and hissing of the newspapers, which are making sport of a legislative committee appointed to inspect religious houses, behaving, some of them, like clowns or worse, in such a house; then going to a tavern and ordering strong drinks at the State's cost and against the State's law;—and then going, Mr. Hiss especially, to a public house in Lowell, where a Mrs. Patterson was feasted, mysteriously, at the cost of the State. The Mail does it up in verse, thus:

One William Patterson by name,
Is known where'er we go,
Because some Junius ruffian
Once struck him ponderous blow;
But all his former glory
We fear he'll henceforth miss,
For, greater than this William,
Is the Patterson of Hiss.

IMPRISONMENT FOR DEBT.—The Bee says a Boston merchant has, within the last three days, been seized "on suspicion of debt," and incarcerated within the walls of the Suffolk Jail.

LOCAL.

EUREKA!—Several times, within two or three years, we have wished to know, for purposes of comparison, how much, or nearly how much liquor, is sold in this city, or in some other place of like size. When the agency sale of a few hundred gallons in some town is mentioned, the statement is buited abroad as if it were a large quantity.

Looking over some old pamphlets, the other day, we came across a Report, styled, Statistics of Intemperance in Portsmouth. The report is signed by Messrs. Alfred W. Haven, Richard Jenness, Oliver Ayers, Joseph M. Edmonds, and John Knowlton; and may therefore be relied upon as a carefully prepared statement of facts.

The report was presented at a public meeting held by adjournment in the Temple, April 6, 1845, exactly at the point of time when the great moral suasion movement by the Washingtonians, might be supposed to have been doing its best for about three years.

They say:—

In the year 1844, eighty-two thousand nine hundred and eighty gallons of ardent spirit and wine, equal to 2,305 barrels of 36 gallons, were brought into this town.

From the quantity ascertained, one-seventh part, being the wine, may be deducted, which leaves 71,126 gallons; to which add fifteen per cent. or 10,668 gallons, as the quantity estimated to have escaped our investigation, and the sum total will be 81,794 gallons, or within a fraction, two thousand two hundred and seventy-two barrels. We disregard fractions of a gallon. The quantity brought into this port for the sloop-of-war, is not included in this statement. We are satisfied that fifteen per cent. is not too much to add to the amount positively ascertained.

There are thirty-four shops and seven taverns in which ardent spirit is sold by the glass. From exact inquiry in each individual case as far as was practicable, and from a fair and impartial comparison where inquiry was not practicable, we find that the quantity annually sold by these shops and taverns, is, at least, thirty-six thousand nine hundred gallons, equal to 1,025 barrels, and making an average of twenty-five barrels to each. We have no doubt of the correctness of this estimate, and propose presently to show some collateral evidence to convince you that no material error has been committed.

There are seven other shops in which spirit is sold by the gallon but not by the glass, excepting that some of them furnish regular customers in other articles, with a glass occasionally or periodically; their sales are estimated to average fifty barrels each. There are also two stores where the article is sold by wholesale—by barrel and hogshead; making an aggregate of fifty dealers in ardent spirit. So far as the consumption in town is concerned, the two wholesale dealers may be disregarded, because the amount of their sales will appear in the account of the retailers.

Deducting from 81,794 gallons brought into the town, 37,900 gallons which we state as the quantity used for the purposes of intoxication; and there remains 44,894 gallons, equal to 1,247 barrels, to be carried out of the town or used for medical and other purposes.

In 1845 the number of legal voters on the checklist was 1743; in 1855 it is 1968: population in 1850, 9700.

At the present time there are between 50 and 60 places of sale in this city—it is said about 55. It is probable that the amount of liquor in gallons is somewhat larger now than then; and it costs considerably more.

For the Chronicle.

Messrs. Editors:—As I am about to leave the city, I wish to communicate to your readers the following letters of recommendation, which will show my standing as a Minister of the Gospel:

JACKSON, ME., Sept. 6, 1854.

This certifies that Elder John N. Rines is a regular member of the Jackson F. W. Baptist Church, in good standing, and as such we commend him to the fellowship of God's people. When we are informed that he has united with some other evangelical church, we shall consider him regularly dismissed from this church.

In behalf of the F. W. B. Church in Jackson.
JAMES PATTEE, Clerk.

PORTSMOUTH, Feb. 1, 1855.

By request of the Rev. John N. Rines, it was unanimously Voted, that this Society give him an honorable discharge from his lawful engagement to preach at the South Church one year.

For order of the Society.
JAMES H. PARKER, Rec. Sec.

At a meeting of the F. W. Baptist Church, in the Hanover Street Chapel, March 29, 1855, it was unanimously Voted, that Elder J. N. Rines have a good letter of commendation from this Church—as follows:—That during our acquaintance with him—some two or three months—we have observed his daily walk and christian deportment to be of the first order; that his spiritual labors have been profitable, resulting in much good; that during our acquaintance with him, we have never seen in him, nor heard anything from him, in or out of the pulpit, unbecoming the character of a faithful, devoted and christian minister.

Given in behalf of the F. W. Baptist Church at Portsmouth, March 29, 1855.
CHAS. C. WEBBER, Clerk.

RELIGIOUS TREASURY.—A substantial and handsomely bound 8 vo. volume, of 420 pages, has been put into our hands, entitled, the Religious Historical Treasury.

It is a compilation of the records of important religious events, got up with much labor, and arranged in the order of time, from the birth of Jesus down to our own day. It contains some convenient tables; and is well fitted to interest and improve the minds of thousands who can never be expected to master or own the heavier books of Ecclesiastical History.

The selection of matter is generally judicious; giving such items of knowledge as all christian families ought to possess.

Copies may be had of Mr. John H. Bartlett, sole agent for Rockingham County. He will canvass this city and vicinity during the present week.

☞ Of course everybody will see the advertisement of Clarke's Bitters, in another column. The proprietor is one of the most comfortable appearing of men, and he left us a couple of bottles of his medicine, to improve *our* physical condition. Having found the article not bad to take, we called on neighbor Pearson, (who is a judge of good things in the housekeeping line,) for his opinion, and he thinks, after a taste of a portion of our two bottles, that he should have no objection to being appointed "tester" of a pair of 'em for himself.

Jere M Teague	William Cate,
John A Bown	John H Marden,

☞ Mr. Wm. W. Nason, of Great Falls proposes getting up an "Old Folks Concert," and has invited the singers and players of that town and vicinity to meet at the Congregational Vestry on Tuesday evening, 17th.

BUTTER.—The article of butter is retailing in our city for the moderate price of forty cents a pound. This is a serious matter for large families living on small means.—*Albany Argus, Thursday.*

It has been selling in New York at forty three cents per pound.—*N. Y. Com. Advertiser, Thursday.*

In Boston, a prime article of butter sells for thirty eight to forty cents per pound.—*Boston Journal, Friday.*

Good butter sells in Portsmouth for thirty to thirty five cents per pound.

☞ The Massachusetts House of Representatives voted on Saturday, 207 to 111, to remove Judge Loring from his office in the Probate Courr.

A BEGGAR WITH A WOODEN BABY.—A beggar woman came to the door of one of our citizens yesterday, apparently with a child in her arms, which she seemed to be soothing by endearing tones and gently waving it to and fro, as mothers are wont to do when their little ones are in trouble; she was at the same time weeping, and altogether the appeal was irresistable to the kind-hearted lady of the house; who gave her a good supply of food. As she handed it to her, the woman, in moving her arms to receive it, let fall—a stick of wood!—"What!" exclaimed the lady, "is this the kind of baby you are carrying about?" The beggar woman, who appeared to be intoxicated, cursed her like a vixen, and left to practice her imposition elsewhere.—*Chicago Press.*

NEW YORK, April 13.—The jury in the case of Holmes, charged with the murder of policeman Gourley, could not agree, and were discharged this morning. Nine were in favor of manslaughter in the third degree, and three for acquittal. Holmes, it will be remembered, was a candidate for Alderman at the time of the murder.

Ergo, killing a candidate is in New York city no crime at all, not even manslaughter in the lowest degree.

INEFFICIENCY AMONG NAVAL OFFICERS. A writer in the Evening Post says:—

"There are at this time in the navy of the United States one hundred and ten lieutenants unfit even to take command of a ship, seventy-five of whom are unfit to be entrusted as watch-officers, abroad or on home stations, and none of them would obtain employment in the merchant service in positions corresponding to those they hold in the navy."

Dancing and Waltzing Academy.

MR. SAMUEL LAMPREY

WOULD respectfully give notice to the citizens of Portsmouth and vicinity, that a Term for Young Ladies and Juveniles, will commence at his Academy, RECHAB HALL, the FIRST WEDNESDAY IN MAY, at 3 o'clock, P.M., and will continue on Wednesday and Saturday afternoons, for a period of twenty-four lessons.

Terms, $6 for the Course.

The Course of Instruction will include Waltzing, Waltz Quadrilles, Polka, Redowa, La Gorlitza, Polka Quadrilles, Polish Mazurka, Polke Redowa, Schottische, Eletzka Espagnole, Mazurka Quadrilles, Varsovianne, Highland Fling and Hornpipes.

Particular attention will be paid to the manners and deportment of pupils. a16

Bounty Lands.

THE Subscriber is now prepared to prosecute with the utmost promptness all Claims for Bounty Lands granted by the law of 1855, which gives ONE HUNDRED AND SIXTY ACRES to all the officers of the Army and Navy, Soldiers, both regulars and volunteers, Sailors, Marines, Flotilla Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who have served fourteen days in any of the Wars of the United States since the year 1790, and in the event of their death, to the Widows or minor children, unless 160 acres have already been obtained; and where warrants of less than 160 acres have been obtained, new ones will be procured sufficient to make up that amount.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

NEGRO COUNCIL IN WASHINGTON BROKEN UP.—The Washington Star says that great excitement has been caused in that city by the discovery that a number of colored people, most of them free, and all of good character, have been found assembled in and belonging to a council, the principal object of which was to purchase the freedom of a young woman whom her owner was willing to sell. The entire party was arrested, twenty-four in number, all but four being free. The law which prohibits the assembling of colored people, slave or free, the smallest fine of which is *five dollars*, was read to them, and each one was searched and questioned. The articles found were a Bible, Seneca's Morals, Life in Earnest, scraps of poetry in manuscript, the printed constitution of a society called, "The Daughters of Jerusalem," the object of which was stated to be "to relieve the sick and bury the dead;" a set of regalia; and a subscription paper for the liberating fund, upon which were the names of Hon. Gerrit Smith, $30, paid; Hon. W. H. Seward $5, Hon. J. R. Giddings $1, and also the names of several of the respectable citizens of Washington. Nothing whatever was found to implicate the negroes in crime, yet four of them were sent to the work house, one received *six lashes!* and the rest were compelled to pay a fine and cost of $5,58 each.

CREATING A DIVERSION.—The New York Evening Post intimates that the Washington organ of the Administration is fomenting trouble with Spain, in order to create what is called a diversion in the public mind, as a man, when a disagreeable topic is introduced into conversation, endeavors to change the subject. A war with Spain just now would wipe out political differences, &c. very speedily. But the organ of the American party at the seat of Government intimates that the Know-Nothings will not allow the wind to be taken out of their sails in this way. After three of the Ministers Plenipotentiary of our nation have coolly met in convention to discuss the readiest method of taking from another nation the most valuable portion of its territory, whether that other nation be willing or not, it is getting to be a little too late in the day for the first mentioned nation to talk about insults and outrages.—*Boston Chronicle.*

It appears from Kansas advices that not less than 2000 armed and drunken Missourians went into that territory to vote in the late election, driving the northern settlers from the polls, or forcing them to vote their ticket, on pain of immediate death. They now declare that they will hang the governor, if he dares disown this fraud. The Kansas Pioneer says, "we should like to see him dangling in the air by the neck." It does not yet appear what he will do; but it is most evident that blood will yet flow if these things are continued; and disgraceful above all it is, that this is the work of a United States Senator who at the last session was voted the extra compensation of the Vice President of the nation.—*Newburyport Herald.*

NEW ORLEANS, April 13th.—The steamer Prometheus has arrived with dates from San Francisco to the 24th March. Business is extremely dull, and prices have generally declined.

The prospects of the miners had improved in consequence of abundant rains, and the growing crops exhibited a promising appearance.

Wells, Fargo & Co. have resumed payment, and Page, Bacon & Co. were to resume on the 29th.

The failures of Dr. Wright and Adams & Co. are very bad and no hopes are entertained that they will be able to resume business.

The personal effects of I. C. Woods, of the firm of Adams & Co. are advertised for sale.

Ex-banker Robinson has been indicted for fraud.

THE METHODISTS are now the most wealthy denomination in the United States.—Circuit preaching in these parts is unknown. The scattered adherents have grown into large churches, and cathedral-like buildings with lofty spires, far sounding bells, organs, and tapstry-covered floors, have taken the places of the obscure cottages, and out of the way school houses where they used to exhort. The original conference has been divided into a half dozen, and each has its schools and societies, and its hundred preachers with all the titles and honors that the world bestows upon the prosperous. The name Methodist is more appropriate to this sect than formerly. There was much zeal and less method once; now all moves regularly and by rule.—*Newburyport Herald.*

Advices from Utah, state, that from difficulties growing out of a drunken row, the Mormon Legion were called out in readiness to attack the U. S. troops. The Mormons were surprised that Brigham Young had been superseded as governor, and while they would offer no resistance to Col. Steptoe, they would leave him alone, and manage their own affairs, so that he will be governor merely in name.—*Newburyport Herald.*

The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Peaslee, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

History of a Zoological Temperance Convention,

BY PRESIDENT EDWARD HITCHCOCK, D. D., LL. D.

CONTAINING THIRTY ILLUSTRATIONS.

Opinions of the Press.

A charming and instructive fable, and one that will implant good seed in many a youthful mind.—*Philadelphia paper.*

It is a good work, will make the boys laugh, teach them a good moral lesson, and many other things besides.—*Boston Weekly Telegraph.*

An amusing book, full of rich matter, worthy the particular attention of all persons interested in reforms.—*Boston Transcript.*

An extraordinary allegory, well illustrated.—The whole forms a peculiar, but forcible plea for sobriety.—*Watchman and Reflector.*

It is brimful of fun and temperance, with an occasional sly hit at some of the follies and evils besides those arising from the sale of alcoholic drinks.—*Congregationalist.*

AMERICAN AND FOREIGN OFFICE.
Agency for business with the Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantageous, in applying for Patents, superior to those offered to inventors by others, have made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof by him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can have avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much knowledge of the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & GLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unremitting efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS VITAE or Falling of the Womb; FLOUR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of the use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 33 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered extremely, and at times was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case, to any lady who will call on me at 67 Mill street.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expensethan any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

TUESDAY, APRIL 17, 1855.

PROSPECT OF IMMEDIATE WAR.

The Newburyport Herald of April 13th, publishes a long letter from its Washington correspondent, which as it bears some internal evidence of coming from one having knowledge of the Cabinet affairs, may be deemed highly important. It states that negotiations are pending with the Spanish minister at Washington, for the settlement of all our past and recent difficulties with Spain at once; and if such settlement cannot be had, the President will *"forthwith* vindicate our rights by *force of arms,"* and that he is "up to the occasion."

Our Congress has the exclusive right to declare war, yet the President, in violation of the Constitution, like one of his predecessors, intends to take that right into his own hands! The same writer also strongly intimates that the piratical expedition under Gen. Quitman will soon sail for Cuba, and expects the cooperation of a conspiracy in the island. In such event the President's *legitimate* forces would doubtless be united with the piratical expedition—all in violation of our treaty with Spain and the law of nations. We hold that if the Cuban authorities have violated our rights upon the high seas, as alleged, it is the province of Congress *to judge* whether the offences would justify a declaration of war, or whether we should, in the first instance, resort to reprisals. We do not learn that Spain has captured the property of our citizens, but she is accused of insulting our flag. *"Audi alteram partem,"* before we strike the blow, which would involve this country in the horrors of war with Spain and her allies. Threatened as Cuba is with immediate invasion by a lawless force, it may be that the law of nations, or, at least, the law of necessity, would justify her in ascertaining the *character* of any vessel hovering upon her coast. After ascertaining that, our vessels have been allowed to pass. How happens it that the American flag has been run up, *after* the discharge of several Spanish guns? Did the master intend to practice deception for the purpose of being fired at, and afterwards complain of an insult to our flag? That various kinds of pretexts will be resorted to, in order to bring on war, we have no doubt; for *the object* is to annex Cuba, *per fas et nefas*. The same writer, with an air of triumph, announces that the Know Nothings of Virginia will be defeated by 10,000 majority for H. A. Wise, and that "the infamous" K. N. party, North, will soon be prostrated, as the Southern K. N.'s now fully understand that the declarations of Senator Wilson were deceptive. The explanation is simply this, that the slave States are now convinced that the American party, North, cannot be brought up to the line to the support of their institution, and therefore a separation must take place, and, as a sequence, the latter will be prostrated. That the *support* of the institution would annihilate the Northern order, requires no argument; for no party can long stand arrayed against the almost universal popular sentiment. If the K. N.'s in Virginia are the supporters of slavery, the Northern K. N.'s will have no reason to regret their defeat. T.*

In reply to Uncle Toby, of the Portsmouth Morning Chronicle's attempt to enlighten the public upon nullification of the liquor law, take the words of John S. Cutts, a once renowned orator of that village. Said he—"If I import a hogshead of molasses from Cuba, and I choose to eat it with my beet, my carrot, or my potato—whose business is it?"—The argument of the gentleman proves too much—and if it proves too much it proves nothing.—*Boston Post.*

Which gentleman? John S. Cutts, or Uncle Toby? We think the former; for Mr. Cutts' *argument* does prove too much, if it proves any thing: If I choose to spend my evening in the tippling shop, then to rush yelling through the street, abuse my family and burn the house, whose business is it? This is Mr. Cutts' argument, exactly, as applied to the case in hand.

NATIVITY OF HISS.—Mr. Joseph Hiss, the committee man, is said by the Salem Register, to be, not a son of Massachusetts, but born in Baltimore, Md., April 3, 1826.

TERMINATION OF A CRIMINAL OFFENCE. The charge against Dr. Wetherbee of Charlestown, for a criminal offence in Essex county, has been settled and will not be tried in Court. It is said that he is going West.

That is to say, he has hired or bribed a female witness to keep away from Court, and not testify. He is wise in leaving. Others like him had better go also.

☞ On Thursday, 12th inst., at Manchester, N. H., Michael Gillis was brought before Justice Potter, charged with selling liquor five times, to Nelson Burrill. He was bound over, in $500 bonds, to appear before the court of Common Pleas, on Tuesday, 17th.

For the Chronicle.

HIGH PRICES.

Messrs. Editors,—The prices of all kinds of provisions are so extravagantly dear, that it becomes every man's duty to protest against this combination of speculators. This sin of extortion is creating in the minds of a very large majority of this county a spirit of rebellion, and if this state of things continues much longer, the people will *demand* provisions at fair prices, and if they cannot obtain them at fair prices, they will fancy they have a right and exercise a might to take them. If there was any necessity for these enormous prices, the people would not complain.

There is flour enough in this country to bread the whole world for one year; and I know of no one article which is really scarce. I am of the opinion that a *famine* would do some good.

Perhaps it would be best to offer $20 per barrel for flour, $1 a pound for butter, and in this ratio for all kinds of provisions; at this rate the markets would *all* soon be glutted, and prices would have to fall. Prices in this market:—Flour from $11 50 to $15; potatoes from $1 to $1 25; butter from 36 cts. to 40 cts.; cheese from 14 cts. to 35 cts.; beef from 12 cts. to 17 cts.; milk and *water* 6 cts. a quart; old milk, which is sold as new and unfit for use, 5 cts. per quart. HUMANITY.

☞ We buy the best of milk for 6 cts.—about the same price as 40 years ago. Breadstuffs and provisions are dear, sure enough:—but how to reduce these prices, is a problem yet to be solved.

ASTONISHING ELOPEMENT.—One day last week, a woman named Sulser, eloped from her husband's residence in Morgan township, Ohio, with a young schoolmaster named Pease, who had been teacher during the winter in the vicinity, and boarding at Sulser's house. The infatuated woman had lived happily with her husband for nearly twenty years, and was by him the mother of seven interesting children. She took with her her youngest child, an infant, (leaving six with her husband,) and about five thousand dollars in cash and negotiable notes. She was the daughter of a wealthy old farmer, who died about a year ago, leaving a very handsome property to her. The notes she took with her were given by the purchaser of a portion of the land inherited from her father, and were drawn in favor of her and her husband.—*Cincinnati Commercial, 10th.*

No use in being astonished. Some "fast" women don't show their speed on common occasions; but when they catch the bit and run, it is not worth while to pursue.

COAL VS. WOOD IN LOCOMOTIVES.—The Lowell News says: The Boston and Lowell Railroad Company have lately been making a trial with one of their locomotives of the relative value of wood and coal for fuel. The result of the trial is reported as follows:—The whole distance run was 2366 miles, of which 1868 miles were with freight, using one cord of wood in twenty-six miles, or 68 cords at $7, amounting to $476, and 598 miles with passengers, using one cord of wood in 30 miles, amounting to $199 51. Total expense of working by the use of wood, $615 51. The expense of running the same distance with coal, at the rate of $6 50 per ton, the cost in Boston, amounted to $265 46, being a saving in favor of coal of $350 05, or above one half. This is quite an item.

INCENDIARY FIRE AT NEWTON.—A fine, large, new barn on the estate of B. B. Mussey, Esq., on Nonantum Hill, Newton Corner, was totally destroyed, with valuable contents, by an incendiary fire set in the hay loft about 9 o'clock Friday night. The loss is estimated at $5500, on which there is $4000 insurance in Boston. Among the contents of the barn, which was destroyed, were a beautiful span of coach horses, valued at $800; a coach worth $950; a Morgan farm horse, worth $175; a carryall, double sleigh, wagon, harnesses, farming tools, hay, grain, &c.

CAULKERS RETURNED.—Twenty of the workmen who were employed at Charlestown Navy Yard on the new frigate Merrimack, and who struck for higher wages, have returned, and gone to work at the former price—$2,50 per day.

SUICIDE IN CAMBRIDGE.—On Thursday night, a young man named Gillis committed suicide in Cambridge, by shooting himself with a pistol. There are incidents connected with the sad affair which are painfully interesting. Mr. Gillis formerly resided in Salem, was a young man of prepossessing appearance and very respectable literary attainments.—He had paid his addresses to an estimable and wealthy young lady—a distant relative, who resided in the family of her guardian in Cambride; the lady regarded him only as a friend and relative, and rejected a proposal of marriage. Gillis threatened to kill the lady and himself. Thursday evening she gave a social entertainment at her boarding-house. During the evening, Gillis was detected in looking in at the windows, and as a precautionary measure, in view of his threat, police officer Bryant was stationed in the vicinity. Soon the report of a pistol was heard, and a few moments after Gillis found near the window dead, having shot himself through the head. The body was conveyed to the police station-house, and a coroner was called.—Gillis was about 25 years of age.—*Boston Chronicle.*

THE SUSPENSION BRIDGE.—We learn that six thousand four hundred and fifty one passengers crossed the Great Western Railway Suspension Bridge, at Niagara Falls, the last four days preceding Saturday last.—*Buffalo Courier, April 13th.*

LOCAL.

☞ The New-England Bards, under the direction of Mr. E. Freeman Whitehouse, are to give a concert at the Temple this evening. The same talented company gave a concert in this city, a few months since, which was highly applauded by those who were present; and it is presumed that a full house, such as we bespeak for them at this time, would make them sing with still more spirit.

MRS. WENTWORTH'S CONCERT, at the Temple, to-morrow evening, will be one of the best of the season. To those who have had the pleasure of hearing her we need not say a word; but for the benefit of those who have not, we copy the following notice from the Worcester Spy, who is well posted in musical matters:

"Emma A. Wentworth possesses a soprano voice of great sweetness and beauty. For purity of tone, and delicate finish of style, she is equalled by few, and surpassed by none.—She is a great favorite in Boston, and enjoys a more general popularity than any soprano who has graced the concerts for many a season. Her name is deemed indispensable to the completeness of a programme. It is rare, indeed, that she fails of unanimous applause, and a hearty encore. The beauty of her style, while perfectly simple and natural, is yet highly artistic, and charms all listeners; gratifying the tastes, not only of the more cultivated and fastidious, but claiming the willing admiration of all lovers of music. It may be added, without impropriety, that her appearance and manner, so modest and lady-like, are sure to win all hearts. It is quite safe to predict for her a decided and gratifying success."

☞ Persons desirous of investing in Real Estate, should examine our Auction column this morning. Several valuable lots are offered at Auction.

LARGE ICEBERG.—Cpt. Norton, of whaleship Northern Light, at Fairhaven, reports having seen "a large iceberg, about 500 feet high and six miles long

FROM THE MAPLE SUGAR DISTRICT.—The editor of the Nashua Telegraph is authority on all subjects connected with dogs, cats, and maple sugar. In regard to the last named article, he has the following in his paper of this day's date:

Sap hardly began to run till this week, and very few sugar makers had "tapped." Upon southern exposures it ran a little last week, and a very little found its way to market. This probably will not be a great "sap year." There is plenty of snow, but where "sap weather" holds off till the middle of April, there is a lack of freezing nights, without which sap never runs freely.

Judge Grier, of the U. S. circuit court for Pennsylvania, has decided that a ton of coal is 2240 and not 2000 pounds. The question came before him on appeal from the U. S. district court, in an action to recover for coal furnished a steamer. The judge said a company of grocers might as well meet and agree to reduce the number of ounces in a pound, and make the smaller number the standard of a pound for their customers, as for coal dealers to agree that the weight of a ton shall be 2000 pounds. His decision conflicts with a decision of the supreme court of Pennsylvania, which decided a case in Pittsburg a few days ago, that according to the laws of Pennsylvania a ton weight was 2000 lbs.

SUDDEN DEATH.—*Suspicion of Poisoning.*—Saturday morning, a woman named Abby Ann Worseley, died very suddenly at a house in Belknap street, under circumstances to warrant the belief that she was poisoned.—On Tuesday last she was taken from house No. 19 Endicott street. She was about 20 years of age, and formerly lived in the west part of the State. Coroner Pratt was called to hold an inquest. A man was arrested on suspicion, and committed to await the result of the Coroner's investigation.—*Boston Chron.*

DESCENT ON THE DANCE HOUSES AND THEIR VISITORS.—We understand that orders have been given by the head of the police to close such dance houses as are frequented by depraved and abandoned men and women. Friday evening, a well-known establishment was closed. Five sisters of frailty were arrested and committed to jail. It will be remembered that a bill in relation to night walkers has passed and become a law, so that the frail fair ones who may be arrested are in some danger of being "sent over" from one to to three months.—*Boston Chronicle.*

MASSACHUSETTS.—On Friday, the Ten Hour Law of the House was defeated in the Senate. Mr. Baker of Middlesex, made a most eloquent effort to preserve the bill, but his arguments fell powerless upon the hard headed and conservative Senators, who could not see the propriety of submitting corporations to a rule which individuals were not subjected to. The bill was lost by a vote of more than two to one.

ROBBING A DRUNKEN MAN.—A fellow named Michael Slattery, was arrested in Broad street, Boston, on Friday evening, in the act of picking the pocket of a drunken man named Wallace, who was lying on the sidewalk. The officer took both the pickpocket and the drunkard to the Second Station house.

COLUMBIA, S. C., April 13.—A letter to the Charleston Courier, by the steamship Isabel, states that another American citizen, named Charles A. Peck, a dentist, residing at Trinidad de Cuba, was arrested on the 8th, brought to Havana, and placed in the barracks. Peck is totally ignorant of the nature of the offence charged against him. His wife and mother live in New York.

The elder brothers Beken have been liberated, but it is feared that the younger brother has been banished.

HOW ESTEEMED BY PHYSICIANS—JOHN A. BERRY, M.D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope it will be better known and more generally used."—[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

FROM CALIFORNIA.

ARRIVAL OF THE NORTHERN LIGHT.

NEW YORK, April 15.—The steamship Northern Light arrived at this port this afternoon bringing dates from San Francisco up to the 24th ult. About fifty cabin passengers, and $170,000 in specie.

The Nicaragua steamship Co. have discovered a very valuable coal mine about twenty five miles from San Juan Del Norte, and within about one mile of the coast.

Our correspondent at San Francisco writing on the 24th ult. says there has been very little if any improvement in financial affairs during the previous week. The rain had ceased, and the weather had become unusually hot, for the season of the year.

The miners were generally doing well, though owing to the scarcity of coin with which to purchase the dust, little gold was coming forward.

The Kern River has disappointed expectation, and many were returning disgusted and discouraged.

It is reported at San Francisco that Sanders, the extensive swindler and forger, escaped on the mail steamer for Panama on the 16th.

The Legislature has passed a registry law. A telegraphic despatch to the Times and Transcript, dated Sacramento, March 23d, says that the members of the San Francisco delegation had given notice of an intention to introduce a bill to abolish the city government of San Francisco, and appoint trustees to regulate affairs. Efforts are making to amend the city charter of San Francisco.

A lump of gold weighing 187 ounces, and worth $3,366, was recently found by a miner in Trinity County.

Robinson, the ex-banker, has been committed to bail in the sum of $5000 on each of the bills found agaist him.

The miners at Springfield, Shaw's Flat, and other places are in considerable excitement, and have struck in order to compel the water company to reduce their rates.

NEW YORK, April 15.—The argument in the Court of Oyer and Terminer on the motion to admit to bail the alleged accessories to the murder of Wm. Poole was concluded yesterday. The counsel for the accused stated, in the course of his remarks, that he had received a letter from Baker, the fugitive principal, since he left New York, stating that he, Baker, had shot Poole, but that he had done so in self defence. Poole being at the time lying on his body and endeavoring to shoot him.

A meeting of the friends of Dr. Charles A. Peck of this city, recently arrested in Trinidad de Cuba, was held here last night. A depatation has been despatch'd to Washington, to lay the facts of the case, so far as they are known, before the Government; and a committee was appointed to take steps for the holding of a public meeting in the Park, to vindicate the rights of American citizens. At the meeting a private letter was read, dated "Puerto Principe April 5," detailing the arrest of Dr. Peck, and his partner, a former student of the Doctor in this city. The Doctor was arrested at midnight, his trunks ransacked, and personally brutally insulted. Dr. Peck was confined in a stable, among horses and cattle, surrounded by filth.

The letter states that the physician in attendance freely expressed his doubts of his health it long confined in his present prison.

NEW YORK, April 16.—Mayor Wood will issue a proclamation to-morrow, to the effect that he considers it his duty, and that therefore it his intention to enforce the Maine Law to the full extent of his power.

From Havana.—The steamship Cahawba arrived this morning with Havana dates to the 11th inst.

Havana was quiet, nothing of interest transpiring. The city was still garrisoned by the volunteers, the regular troops being stationed along the coast.

Dr. Peck, recently arrested at Puerto Principe, was released from prison the morning the Cahawba left, on the security of a friend that he would remain in Havana until his case was decided.

Carlos Castillo had also been released from the Moro, and allowed to remain at his residence until the sailing of the packet for Cadiz.

NEW YORK, April 15.—The leading hotel proprietors, importers and wholesale liquor dealers, hold a meeting at the Astor House last night, for the purpose of taking into consideration the best means to nullify the liquor law recently passed by the New York Legislature. It was decided to raise a fund to fee the most eminent lawyers in the city, in order to obtain their opinion as to the constitutionality of the law—over $8000 were subscribed. A committee of arrangements was appointed to co-operate with the retail Liquor Dealers' Association, and also with the distillers, both of whom have societies, which meet every night. They adjourned to meet again next week.

It is every way creditable to handle the yard stick and to measure tape; the only discredit consists in having a soul whose range of thought is as short as the stick and as narrow as the tape.

VALUABLE CARGO.—On Friday the new packet ship "Cathedral," of Train & Co.'s Liverpool line, cleared from Boston with a large number of passengers. Her cargo was valued at $260,000.

Take this along with you.—"Tis just what you want.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Broncbitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of fermentation of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

BY PRESIDENT EDWARD HITCHCOCK, D. D., LL. D.

CONTAINING THIRTY ILLUSTRATIONS.

Opinions of the Press.

A charming and instructive fable, and one that will implant good seed in many a youthful mind.—*Philadelphia paper.*

It is a good work, will make the boys laugh, teach them a good moral lesson, and many other things besides.—*Boston Weekly Telegraph.*

An amusing book, full of rich matter, worthy the particular attention of all persons interested in reforms.—*Boston Transcript.*

An extraordinary allegory, well illustrated.—The whole forms a peculiar but forcible plea for sobriety.—*Watchman and Reflector.*

It is brimful of fun and temperance, with an occasional sly hit at some of the follies and evils besides those arising from the sale of alcoholic drinks.—*Congregationalist.*

United States Bounty Land Agency.
Press Forward your Claim.

ARMY AND NAVY OFFICERS, SOLDIERS, both Regulars and Volunteers, Sailors, Marines, Flotilla-Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States, since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all those who received Bounty Land, enough more to make One Hundred and Sixty Acres!

In the case of the death of the person entitled to Land, his Widow, or if no Widow, the minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for Land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and others, with the necessary authorities and Blank forms, free of cost, on application, by mail, or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

Patents.
AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
70 State st., opp. Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through his agency within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, and have access to a library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining documents. Copies of any patent of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JONAH LEECH, Philadelphia,—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

☞ *Beware of Counterfeits and Imitations!!*

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing a sample of the most respectable testimony, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which I have so much recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered excessively, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

WEDNESDAY, APRIL 18, 1855.

SPANISH OPPRESSION.

The Boston Times has a belligerent article calling for vengeance against Spain. The following paragraphs are extracts:—

Our fleet, our army, our officers of justice, have aided in preserving the dominion of the Spanish Crown over Cuba. Our people have been taxed and our treasury has been bled for this object.

The flag of Spain has been treated with respect. Was this because we loved oppression and desired to fix the yoke of Spanish tyranny forever on the fair island?

No doubt the Spanish flag has been treated with *respect*; and Cuba has been treated with more than respect—yea, with *ardent desire*—by the fillibusters, by our Ministerial Conference, Soule, Mason and others.

Why was all this? The oceans of Florida are gory red with the martyr blood of patriots. From the earth of Cuba it cries to heaven and to us. What stays the giant strength of the United States, and curbs her impassioned soul? We will answer, the honor of our country required that her treaties should be respected; we had a treaty of peace and amity with Spain, and, though our hearts bled for unfortunate Cuba, and our souls revolted at our cruel ally, yet to the letter of the document would we keep the bond, and we have kept it, spirit and letter, form and substance. We have done more, we have given no offence to Spain—sought out no unsettled point on which to vex her; our liberality has been unparalleled.

Encouraged, but not pacified by our unparalleled liberality—old Spain has all at once, (without any cause we must suppose,) become suspicious that fillibusters from the United States are about to land in Cuba, and overhauls American vessels, to ascertain whether they contain armed invaders, or peaceful mariners. This the Times deems a great insult, saying,

Our honor now demands of the government that a stern repression of these outrages should be enforced. The culprit Spanish men-of-war should be arrested on the ocean by our fleet, and their flag humiliated. A practical lesson in the law of nations should be taught to this offensive and intruding power. The sooner it is done, the freer shall we be from these outrages on the freedom of the seas and the honor of the flag of the United States.

ARGUS ON POLITICS.—The Eastern Argus of the 16th inst. says:

We do not, and never have admitted politics to be that cesspool of corruption * * * but precisely the contrary. We hold politics, as a science, to be most noble in its aims, having directly in view the highest welfare of the human family; and that the best of politicians must be, and are among the best as well as the ablest of men.

This is excellent: Politics, as the science of government, is a high branch of ethics; this science, or the art connected with it, is surely not beneath the attention or unworthy of the study, of the most profound scholars, of the most ardent philanthropists, or the most devoted christians. It involves the safety of the country from foreign foes, the increase of its resources, and the preservation and improvement of morals.

In a lower sense, the contests of parties to get or to keep power are styled politics; and here *tactics* have to be studied, as well as *principles*. But even here,—as in a Republic this kind of contest or struggle will and must go on—there is often, and we think constantly, a loud call for the wisest and the best men in our Republic, *not* to leave public affairs wholly in the hands of designing demagogues and sottish dupes, but to take, quietly but firmly, an active part in carrying out correct moral principles into political action.

True, when they do so, as a rare thing, once in a dozen years, somebody will cry out that such *holy* men should not think of meddling with things so common or unclean.—But this is a silly cry—and it would hardly be raised, or heeded if raised—were all the wise and good men of the country constant at the polls.

THE METHODISTS AND THE REMOVAL OF JUDGE LORING.—We are told that when the news reached the Methodist Conference, in session at Chelsea, on Saturday, that the address for the removal of Judge Loring had passed the House of Representatives, the whole body, some three hundred strong, rose to their feet and gave three cheers.—*Boston Telegraph.*

These 300 are 10 per cent. of the 3000 clerical rebels, who protested against the pet measure of Senator Douglas for the extension of slavery. These cheers are to be taken as an expression of anti-slavery feeling, by one of the strongest denominations in New England.

The proceeding was not in good taste, as to its time and manner; and is not to be considered as evidence of any ill-will to Judge Loring, by men who, generally, do not know him. But it is evidence of a fixed principle of dislike to every manifestation of the slave power, as intense as that of John Wesley, who said that Slavery was the sum of all villanies.

THE NEW YORK hotels intend to raise the price of board to three dollars a day, in consequence of the prohibitory liquor law.

All right: and if so, some good eating houses would pay well.

THE HIGH PRICE OF PRODUCE now is the general subject of complaint, in all parts of the country. In Philadelphia, for instance, eggs sold on Saturday for 25 cents per dozen, butter for 44 cents per pound, prime beef for 14 and 16 cents per pound, prime mutton 12 and 14 cents, moderately-sized chickens $1.50 per pair, and shad from 50 to 75 cents each.

In Delaware wheat is now selling at $2.50 per bushel, corn 90 cents, potatoes $2, superfine flour $11 per barrel, butter 40 cents per pound, eggs 23 to 25 cents per dozen, and chickens 75 to 87 cents per pair.

There is no dispute as to these facts,—perhaps we ought to say these evils; but there are widely different views of their causes and cures. We cannot attribute the general high prices of food, all over the country, to any exact and systematic speculation; but rather to the chaotic state of business, arising from the combined action of absurd trade laws against ourselves, of inflated currency and bubble credit, of wild speculation and unsettled foreign policy. The benefits of the great gold discoveries are more than doubtful, while the evils are palpable and real. So also of our late wars on this continent, and no less of the present war in Europe. Sober people are the sufferers; schemers and adventurers make their fortunes or break their necks; and in their haste to do so, care but little whether they involve a nation in the horrors of war or the miseries of famine.

NEBRASKA.—In the midst of all the "noise and confusion" made by anti Nebraska men in their opposition to the great principle of "popular sovereignty" we would call the attention of democrats to the striking facts, that in the recent State elections 21 Nebraska men have been elected in the northern States, against 25 anti-Nebraska men, and that only 15 Nebraska men have been defeated, while 25 anti-Nebraska men have been made to bite the dust, by the verdict of the people. Those saints who talk so much about the "Nebraska perfidy," can "put that in their pipe and smoke it."—*Marblehead Adv.*

The sinners, who read the papers, will be much gratified to learn some other striking facts, if anybody can tell them; viz.: *Who* these 21 Nebraska men are, and *where* they live, who have been thus happily elected.

HON. RALPH METCALF, the Governor elect of the State, is not dangerously ill, as has been currently reported, but is in his usual health.

Now, does any body know who started the report? We strongly suspect that some bungling paragraph maker itemized it out of an article in the Chronicle, wherein we criticised the Eastern Argus, relative to "serving two masters."

☞ We are requested by Mr. Rufus Small of Biddeford, to state that his great Sale of Engraving will be open till June 5th, the day originally announced for the Distribution, which will then be made at Dover, N. H. A Committee of thirty-eight was chosen at the meeting of shareholders, at Biddeford, on the 16th inst., who reported favorably and to the above effect. Mr. S. may now be found in Dover.

ARE WE TO HAVE THE MAINE LAW?—This is a question deeply interesting to a large portion of the people of the State. By the Maine Law we mean a law by which the presence of liquor and utensils for its sale are made evidence of its sale, and when thus the sale is proved the liquor can be destroyed. The right of search and high fines, also, are essential elements in this class of liquor laws; also the imprisonment of drunken men until they will disclose where they obtained their liquor. Whether the next legislature will come up to the scratch and pass such a law; and *if the* Governor will sign it, can't be told now; but if such a law is passed, it will be of no use unless it is made the duty of some person or persons to prosecute. If the cause, of temperance, morality and religion is to be advanced in the vicinity of Meredith Bridge, by means of law, there must be a public prosecutor, or liquor will flow here as freely under the new law as under the old; especially as the know nothings have elected all the town officers in Meredith and Gilford, and the liquor traffic about here is almost entirely out of democratic hands.—*Meredith Dem.*

LICENSES IN NASHUA.—The Nashua Telegraph says: The board of Aldermen have voted to license all the regular apothecaries in the city to sell spirituous liquors for medicinal and mechanical purposes only, requiring them to keep a record of all persons to whom it is sold, giving the kind and quantity, and the purposes for which sold. We are afraid that under this rule, persons who have a *great deal of sickness in their families* will get their rum where it is sold without a license. We understand, however, that it is the purpose of the authorities to prosecute all known violations of the law.

THE PORTLAND CUSTOM HOUSE.—The work on the Portland Custom House is to be commenced at once, under the charge of Lieutenant Franklin, who is appointed by Secretary Guthrie.—*State of Maine.*

NEBRASKA VOTE REWARDED.—The Portland State of Maine reports that the Hon. Moses McDonald is to be appointed disbursing officer, during the completion of the new Custom House in that city, with a compensation of $8 per day for his services. It has been a subject of comment for some time, how Mr. McDonald would be provided for by the Administration for his vote in favor of Nebraska.—*Boston Transcript.*

Four members of the North Congregational Church, in Springfield, Mass., including one of the deacons, have been dismissed, or, in more ancient phrase, "excommunicated," for having embraced the views of the "spiritualists." No charge whatever is made affecting the moral or social conduct of the individuals.

LOCAL.

LYCEUM LECTURES.

Both our Winter Courses in this city have closed; both must be considered as successful; and both institutions, viz, the Mercantile Library and the Mechanics' Association, have announced courses of lectures for next Winter.

In speaking of the courses just closed, they may be classed together, as they were alike in number of lectures, in price, and in the room where they were held; and as they did not differ materially in character or ability. The same lecturers, to some extent, were employed in both; and a considerable portion of the audiences were the same persons.

It is remarkable that both courses were supplied entirely by lecturers from abroad; most of them from considerable distances:—The only exception to this remark being Rev. Dr. Peabody of this city, who took the place of a delinquent lecturer from abroad.

Most of the lecturers were men celebrated in their line; men of known and acknowledged ability; and they were liberally paid, according to the modern tariff of prices for lecturing. Yet the two courses, as a whole, rise not one whit above the cheaper lectures of less eminent and less distant men, to which we listened five or ten years ago.

About one quarter of the lectures were excellent; another quarter deserve to be called good; the remainder were passable, and that was all. We do not remember one that was contemptible; no one out of which some item of thought or gem of expression might not be gleaned.

If the committees of selection shall do as well another year, it is as much as we can reasonably expect. They cannot do better than to get the best speakers in the market; and in compliance with the whim of the day here, bring them from far. But if the two concerns could be so combined or so arranged as to give us but one lecture a week, making only about half as many lectures,—it would be a public relief, and leave more time for something else, not less valuable.

Good music, before the lecture, used to be a pleasant feature of the former lyceum. Has *good taste* banished it? Or, when we pay from $25 to $50 or even $100 for a lecture,—is it so that we *can't afford* from $1 to $5 per night for music?

For the Chronicle.

PAINT! PAINT!

Messrs. Editors:—It seems to me that when painting is done by the city in public places, something should be done to warn those that are passing, so they may not damage their garments. On Monday afternoon the railing at the South Mill bridge was painted, and in the evening quite a number of ladies as well as gentlemen damaged their garments in passing. It is to be hoped that such things will not occur in the future—but when painting is done in such places, those that do it will be more thoughtful, and not allow the community to have their garments spoiled through carelessness. S. W. C.

MRS. EMMA AUGUSTA WENTWORTH.—This charming lady and talented vocalist makes her first appearance for the season, at the Temple, this evening, supported by Mr. Arthurson and a fine Orchestra. This opportunity to hear Mrs. W. in her native city, will be hailed with delight by her very many friends and the music lovers generally. We bespeak for her a crowded house, and a warm and generous greeting to-night.

☞ The New England Bards, under the direction of Mr. Whitehouse, gave one of their sentimental and amusing concerts at the Temple, on Tuesday evening, and were highly applauded by the audience for the genuine comic in some pieces, and the no less genuine beautiful in the execution of many. The voices of the quartette blend finely together; and the instrumental accompaniment to several of the pieces, was indeed admirable.

MISSIONARY HEROES AND MARTYRS.—We understand that Mr. Dow, who has been furnishing our citizens with the above work, has been successful in introducing it to many families. Being obliged now to suspend these labors and resume his studies, he hopes, on a future visit, to complete the canvass of the city for the circulation of a book so valuable.

BARNS BURNED IN EPPING.—On Tuesday evening last two barns on the Gordon place in Epping, the property of Mr. Stephen Scammon, were burned with their contents, some five or six tons of hay. We understand that they were insured for $300, in the Rockingham Farmers' Co., and that the loss will be several hundred dollars.—*Exeter News Letter.*

FIRE IN CHESTER.—The house and barn of Mr. Simon M. Sanborn, in Chester, were consumed by fire on Sunday the 8th inst., together with a large part of the furniture, hay and other valuable property. The fire was first discovered in the barn, at about half past two o'clock P. M. Cause unknown. Insured at the Rockingham Farmers' Co. for $600.—*Exeter News Letter.*

The great mistake in many of the plans for re-organizing society consists in supposing that system can supply the want of sense.

A plain spoken woman recently visited a married woman, and said to her:

'How do you contrive to amuse yourself?'

'Amuse?' said the other, starting, dont you know I have my house work to do.'

'Yes,' was the reply, 'I see you have it to do. but as it is never done, I concluded you must have some other way of passing your time.'

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M.D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope it will be better known and more generally used."—[See advertisement in another column.]

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healty activity which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the *Cherry Pectoral* for a Cough and the *Pills* for all derangements requiring a purgative medicine.

MELANCHOLY AFFAIR IN MARBLEHEAD.—The Salem Journal says that Mr. Valentine, expressman between Marblehead and Boston, received a few days since $75 belonging to a Mr. Gregory, and having retained it two or three days, Mr. Gregory procured an attachment upon his house, wagon, &c., and a warrant for his arrest. Valentine was much terrified, fled and secreted himself. On Tuesday evening he returned to his mother's house, in a state of extreme terror and excitement, and seizing her hands begged of her not to permit the officers to take him; but no assurances on her part could soothe or calm him; he soon sank upon the floor in convulsive spasms and immediately expired.

A friend of Mr. Gregory, in Boton informs us that the above statement is very incorrect. The money received by Valentine was retained for ten days before the attachment and warrant were issued. Valentine in the meantime had taken pains to keep out of the way, and no information could be obtained of him. He even fled from Mr. Gregory's business partner. For several days before his death he had been drinking freely, and had voluntarily fasted from Saturday to Tuesday. It is also said that one of the Marblehead physicians gave it as his opinion that he died of delirium tremens.—*Boston Telegraph.*

FORNICATION.—Dr. Jeermiah Gates, a physician of Manchester, was brought before the Police court on Friday, charged with fornication with Miss Nira H. Collins, a milliner. He had for some time been suspected of improper intimacy with her, and on Thursday night, they were both arrested by the officers at his lodgings. Gates has a wife, said to be a very estimable lady, who stays at Pembroke much of the time, only visiting home occasionally. He is the son of the late Rev. Abraham Gates, a Baptist minister who many years ago preached in Bow. He has never had but a small practice in Manchester, but has hitherto maintained a respectable character, so far as we have heard.

Gates waived an examination, and was bound over in the sum of $300, to appear at the Court of Common-Pleas to be holden at Amherst next week. He furnished the bail and was accordingly released.

A complaint was also made against the girl for fornication, and she also waived examination, and was bound in the sum of $100, to appear at the next term of the Court of Common Pleas.—*Manchester American.*

They will probably forfeit their bail, and disappear from New England.

NEW YORK, April 17.—The Washington correspondent of the Tribune says: Although some members of the Cabinet were at first opposed to any decided steps against Spain, I have the best authority for saying that the instructions to Com. Macauley were unanimously approved of. These instructions, which were drawn out by the President personally, were unusually strong.

The French Legation here has intimated that should hostilities ensue between the United States and Spain, France will promptly support her European neighbor.

DOUBLE MURDER IN MONTEREY.—On Thursday last, Jerry McMason, the brother-in-law of Wm. Rooch, late Sheriff of the county; and Dr. Sanford, husband of the late widow Sanchez, met in the bar room of McDeran's Hotel, and after exchanging a few words they both drew pistols and fired. Each party was shot through the right lung, killing both instantly.—*Placer Times, March 24th.*

NEW YORK LEGISLATURE.—The Legislature of New York closed its business and adjourned without day, last Saturday afternoon. Before adjourning it adopted a series of resolutions against slavery and secret societies. The attempt to remodel the police system of New York, against which there was such an earnest protest from that city, was defeated. The liquor bill, and a bill to regulate the tenure of church property, are among the most important measures adopted. The latter provides that all church property shall be held by trustees, and is aimed at the Catholic Church, which makes the Bishops, the depositories of all titles to church property.

CONCORD, N. H., April 16.—The Northern Mail train was thrown off the track P. M. two miles above Franklin, N. H., and fell down an embankment of about 25 30 feet. No one was seriously injured. The engine, two baggage and two passenger cars went over.

CLYDE, N. Y., April 16.—A family of six persons were poisoned last night by one of them putting arsenic into some biscuit by mistake instead of saleratus. None have died yet, but their lives are dispaired of.

BALTIMORE, April 16.—The Star denies the truth of the Post's story about a war with Spain, and says Secretary Guthrie has written nothing of any rumor of the kind. Mr. Dodge reached here last evening. He sails for Madrid next week.

PIGEONS.—The air was darkened fairly by the flight of pigeons northward, over the city, this morning. This is the third attempt these feathered immigrants have made to penetrate the north, believing probably that summer was coming—if pigeons can be said to believe anything.—*Chicago Journal, April 5th.*

GREAT FOUR MILE RACE.—In the great four mile race which came off at New Orleans, April 14, Lexington beat Lecompte in one heat—time 7:22 1-4. Lecompte being distanced was then withdrawn.

MELANCHOLY SUICIDE.—A young wife took arsenic and died at Poughkeepsie, N. Y., last week. She lived in the house with her husband's parents, both of whom were abusive towards her, and he was not man enough to defend her. She wrote a letter full of love to her husband, in which she said she "could stand it no longer." The affair caused much excitment.

MORE MOUSING.—Mr. Amory, at his eating house, having repeatedly missed bank bills of various denominations from his money drawer, without being able to suspect any of his waiters, has just found that a matronly mouse had $15 of the money in a nice cosy nest for her young ones.—*Boston Mail.*

Take this along with you.—'Tis just what you want.
The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,

AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says—"The morrell medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. Lyman Beecher, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. Leonard Woods, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. Daniel P. Thompson, Secretary of State of Vermont.—N. F. Williams, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. Joshua Lutch, Philadelphia,—and many others.

Hon Ephraim Ware Finnegan.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your Vegetable Pulmonary Balsam is best, and I hope will be better known and more generally used."

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the re-sult of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

Caution—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "Herts, Brothers' Patent, 1858," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation of the Womb; Incidental Hemorrhage of Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the benefit derived from its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the Uterine Catholicon, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its various forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of Marchisi's Uterine Catholicon, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at times *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 87 Mill street.
